

BRYAN IN ILLINOIS

Bears No Secret Message, but Hopes for Settlement of Dead-lock

Springfield, Ill., March 18.—Secretary of State Bryan, who, it is believed, carries the authority of the Wilson administration to settle the Democratic fight over the Illinois senatorships, declined today to discuss the matter before the regular ballot was taken.

The secretary of state had no "secret message" from President Wilson about the Illinois senatorial situation, he told the joint session of the Illinois legislature.

Mr. Bryan said that he came more as a private citizen, "speaking to those who are invested with great responsibility," rather than as an official of the federal government.

Mr. Bryan heard the vote on the senatorships which resulted in no choice for either the long or the short term.

Only in the most general terms did Secretary Bryan refer to the complex Illinois political problem, and then chiefly as an illustration of citizenship duties.

"I am not here to tell you what you ought to do," he said. "I decline to tell, even if I am asked, for two reasons.

"In the first place the responsibility is not upon me; it is upon you. In the second place, your knowledge must be more complete than mine. One from the outside must rely on those who communicate to him, and if their communication is for any reason incomplete or inaccurate, he then is not well informed."

Concerning President Wilson's attitude, Mr. Bryan said: "I came with no secret message from the executive. The president represents the ideal of publicity in politics, not the ideal of secrecy."

TWO HOLDUPS GET A MAN'S WATCH

Francis Brown, residing at 151 Thirty-second street, reported to the police early this morning that he had been held up by two masked men on Washington avenue near Eighteenth street, shortly after 1 o'clock and that the robbers had secured valuables to the amount of \$50. His loss consisted of a gold watch, a fob and \$2.50 in silver.

Mr. Brown was escorting home a friend who was intoxicated and could not find his way alone. When he approached a point on Washington avenue, near Eighteenth street, a tall man and a short man stepped out and ordered him to hold up his hands.

The police are working on the case but there are several points in Brown's story that have not been cleared up sufficiently to give the police other than a confused idea of the holdup.

TESTIMONIAL AT THE WEBER ACADEMY

A testimonial given by the high council and Weber stake auxiliary organizations in honor of President L. W. Shurtliff, President C. F. Middleton and President John Watson is being held this afternoon at the Weber academy and will continue until 9 o'clock this evening.

The testimonial was arranged with the view to showing the appreciation felt for the long and active years of service by the presidents.

Beginning at 4:30 o'clock, the program was as follows: Invocation. Quartette, Taggart brothers and Goddard.

Eulogy, Bishop W. O. Ridges. Solo, Mrs. Myrtle Ballinger Higley. Remarks, President Joseph F. Smith.

Solo, William S. Wright. Saunders' Courtesip, Belle Salmon Ross. Responses, Presidents Shurtliff, Middleton and Watson.

Presentation of flowers, little Misses Eccles, Scowcroft and Rich. Congratulatory hymn, "We Thank Thee, O God, for a Prophet."

After the introductory program refreshments are to be served by the domestic science department of the school, and the refreshments are to be followed by an old time dance, where such dances as the quadrille, lancers, reel and waltz will be given preference. The dancing will continue until 9 o'clock.

Those on the committees are: James W. Ure, Mrs. David Eccles and aldes, Wiley Cragun and Mrs. Christian Flygare, A. L. Scoville, Joseph Ballantyne, Mr. and Mrs. C. J. Ross, W. W. Henderson, Willard D. Ellis, John F. Snodaker, M. Charles Wood, Joseph A. Fife, G. W. McCune, T. A. Shreeve, C. J. Brown.

TRANSFERS OF REAL ESTATE

The following real estate transfers have been placed on record in the county recorder's office:

Thomas E. Fisher and wife to George W. Vogel, lots 1 to 23, inclusive, block 11, and lots 1 to 29, inclusive, block 20, University Place Addition Ogden survey. Consideration, \$349.

W. J. Critchlow and wife to Dates McGraw a part of lot 2, block 38, plat

C. Ogden survey. Consideration, \$500. The Realty and Rental company to John Smeding, lots 47 to 50, inclusive, block 2, Valley View Addition, Ogden survey. Consideration, \$125.

Carl C. Rasmussen and wife to William E. Carson and wife, part of lot 2, block 1, plat B, Ogden survey. Consideration, \$250.

