

The Evening Standard.

FEARLESS, INDEPENDENT, PROGRESSIVE NEWSPAPER.

OGDEN CITY, UTAH, SATURDAY EVENING, MARCH 8, 1913

WEATHER FORECAST

THE INDICATIONS ARE THAT THE WEATHER WILL BE FAIR TO NIGHT AND SUNDAY; NOT MUCH CHANGE IN TEMPERATURE.

The Evening Standard has the largest circulation in Ogden, in Weber county, in Utah and in the United States, of any paper published in Utah outside of Salt Lake City. That is why our columns are worth more for advertising.

Forty-third Year—No. 58—Price Five Cents.

Entered as Second-class Matter at the Postoffice, Ogden, Utah.

LETTERS TO BE PUBLIC

Huerta Plans to Give Out Alleged Orders Against U. S. By Madero

Mexico City, March 8.—It was announced today that Provisional President Huerta is considering the advisability of making public the official correspondence of the closing days of the Madero administration, with the object of showing that the late president made strenuous efforts to include anti-American sentiment throughout the republic.

Among the alleged orders given by Madero during the last week of his rule is one which directs the officers of the Mexican gunboats lying in the port of Vera Cruz "to fire immediately on the American marines if an attempt is made to land forces from the United States war vessels, paying no heed to the expressed purpose of the American naval commanders merely to protect foreigners."

The execution of such an order would have meant the suicide of the Mexican naval forces as a single shell from the battleship Georgia, then lying only 300 yards away, would have been sufficient to destroy the Mexican gunboats.

Madero Was Desperate.

It is also asserted that the official files show that a few days before his capture Francisco Madero, in desperation telegraphed to the state governors and jefe politicos throughout the republic, stating that American marines had landed at Vera Cruz and that this foreign invasion demanded the loyalty of all Mexican citizens.

Will Publish Orders.

The government may also publish the orders given by Francisco Madero to General Huerta, then commander of the federal forces. The orders are said to include instructions to dynamite all the public and private buildings between the national palace and the arsenal.

RIVALRY IN CHURCHES

Presbyterians in Keen Competition to Enroll President

Washington, March 8.—Keen rivalry has sprung up among the Presbyterian churches of Washington over the effort to enroll the membership of President and Mrs. Wilson during their stay in Washington.

So keen has the competition become that the president has declined up to this time to make any announcement of his affiliation. The same holds true in the case of Vice President and Mrs. Marshall, who are also Presbyterians.

The several congregations engaged in the attempt to enroll the heads of the nation are the New York avenue church, the Church of the Covenant and the First Presbyterian church. The first named, because of its accessibility to the White House and the hotel in which the vice president has settled, is believed to have a better chance of winning in the race, than have the others.

Furthermore a number of presidents have worshipped in the office and for years it has been popularly known as the "church of the presidents." It was understood today that the president's family will attend services in the New York avenue edifice tomorrow, although no instructions had been given to the White House employees concerning arrangements.

WILSON AT EACH END OF THE TABLE

Washington, March 8.—There is a Wilson at each end of the cabinet table. The president, at the head of the table, is directly opposite William B. Wilson, the new secretary of labor. The president's new chair has finally arrived, but Secretary Wilson uses the one occupied by Leslie M. Shaw, secretary of the treasury during the Roosevelt administration.

APPOINTMENT SURPRISES OLNEY

Boston, March 8.—The definite announcement from Washington that President Wilson had offered him the post of ambassador at the court of St. James took Richard Olney and his intimate friends by surprise today.

Mr. Olney said: "I have received no such offer and

I doubt the accuracy of the report.

He did not indicate whether he would accept the mission.

Mr. Olney was born in 1835. His last public service was as secretary of state in the cabinet of President Cleveland. He has been occupied since with the practice of law in this city.

When his name was first mentioned in the present connection Mr. Olney treated the suggestion as a joke, and those closely associated with him expressed the opinion that his advanced years would make his entrance to the diplomatic service improbable.

DANGER OF CIVIL WAR

Young Turk Party Split—Grand Vizier May Be Overthrown

London, March 8.—"The peace question involves a perilous danger of civil war," says the correspondent at Constantinople of the Daily Mail.

