Does Quality Count With You?

You Buy Cheapest When You
Buy the Best Selected Goods

Our First Requirement in Our
Goods is Quality, Our Second
a Reasonable Price.

We have never been anything but jewelers and our experience of nearly half a century has earned our reputation for absolute reliability. Our stock of diamonds is noted from Chicago to the Coast for its variety and superb quality. Our lines of watches, jewelry and silver are equally as good. You make a serious mistake if you buy without seeing our stock.