DELAWARE AGAIN DIRECT ELECTION

Dover, Del., March 18.—With only four more states needed, Delaware today refused to join the affirmative states in ratifying direct election of United States senators.

The senate killed the house resolution favoring direct election.

MRS. GUTHRIE SUDDENLY CALLED

At 1 o'clock this afternoon Mrs. Mary B. Guthrie, mother of Mrs. A. R. Heywood, peacefully passed away at the Heywood residence at 675 Twenty-fifth street, surrounded by her daughter and son-in-law and her

grandson John G. Heywood. Since the death of her husband, the late J. W. Guthrie, in 1908, Mrs. Guthrie had not enjoyed the best of health but of late she had appeared to be in as good health as usual and her death today was a sudden shock to the family.

Last evening, she had trouble with her heart and since she complained of feeling poorly. At noon today the family was called to her bedside and the end soon came.

Mrs. Guthrie was born at Cumberland, Maryland, February 2, 1842. She went to California in the early days, marrying J. W. Guthrie in that state in the year 1862. Mr. and Mrs. Guthrie came to Utah in 1869 and Mr. Guthrie entered the banking and mercantile business, locating first at Corinne, then coming to Ogden, Mr. Guthrie becoming one of the founders of the Commercial National bank of this city.

Mrs. Guthrie was the daughter of William and Elizabeth Gaylor of Maryland who have long since departed this life. Mrs. Guthrie is survived by a sister, Mrs. J. M. Langsdorf of Vancouver, Wash., a daughter, Mrs. A. R. Heywood, and a grandson, John G. Heywood.

The deceased was loved by all who knew her and her life of usefulness is recounted by many. She endured the hardships of the early life of the western country, always foregoing pleasures in her early married life to aid her husband in the work he had to do. She was always uncomplaining and with fortitude took up the tasks of life.

Funeral arrangements will be announced at a later date.

TREES MUST BE TAKEN OUT OF CEMETERY

The city board of commissioners today appointed Patrolman H. C. Peterson sergeant, to succeed the late C. C. Brown. Mr. Peterson has filled the position since Mr. Brown's illness and death.

This afternoon the board will consider bids for the refunding of \$100,000 city bonds and will likely award the sale.

Commissioner J. C. Nye recommended that the city cemetery be beautified this spring and to that end requested that the board support him in an order that property owners in the cemetery be required to remove cottonwood, boxelder and poplar trees, also the broken down fences and coping found in the cemetery.

The commissioner stated that seed-bearing trees should have no place in the city cemetery and that the larger trees should also be eliminated. The recommendations were adopted and it was ordered that ten days' notice be given the people having trees in the cemetery that unless they remove them within a reasonable time, the city will take action.

Broken down fences also are to be removed, after serving notice.

BETTER POTATO PEELER NEEDED

Washington, March 18.—Unless some of the wizards who are improving upon nature can turn out a spherical potato, the navy must find a better potato peeling machine than the electric device now in use. Today the department sent out an appeal to inventors to submit a device that will economically pare potatoes of irregular form. The official statement declares that it seems that the present machines do a most effective and acceptable job on a perfectly round potato, but when the "murrphy" arrives long and slender, or sawed off and hammered down the trouble begins.

DAPPER BANDIT LEADER CAUGHT

New York, March 18.—Joseph Taylor, the dapper, cane-twirling young man who boasted to the police last night that he was the leader of the taxi-cab bandits who have been terrorizing the city, was expected today to make revelations which would lead to further arrests.

Fifteen men were held today as the result of the work of detectives who have been trying to run down the robbers.

ASKS FOR DIVORCE—In the district court Hendricka J. Krumpner has commenced divorce proceedings against Mortimus Krumpner on the grounds of failure to provide.

The parties were married at Salt Lake, April 26, 1882.

Advertisers must have their copy ready for the Evening Standard the evening before the day on which the advertisement is to appear in order to insure publication.

PLANNING 1915 SPORT

Sullivan Leaves for Coast in Interest of Exhibition Games

New York, March 18.—In order to forward the plans of the managers of the Panama-Pacific International exposition to make athletics and sport general features of the exposition to be held in San Francisco in 1915, Jas. E. Sullivan, secretary-treasurer of the Amateur Athletic Union, will leave for the coast on Saturday, sailing on the steamer Monius for New Orleans.