There is a clear split in the Young Turk party. Schikfat Pasha, the grand vizier, recognizes that it is impossible to get better terms of peace than were offered the Kiamil ministry, while the continuous snobs have defeated whatever military plans he may have formed.

"He wishes to make peace, but the strong section of the Union and Progressive party which is now sitting secretly threatens to overthrow him if he attempts to conclude peace on the terms offered Kiamil.

"Meanwhile the Liberal party is plotting a violent capture of power. The recent murder of Nazim Pasha, commander in chief of the army, is the milestone around the necks of the ministers which yet will pull them down. The army commanders at Tebatalla continually are asking Schikfat when he intends to bring the murderers to justice. He can only answer them, 'After peace is concluded.'

Sedition Threatened.

"Izzet Pasha, commander in chief at Tebatalla, reports that news of the recent plot is causing unrest among the troops and a seditious agitation is threatened. As a result of this, many officers have been arrested and sent here.

"Meaning the mass of the people are totally indifferent to politics or war and only anxious to know how they are to live with the severe winter upon them and all prices trebled.

Enver Bey Makes Flight.

"Enver Bey, accompanied by a German airman, flew over the Bulgarian positions beyond the Tchatalja lines today."

A dispatch to the Daily Mail from Sofia says the allies replies to the powers will declare that mediation will only be useful if Turkey accepts the terms of the allies, including an indemnity and a frontier line from Media to Rodesta.

BLUE LAWS RULED OUT AT CAPITAL

Washington, March 8.—Blue laws in the national capital have received a body blow through a police court decision which declares that barbers may work on Sunday. The case was one in which a local barber was being prosecuted for keeping his shop open on Sunday several months ago. The court held that the regulation prohibiting Sunday barbering was void.

This regulation was enacted in 1869 by the old corporation of Washington and the court held that all regulations of the old corporation were vacated with the establishment of the present form of government.

BALLINGER MAY BE CALLED TO STAND

Chicago, March 8.—Former Secretary Richard A. Ballinger may be called as a witness in the trial of Albert C. Frost and four other defendants before Federal Judge Landis for alleged fraud in obtaining Alaska coal lands.

The testimony of the former official whose controversy with Gifford Pinchot attracted wide attention may be required because he is said to have acted in an advisory capacity to Frost and his assistants in promulgating the alleged \$10,000,000 Alaska coal land scheme.

Work of impaneling a jury to try the case continued today.

MAN AND WIFE GET LONG SENTENCES

Chicago, March 8.—A jury in Judge Kersten's court today returned a verdict finding both Charles Cramer and his wife guilty of the murder of Miss Sophia Singer of Baltimore.

Cramer's punishment was fixed at life imprisonment, while his wife was given 14 years in the state prison.

POLICIES OF NEW BUREAU

Baby Member of Cabinet Sums Up Work of Labor Department

Washington, March 8.—William B. Wilson, the "baby member" of the cabinet, and head of the new department of labor, today summed up in a few words the policy that will govern him in the discharge of his duties.

While apparently he presented the report that he would be a special pleader in the cause of labor, he acknowledged to entertaining strong convictions on the labor question.

"It would not be accurate to say that I represent organized labor in performing my official duty," he said. "I shall represent the government. Of course, however, the point of view has much to do with such matters."

Probably more interest is being taken in the program of the department of labor than in any other executive department of the government. Appointed virtually at the instigation of Samuel Gompers, president of the American Federation of Labor, Mr. Wilson, it was feared by those opposed to union labor methods, would decide all questions from the viewpoint of organized labor and that the American Federation of Labor would be the dominating spirit in the new department.

Friends of Mr. Wilson declare their confidence in his judgment and fairness. They point to his record in the house on labor legislation and insist it always was marked by tolerance and sound sense.

WATCHING THE JUNTA

Maderistas Gathering in Washington May Be Planning Hostilities

Washington, March 8.—Gathering of Maderistas in Washington, headed by Alphonse Madero, one of the deposed family, centers attention upon this government's attitude toward what is said to be a junta planning hostilities to the Huerta government. The Mexico City government already has called attention to it.

While Madero was opposing Porfirio Diaz, the Maderista family planned an elaborate junta in Washington with which both the state department and the department of justice seemed powerless to interfere, further than to keep a close scrutiny of all its members by special agents.

Latin-Americans Busy.

