

The Louvre has through its continued success, progressed to a point where it is now an essential part of the business and social life of Greater Salt Lake.

The courtesy of the treatment one receives at this cafe, together with the perfect cuisine, promptness of service and modern accessories, together with good music, and the Bohemian spirit that pervades the place, makes of the Louvre the one place for those who enjoy the comforts and nice surroundings that should go with a city cafe.

Table d'hote and a la carte luncheons and a la carte service from two until two.

Plans are now being perfected by which the Louvre will be made even more attractive than at present. The change is to begin soon after the holidays.

By means of the added features, there will be much more room for patrons, including, besides the present main dining room and alcoves, a tea room for ladies, a palm room, army room and Bohemian room. When these improvements are completed the Louvre will be just a little different and far ahead of other western cafes.

The new facilities will mean that we will be in a better position than ever to provide for private parties.
