Positively Cures

Alcoholic Inebriety, Opium, Morphine, Cocaine and other Drug Addictions

The demand for sobriety in industrial positions has been a great promoter of temperance reforms. Men who would not stop drinking, through principle have made desperate efforts to stop for business reasons. Sometimes they have succeeded. But they have suffered much in doing so.

What is the use of suffering when it can be avoided? Will power does not restore diseased nerve cells to their normal condition. It does not build up the falling strength. Inebriety is a disease. It cannot be cured without appropriate remedies. The Keeley Cure is such a remedy. It enables the drinking man to give up whiskey without suffering.

28 YEARS OF CONTINUOUS SUCCESS PROVES:

First, That the Keeley Cure CURES addictions.
Second, That general health of the patient is ALWAYS improved.
Third, All patients leave us SATISFIED and ENTHUSIASTIC; they are our best advertisements.

Printed matter and particulars by mail in sealed plain envelope. All correspondence strictly confidential.