The Latin-American colony of Washington, which seems to have wireless or underground communications with all the rumblings in Central America, is vibrating just now with all sorts of talk and much of it is hostile to the Huerta regime and mentioning prominently Venustiano Carranza, the ex-governor of Coahuila, as the leader in any movement for vengeance for the Maderos.

LITTLE WARSHIPS DRILL SEPARATELY

Washington, March 8.—With a view to increasing the independence of the torpedo boats, destroyers and submarines now attached to the Atlantic fleet, the navy department today decided to assign tenders to each flotilla so that the little vessels could be operated independent of a land base.

In carrying out the plan a change in personnel will be made in the command of the flotilla, Captain William S. Sims, now on duty at the naval college at Newport, R. I., succeeding Captain Edward W. Eberle, who will be assigned to shore duty.

The little vessels still will be considered a part of the Atlantic battleship fleet, but will be drilled so far as possible independent of their more powerful sister ships.

HEALTH SERVICE TO BEGIN TESTS

Washington, March 8.—Surgeon General Blue of the public health service today designated Director John F. Anderson of the hygienic laboratory and Surgeon Arthur M. Stimson as a board to conduct an investigation of Dr. Friedmann's tuberculosis vaccine.

The two public health officials leave for New York today to meet the German physician tomorrow.

They will meet him and bring cultures to the hygienic laboratory for tests and use upon monkeys.

IMPORTANT WORK IN RADIO SIGNALS

Washington, March 8.—Important results are expected to follow the arrival of four French naval officers and a Sorbonne professor next week in Washington simultaneous with the arrival in Paris of a corresponding number of American naval officers to arrange for an exchange of radio signals between the great Eiffel tower and the newly erected navy wireless station at Arlington, Va.

The signals are for the purpose of determining the difference of longitude between the two places.

The superintendent of the naval observatory here proposed the plan of the exchange as one likely to be of the greatest value as a base of hydrographic, coast, military and other surveys on this continent and the islands of the gulf of Mexico, the Caribbean sea and the Pacific ocean. The French government accepted the proposition with enthusiasm, being pioneers in the method of exchange of signals between shore stations for the determination of the difference of longitude.

AMENDMENT APPROVED

Direct Election Meets Favor—Not a Single State Adverse

Washington, March 8.—The secretary of state has received notice of the action of the legislatures of 18 states upon the proposed constitutional amendment providing for the direct election of senators by the people. So far not a single state has acted adversely.

The amendment has been approved by Massachusetts, Minnesota, New York, Arizona, North Carolina, Oregon, Mississippi, Colorado, Wyoming, Idaho, Texas, Montana, Illinois, Maine, Nevada, New Hampshire, Wisconsin and Vermont.

The last named state approved the senatorial amendment and the income tax amendment February 19, but the neglect of the state authorities to return the fact to the state department promptly acted to prevent the appearance of Vermont as one of the ratifying states named in the formal notice issued by the secretary of state of the full ratification of the 15th amendment.

Because of the large number of state legislatures that meet only bi-annually, it will be impossible to get the approval of the senatorial amendment by the requisite three-fourths vote during the present calendar year.

FEDERALS CLOSING IN

Three Columns of Regular Army Surround Coahuila Governor

Mexico City, March 8.—Three columns of the regular army and 2000 adherents of Pascual Orozco are closing in on Venustiano Carranza, the rebel governor of Coahuila, according to official dispatches today. A decisive battle is expected on Sunday near Monclova unless Carranza manages to escape over the border.

The reported arrival of Alfonso Madero at Washington, where it is said the details of the former Madero conspiracy were developed, has been called to the attention of the Mexican cabinet. It is said that the Washington government will be asked to exercise extraordinary precautions in order to prevent professional revolution makers in the United States from participating in the plans of the fugitives, who are declared to be anxious for revenge.

It was reported today that the Southern Pacific railroad has transferred all its rolling stock from Sonora to Nogales.

REAR ADMIRAL IS CALLED BY DEATH

Norwell, Mass., March 8.—Rear Admiral Joseph Giles Eaton, U. S. N., retired, who as commander of the transport Resolute in the Spanish-American war informed Admiral Sampson that the enemy's fleet was leaving Santiago bay, died suddenly at his home here today.

