YOUR HOME—THE ONE BEST INVESTMENT.

Those persons who have suffered the disadvantages connected with renting houses know only too well that they have been paying for property, allowing other men to hold the titles and reap the benefits of ownership. Anyone who has rented for ten years has paid for the house he occupied.

Under the plan of the Salt Lake Security & Trust company you pay for your home in ten years and the monthly payments are no more than rent. This system is especially advantageous to those persons who have a regular income and desire to purchase property either for a home or for investment. It is always better to invest money in improved, well-located real estate than to put it into questionable enterprises which may or may not turn out successfully.

This plan has the following advantages: You do not have to wait years to save enough to buy a home. You live in and enjoy your home while paying for it. You save the money you are now spending for rent and your home keeps increasing in value each year. As an investment it is the safest and most satisfactory that can be made.

An Example.

You buy a place for	\$3,000.00
You pay down	500.00
<hr/>	
Leaving balance due	\$2,500.00
Your monthly payment is	\$30.00
Your monthly interest is	7.29

The amount applied monthly on principal is\$22.71

This means that in 110 months, by paying just the amount the house would rent for monthly, you have your home fully paid for. The only money you have actually invested in it is \$500.00, and you are the owner then, free and clear, of a property worth \$3,000.00 to start with, and which has undoubtedly increased in value by the growth of the city and the improvements you have made.

Where desired the contract can be drawn up to specify that one hundred and ten monthly payments will pay for the house in full, interest and all. Of course you have the privilege of paying more any time you desire.

No matter how small or how large a house you desire, you can arrange with this company to advance the necessary amount to buy or build you a home and you can pay us back in easy monthly payments, the same as rent.

We have houses, prices, and terms to fit all pockets. If you are thinking of buying or building, let us figure with you. In the construction of houses, this company spares no expense to assure durability, solidity, and convenience.

In all of the twenty years that we have been building and selling homes on monthly payments, we have never had to take one away from the purchaser for failure to pay. During the hard times we have had to wait many months for a payment, but it always came finally. In cases where people have moved away from the city, they have been able to sell the property to some one else, usually at a profit.

If you ever intend to buy or build, do it now and get the benefit of the increase in property values. Both material and real estate are advancing in price every year and an investment in Salt Lake real estate today will double in value in five years.
