**NORTHERN ROUTE IS BEING PLACED IN GOOD CONDITION**

J. D. Larson of the Weber club, who returned yesterday from an automobile trip to Reno, Nev., stated today that the trip was successful in every respect, the return journey of 600 miles being made in two and a half days. The road conditions between Ogden and Reno are 100 per cent better than they were a year ago and, with the exception of about 75 of the 600 miles, are exceptionally good, taking into consideration the length of time that the work of road building has been seriously taken up by the people of northern Utah and Nevada.

Two big traction engines are now being used near Snowville, and on Monday put into good condition a stretch of road 5 1/2 miles in length. Work is also going forward on other parts of the northern route in Utah and when it is completed from Ogden to the Nevada line, it will be the longest stretch of good road in the state. The road between Ogden and Snowville is already in good condition for tourist travel.

The old Southern Pacific roadbed is being utilized for the new road and this has made possible a number of advantageous cuts. Where the roadbed is not used, the route runs parallel to the Southern Pacific tracks, but cuts off Kelton, going instead through Clark valley.

In speaking of the remarkable growth of the country along the northern route, which should be a drawing card for tourists, Mr. Larson said that for miles on either side, orchards and grain fields were to be seen bearing bumper crops. Near Tremonton, upwards of 20 headers could be seen working in one vast field of grain.

**EIGHTY-EIGHT IN THE SHADE AT NOON TODAY**

That August will come in good and warm is predicted by those who have kept an eye on weather conditions. Frequent showers of recent date have had much to do with cooling the atmosphere, but when the sun is unobstructed there is plenty of heat for all. Today the temperature reached 88 degrees, but began to recede after the noon hour.

The prophets say that the early part of August, unless there are many thunder showers, will be sizzling.

**CONSULATES IN NEW YORK BUSY**

Crowds of Men Capable of Bearing Arms File Names for War Duty.

New York, July 29.—The consulates of Austria-Hungary and Serbia in this city were busy places again today and at an early hour crowds of men capable of bearing arms filed their names with the consuls and secretaries in charge and promised to hold themselves in readiness to return to their native countries for active military service.

The Austro-Hungarian consulate it was stated that in the event of a large number of reserves in this country being called upon for service steamships would be chartered by the government to transport them to Austria. How the Serbian reservists would get back for military duty was a problem, it was said at the Serbian consulate, that would be solved quickly when the time for action arrived. Within a few days the Austrian consulate officials hope to know how many reservists in this country have been summoned and whether it will be necessary to charter steamships.

A possible feature of the war, it was pointed out today, was the recruiting in this country of Macedonian reserves who since the war with Turkey have come under Servian rule.

Each little guest was given a pink flower as a favor.

**WARBURG WILL MEET SENATORS**

Washington, July 29.—President Wilson today received a telegram from Paul M. Warburg of New York said he had practically decided to come to Washington to confer with the senate banking committee on his nomination as a member of the federal reserve board.

Although the telegram did not state in terms that Mr. Warburg would come, White House officials said they considered the question closed, and that Mr. Warburg would appear in the near future.