He received a medal of honor following the battle of Santiago and was retired in 1905 after 39 years of service.

Admiral Eaton was born at Greenville, Ala., in 1847.

SERVICES AT THE TABERNACLE SUNDAY

An excellent program is prepared for the service Sunday afternoon at the Tabernacle, as follows:

Speaker—Alma O. Taylor, subject, "Customs and Folklore of Japan."

Elder Taylor labored as a missionary in Japan for nine years and supervised the work of translation of the Book of Mormon into the Japanese language.

TEXAS COLONEL AT WHITE HOUSE

Washington, March 8.—Colonel E. M. House of Texas, an intimate friend of President Wilson, led the list of callers at the White House today.

National Committeeman Edward F. Goitra of Missouri, former Representative in Pejo, who presided over the house money trust investigation, and others had engagements with the president.

The president also received the supreme court in the blue room during the forenoon.

WIFE OF OFFICIAL SHOT IN THE BACK

Teheran, Persia, March 8.—Madame Constant, wife of the Belgian director of customs, was murdered today by an unidentified Persian, who also severely wounded M. Constant.

M. and Mme. Constant were driving when the assailant ran from behind the carriage and emptied his revolver at them.

MANY WERE IN DANGER

Nearly 100 Guests in Grave Peril in New York Hotel Fire

New York, Mar. 8.—Nearly a hundred guests of the Hotel Burlington, an apartment hotel on Thirtieth street near Fifth avenue, were placed in grave peril by fire which shot from the first floor up through an air shaft of the old six-story structure early today. Clad only in their night clothes, the guests were driven into the open air on one of the coldest mornings of the winter. Many women were helped down ladders to the street, others climbed down fire escapes in the rear, and some had to be carried across ledges into the Holland house next door. The guests of the Holland house also were routed from their beds by the alarm and they fled with one another in looting the refugees from the adjoining hotel their garments.

Mrs. William H. Claggett, Jr. of Washington, who had a room on the sixth floor of the burning hotel, climbed out on a ledge, about two feet wide and worked her own way across to the Holland house.

The hero of the fire was Henry Smith, 65 years old, who has been in the hotel for twenty-five years. He ran his elevator for seven or eight trips until the smoke drove him out and he carried many persons to safety.

The fire proved to have gained less headway than supposed from the volume of smoke, and flames which leaped up the airshaft and the damage was confined mainly to the lower floors.

FRIEDMANN WELCOMED

People's Hospital Offers Him Freedom of Institution For Life

New York, March 8.—The People's hospital, a small institution on the East Side where Dr. Friedmann, director of Berlin conducted his first treatment of patients in this country with his tuberculosis serum on Thursday, has voted to give the young bacteriologist the freedom of the hospital for life. When Dr. Friedmann heard of the decision of the board of directors to the effect he was plainly pleased, for previous to his admission to the hospital he had encountered numerous setbacks in his plan to treat patients in this country. He did not say what advantage he would take of the hospital's offer, but it was said that before he departed on Monday for a visit to Montreal he probably would treat as many as a hundred patients.

No appointments to the other diplomatic posts of importance had been finally decided on today.

CONGRATULATIONS TO THE PRESIDENT

Washington, March 8.—Congratulations of the Philippine people to President Wilson were presented today by Manuel Quezon, resident commissioner.

Mr. Quezon left with the president a telegram from Speaker Sergio, expressing hope for Philippine independence, and saying:

"To us your oath of office means the forthcoming fulfillment of the pledges of the Democratic party, reiterated in four successive platforms and sanctioned by the people of the United States in your election. The Filipino confidently expect that during your administration a decisive step will be taken toward their freedom and independence."

There was further evidence of lack

APPOINTING COMMITTEES

Big Democratic Majority in House Calls For General Shifting

Washington, March 8.—The work of planning the Republican assignments to the house committees has begun. The immense increase in the Democratic majority in the new congress will necessitate a general shifting. The grand prizes are the five minority vacancies on the ways and means committee, the tariff making body of the house. Then come appropriations, judiciary and other important committees.

In the minority room at the capitol big alphabetically arranged file books are kept, indicating the congressional service of the old representatives in the new house, their former committee preferences and assignments, the preferences of the new members and a host of other details which will go into a systematic tabulated record to form the basis of the recommendations which Republican Leader Mann will make to the ways and means committee—the committee on committees—for minority places.

