

Social Saunterings

Judge and Mrs. Powers have as a charming guest, Miss Margaret Fields of Chicago, and she is welcomed by all the younger Salt Lake society. Many informal affairs are being given in her honor. Mrs. Russell Tracy entertained during the week for her at a dinner party at the Country Club, covers being laid for twelve, and Mrs. Karl Scheid will give a porch bridge party next Wednesday for Miss Field and Miss Fabian.

The Country club has been the coolest place about town all week. At least half a dozen small parties have been arranged for today, both for dinner and for the tennis and golf tournament that closes this afternoon. Wednesday brought the biggest mid-week crowd of the summer out. Mrs. R. H. Officer entertained several of the younger girls for Miss Virginia Beatty. Mrs. Russell Schuller entertained for Miss Kiser, who is a guest at the home of her brother, W. F. Kiser. Miss Ione Morrison gave a luncheon for Mrs. Joseph S. Evans and Miss McCrory, both guests of Mrs. W. H. Child. Miss Edith Sutherland was the guest of honor of Miss Stella Fabian, covers being laid for eight. Mrs. H. D. Niles entertained informally for several of her friends. Tennis and golf have drawn a good many to the club since the middle of the week, and tonight's crowd ought to break the record.

A yard and a half of green tights coming into view through a two and a half foot slit in a pearl gray skirt every time the wearer takes a step as she floats into the dining room will pretty nearly start something anywhere and as yet Salt Lakers are not so blasé as to pass the performance up unnoticed.

About one more day in town for the young lady from Rhyolite and she never would have been looked in the face again.

The Directoire gown hit us about one lap behind New York. Its first appearance at a popular downtown cafe all but put the chef out of business. Several of the regulars suffering from streaks of emotional modesty glanced at the young lady's face as she entered. The rest refused to take a chance, and played the green to win as long as they could see it. A little game of roulette in Rhyolite several weeks ago in which Dick Jones cleaned up a few thou-

sands brought Mrs. Jones and the Directoire to town.

The gown consisted of a gray hat with green willow plumes, steel bead embroidery, and steel bead butterfly pins, a gray jacket with tails trimmed in green and steel buttons, a gray skirt with four steel buttons on the left side and slashed on that side from a few inches above the knee to the ground, exposing a pair of green silk tights with buttons of steel, giving a legging effect, and gray low shoes. The bill read \$60 for the tights, \$300 for the skirt and jacket, \$78 for the hat, \$40 for the plumes and \$200 for the hat pins.

Where was Pitt?

Lieutenant Colonel and Mrs. Arthur Williams are among those who have entertained during the week at the Post. Wednesday afternoon they gave a large and elaborate bridge party for the entire garrison. The Misses Williams assisted in receiving. There have been a half dozen affairs at the Post the last few days. The officers are winding up their tennis tournament and the finals will be played today. The Officers' club will keep open house for the ladies.

Captain and Mrs. J. M. Love, who were at the Post for some time with the Fifteenth, have gone to Savannah, Ga., where the captain is on recruiting duty.

Mr. and Mrs. Robert Glendinning are back from their eastern and Canadian trip.

Mr. and Mrs. Simon Bamberger and Sydney are home from the East. The latter's health is greatly improved.

The engagement of Miss Annie Luff of Oak Park, Ill., daughter of Major and Mrs. Edwin Luff, to Oran W. Ott, of this city, is announced.

The Brighton season is on for fair, and the regulars are climbing over themselves trying to get up the canyon with bag and baggage. Fisher Harris has moved his family up. The C. W. Johnsons went up Wednesday, and Mr. and Mrs. A. M. Howard have disappeared up Big Cottonwood. In another week the cottages will practically all be opened. Half a dozen new cottages

have been built and there is promise of lively doings for Brightonites during the next few weeks.

If the exodus keeps up there will be a dull, aching void in society circles shortly. Half a dozen of the younger crowd are at Park City at two or three house parties. Miss Amy Osborne went up the latter part of last week, and early this week Miss Kate Williams and the Misses Bess and Mildred McMillan went up, the latter for a house party at the Ontario mine. Licurgus Williams has been up for several days and Sam Williams, Jr., Mr. Pope and Harold Lamb went up today to join the party.

Governor and Mrs. Cutler entertained Thursday evening at a large lawn party at their home on West Temple street.

Miss Nellie Starkweather is here from Detroit to visit her brother and sister, Mr. and Mrs. F. A. Starkweather.

To several local members whose redundant curves create eternal hope for a few thousand Before-and-After concerns, the announcement that a new way has been discovered of excavating wasp waists long hidden in all their pristine beauty beneath successive layers of adipose from the enshrouding tissues, should prove of more than passing interest.

The surgeon's knife is the latest anti-fat game. In Virginia last week a 400 pounder had 100 pounds of fat removed from his torso without trouble and very little annoyance. The physicians claim fat can be removed from any portion of the body except around the vital organs by the knife without danger.

This way, doctor. Three contracts on Brigham for the asking.

Several affairs have been given in honor of Miss Kiser during the week, and they end up this afternoon with a box party at the Orpheum in her honor given by Mrs. Percy Molson.

Mr. and Mrs. John Q. Critchlow entertained a party at the Orpheum on Monday evening.

THE ONLY PEBBLE ON THE BEACH

Our Great Water Softening Plant

stands as a monument to our enterprise and energy. The use of hard city water in the past prevented our getting the best results. Soft water whitens the white goods, brightens the colored goods, softens the fabric. Gives longer wear. The only water softening plant used by any laundry in the city, the largest used by any laundry in the world, is operated by us.