He will confer with the officials of the Southern Association A. A. U. in that city in relation to athletics, and expects to visit the Texas association and the clubs in Spokane and Seattle after he has finished his work at the Golden Gate.

Appointed director of athletics by the exposition officials, Mr. Sullivan plans to make the sports at the exhibition equal any series of Olympic games ever held through the attendance and competition of the most skilled athletes in the world.

At these games will be decided the amateur championships of America for 1915, action in this regard having been taken at the A. A. U.'s annual meeting last November. The exposition has also been honored with the award by the International Olympic committee of the right to hold the modern pentathlon, a five event series which will be for the championship of the world.

The modern pentathlon consists of riding, cross-country running, swimming, fencing and shooting.

KNIGHT IS ON IMPORTANT MISSION

"Kitty" Knight, manager of the Ogden baseball team, left this afternoon at 1:10 o'clock over the Western Pacific for California, where he will sign up several promising young players for the local team.

"When I get through we will have a team that will make the others sit up," was Knight's parting shot as he left for the depot today.

Knight will return before April 1, but he will not ask the men to report until later, due to the lateness of the season's opening. The exhibition game to be played with the Chicago White Sox will be played with the men who happen to be in Ogden and others that can be picked up.

Ogden's manager has made arrangements to sign up with as many as 15 players if necessary and the information that has been given out concerning the boys Knight has his eye on would be sufficient to send the chills up and down the spines of the other managers in the association.

"Kitty" has promised to keep the fans of Ogden acquainted with his operations by means of night letters.

OUTSIDERS MUST QUIT MEDDLING

Chicago, Mar. 18.—Rev. Nestor K. Clarkson of the White Cross Mission, declared last night that there would be no reconciliation between himself and wife, who left her home and children for Owen D. Coun, "gentleman burglar" arrested in California, until the public stopped meddling in his affairs.

During the day Rev. Clarkson preached a sermon at a gospel mission and at that time made a statement that no outsiders could be instrumental in bringing about a reconciliation between himself and his wife, parties, while doubtless well meant, would only widen the chasm between himself and Mrs. Clarkson.

Mrs. Clarkson, who is in retirement at the home of friends here, said that she believed her husband would make overtures for a reconciliation when the public interest in their domestic affairs had abated.

CRUISERS NEED MANY MORE MEN

San Francisco, March 18.—The United States cruisers Maryland and California start on a southern cruise today short nearly one-fourth the complement of men. The cruiser Curado, flagship of the Pacific fleet, now in Mexican waters, lacks 80 men of a full crew.

This same condition applies to the Pacific reserve fleet, and there will be a further shortage when the gunboat Yorktown is put into commission.

When the Pacific fleet assembles at Guaymas, Mexico, the California will become the flagship.

GENERAL AUBERT DEFEATS REBELS

Monterey, Mar. 18.—A column of 400 federal troops commanded by General Aubert defeated 590 followers of Carranza at Potrero in the state of Nuevo Leon yesterday. The reports received here today say that the federalists lost 270 men killed and 100 rebels twenty-eight. The rebels retreated toward the north, followed by the federalists, who later occupied Villaladama.

A group of rebels has taken possession of Icamole, in the northwest part of the state of Nuevo Leon.

THREE RAILROAD BRIDGES BURN

Naco, Ariz., March 18.—Three bridges were burned during the night on the Southern Pacific branch below Naco, supposedly to prevent state troops from moving by rail close to the border town where Ojeda's federalists remain fortified.

Twenty more federal Yaqui Indians have deserted Ojeda and are

held by United States troops here. It is not expected that the constitutional forces can combine the troops and attack Naco before tomorrow.

PREMIER AND HIS CABINET RESIGN

Paris, March 18.—Premier Briand and all the members of his cabinet handed in their resignations to President Poincare at the palace of the Elysee at 7 o'clock this evening.

The French government under the premiership of Aristide Briand was defeated today on a vote of confidence during a debate in the senate.