While Mr. Mann probably has the ways and means members tentatively slated, there will be no decision on the committee distribution of the Republicans until just before the extra session of congress convenes. Time honored custom calls for acceptance by the committee majority of the minority leaders recommendations as to the Republicans on committees.

ODD CASE IN HIGH COURT

Washington, March 8.—On the ability of the justices of the supreme court to read the Chinese characters written on two inner tablets from a temple in Anoy, China, will depend largely the outcome of a case before the court today.

The tablets have been brought from China as evidence that Vicente Romero Sy Quia married Yap Puan Niu in 1847 and that two children were born to the union. Chinese interpreters differ as to the story the tablets tell.

The secretary of the Chinese legation in Washington has been called in by attorneys to decipher the characters. Still the dispute as to the tablets continues. The court must decide who is correct.

ISLANDS IN CANAL ZONE

Rich Pearl Fisheries Reported Inside Panama Coast Limit

Panama, March 8.—An official survey is reported to have established the fact that the Pacific Islands of Tortola and Tortilla are a part of the Panama canal zone, being within three miles of the coast limit.

The finding is regarded here as important, as both of the islands have rich pearl fisheries.

The United States government has just begun the erection of a large wireless plant at the Pacific entrance of the canal.

All records were broken during February when 193 ships brought 6237 visitors to the canal. They have taken away so many of the little silver coins of Panama for souvenirs that there is at present an unusual shortage of small change.

EX GOVERNOR IS ACCUSED

Mexico City, March 8.—Dr. Rafael Cepeda, ex-governor of the state of San Luis Potosi, was today officially accused by the government of looting the bank of the city of San Luis Potosi of 10,000 pesos and also of disposing of government property for the purpose of securing funds for the revolution.

The administration charges that Cepeda is acting in connivance with Carranza.

The rebel forces commanded by Francisco Pachio, Fabrian Padilla and Gregorio Pulido, three Zapata leaders, today threatened to resume their old tactics because one of their peace messengers had been arrested. They had advised the government of their desire to surrender and had sent envoys to enter into negotiations. One of the envoys was taken into custody by Luis Lascruain, prefect of Xochimilco, in the federal district, who was suspicious of the messenger's mission. The federal authorities today ordered the prefect to release the messenger and to make efforts to atone for his act and placate the Zapata followers.

Heated Debate.

There was a heated debate in the chamber of deputies lasting until a late hour last night on the question of the amnesty bill introduced by Provisional President Huerta. The bill passed through its preliminary stage and will be taken up for further discussion shortly.

Deputy Roque Gonzales Garcia praised the late President Madero and declared that the ideals and promises of the revolution of 1910 must be fulfilled before peace could be restored to Mexico. He added:

"There are 40,000 victims of the revolution of 1910 crying for justice, and the present government must fulfill the promises for which that fight for liberty was made."

Chicago Livestock.

Chicago, Mar. 8.—Hog Receipts, 12,000. Market slow. Bulk, \$8.70@8.80; light, \$8.55@8.65; mixed, \$8.50@8.55; mixed, \$8.50@8.60; heavy, \$8.35@8.45; rough, \$8.35@8.50; pigs, \$8.65@8.70.

Cattle receipts 200. Market steady. Beaves, \$7.25@9.30; western steers, \$6.60@8.00; Texas steers, \$5.50@6.50; stockers and feeders, \$6.25@8.25; cows and heifers, \$3.60@8.00; calves, \$7.00@11.00.

Sheep receipts 1000. Market easier. Native, \$5.75@7.00; western, \$5.00@7.15; yearlings, \$7.00@8.20; lambs, native, \$7.70@9.00; western, \$7.80@9.00.

New York Produce.

New York, Mar. 8.—Butter, firmer; receipts, 207 tubs.

Creamery held extra \$5@5.15; imitation creamery first, \$25@26c; package stock held, 21@22c.

Cheese—Steady; receipts 208 boxes; weekly exports, 650 boxes.

Advertising in Evening Newspapers Is the "Latest"

Store-news is REAL news, touching the pulse-interests of the people. And the people like the "latest" in store news as well as assuredly as they like it in the general news of the day.
