

"Get In Among the Skyscrapers"

Have you seen the magnificent Boston and Newhouse buildings pierce the sky?

Have you seen the announcement of the building of the Newhouse Hotel? The construction will be started shortly, and the hotel will be the finest in the West.

Adjoining the Newhouse building on the east the Commercial Club's palatial \$200,000 home is to be located. Work will begin July 4th, 1908. The ground is the generous gift of Samuel Newhouse.

Every foot of ground is being made more valuable by these improvements, and commercial Salt Lake has set a moving day.

The Judge Building, the Federal Building, the Boston and Newhouse Blocks

are not architectural fancies,

They are Realities—They are Here

Mr Merchant, come in and let us tell you what we have in Store Rooms in this vicinity.

If we haven't one already built that suits you, we will build you one—build to meet your wants.

Do not wait too long, for property in the new business center is going fast, and a few months will see a wonderful change.

Telephones 27

251 S. Main Street

Between Third and Fifth South, State and West Temple Streets, more modern buildings are planned and in course of construction than any twenty years of Salt Lake's existence has ever known.
