record breaking run and arrived in Denver last night. The roads from Omaha are in unusually bad shape, according to a wire from Mr. Botterill Wednesday, and the time was necessarily slow on that account.

W. F. Dodd of the Randall-Dodd company is in Portland looking over the motor car business and prospects in that place and the northwest generally. Locally the company is daily expecting the arrival of another shipment of Thomas cars. The lot will include another of the big six cylinder seventy horsepower Thomas flyers.

August Stocker's first shipment of 1910 model cars arrived last week. The shipment consisted of four XX model Autocars touring cars and roadsters. The cars have made an excellent impression and were sold in record-breaking time to Aaron Keyser, C. H. Doolittle, F. S. Luff and Percy V. Molson.

One of the most interesting tours to be made this season from Salt Lake is that now being run by A. J. Bettles to his ranch in Alberta, Canada, in his new Peerless touring car. Mr. Bettles purchased the car a month or so ago from August Stocker and left a week ago for his long tour. The trip is a hard one and will prove a splendid test for the Peerless.

Among the sales negotiated by the Studebaker company the past ten days is a model D electric to J. J. Daly and an E. M. F. thirty to E. H. Rich. The company is awaiting the arrival of a big consignment of E. M. F.'s, due from the factory before August 1st.

Charlie Clow is planning a tour in his new Chalmers-Detroit forty, from Salt Lake to his Idaho ranch, in August. Mrs. Clow, who has been seriously ill for several weeks is now convalescing and will make the trip with Mr. Clow. The tour as originally planned had Seattle for its objective point, but this was given up on account of Mrs. Clow's illness.

FINE CAMPING PLACE.

A good many people would like to get out of town for a few weeks, but do not know where to go; that is, they do not know where they can go and have green grass and trees and a good place to camp without they select some expensive place.

Such people may be glad to know that right here in the valley, twelve miles from the city, a mile and a half below the mouth of Big Cottonwood, R. Knudsen has a park of fifty acres, with the Cottonwood running through it, lots of trees, lots of grass, cold water, which can be reached in two hours by team or forty minutes by automobile, where all the surroundings are pleasant, where all the usual necessities of life can be obtained cheaply—just a camping place—no beer there, no whiskey, no company except such as one pleases to select—all the comforts of a home if you please to live in a tent and take your tent with you.

Until a railroad is built, people without teams cannot get there, and we suggest to people when they are out driving or out with their autos that they run up and see this place, because it is one of the most beautiful natural parks in the entire valley.

The Seeing New York automobile was moving through the financial district. "This is Wall Street!" announced the man with the megaphone. "Keep your hand on your purse, Hyrum!" hoarsely whispered a lady from the open country to her husband.