WILSON WEARS THE SHAMROCK

Washington, Mar. 17.—The shamrocks sent to President Wilson by John Redmond were widely distributed today. Secretary of the Navy Daniels called on Secretary Tumulty and carried away a bit of shamrock in his pocket. General Scottations appeared in Secretary Tumulty's coat. As President Wilson's cabinet members came into the office they were supplied with shamrocks and temporarily the White house became headquarters for St. Patrick's day.

Mrs. Woodrow Wilson, wife of the president, gave a shamrock tea at the White House to a select company of specially invited guests today. Mrs. Wilson was assisted by her daughter, Misses Margaret and Eleanor Wilson, while Miss Isabelle Hagner and Miss Helen Woodrow Bones presided at the tea table. Mrs. Wilson wore a handsome gown of dark purple brocade and the Misses Wilson were charmingly gowned in pink and blue brocade crepe.

A pleasing invitation was noted in the fact that each guest was hidden to the feast by a personally written note from Mrs. Wilson.

MINING NEWS

ORENA WAS OLD SMELTER TOWN

Few people visiting the new Orena that has become the gateway to the Rochester district are aware of the fact that they are in a town which is among the oldest in Nevada. The gold values being larger in the north face, with silver increasing as the drift to the south continues into virgin territory.

The management has driven a raise in this ore for over 40 feet, and the rich material held faithfully in this distance of going farther and to depth as well. The management for a brief time was handicapped at the vein with water, but this is now eliminated and it is expected that 100 tons of this ore will be shipped during the month of March.

The company is preparing to increase the stoping on this vein, and a crosscut is being driven for the vein at a point 125 feet from the present point of development. This should be in the ore by the end of March, from which time production will be materially facilitated. The property is in the best shape in over a year and Seven Troughs is looking to this discovery to bring back property owners who were drawn away by rich surface finds in neighboring districts.

SUNSHINE IS NEVADA'S NEWEST

J. J. Williams arrived this morning from Sunshine, bringing news of a rich strike on the left camp this morning in the vein had been penetrated four feet without going through it. The samples Mr. Williams brought in were taken across the four feet and show a surprising richness the entire distance. No streak richer than the rest of the ore in the lead had yet been encountered. At the time of writing this news no assays have been made, but mining men express the belief that the ore will run about \$200 a ton—some place the figure even higher.

The existence of this vein has long been known, as it showed on the surface, but for some reason no work was ever done on it until Charles Cline started to work the property off and on the past five years, but confined his work to another vein parallel to the one on which the discovery was made. The strike was made yesterday is between four and five feet wide on the surface and shows some high-grade silver. It lays between lime and porphyritic andesite.

"Naturally the entire camp of Sunshine feels elated," said Mr. Williams, "and we all feel that Sunshine is going to make good. Many are coming from Rochester, and they are waiting in from everywhere. The hills are full of prospectors and I don't believe you could get a claim 204 close in. Quite a crowd from Winnemucca was in camp Sunday.

"Colonel J. P. Hutchinson and L. J. Kaiser, mining men from San Francisco, became interested in some property during their visit a few days ago and it is presumed they will get busy soon."

UTAH MEN ARE IN CERRO GORDO

From San Jose a dispatch has been sent out saying that a plan of reorganization, which members of three factions in the company believe will put the rich Cerro Gordo mine in Inyo county on a paying basis after many years of losses, is being mapped out there in daily conferences among owners, stockholders, directors and others interested in the future of the property, which was at one time one of the best-known in the United States. For several years it has been the property of the Four Metals Mining company, but has not been a paying proposition.

F. J. Hagenbarth, a Salt Lake banker, has been there conferring regarding the financial arrangements, and a rancher named Hogan of Modesto, stands ready, it is said, to put \$75,000 into development work. The property is declared to be rich in lead and zinc, with some silver and gold, but is expensive to work. The mine has had a sensational history and has made and lost several fortunes. Its present manager, Louis D. Gordon, a Scotch mining engineer and he will join the other factions in the scheme of reorganization.

The company owes \$400,000 to secured and unsecured creditors, the latter having recently forced the company into the bankruptcy court, whence it is expected the reorganization plan will bring it safely. A

quarter of a million dollars in bonds for which the Garden City Bank & Trust company is trustee. The rest are claims of unsecured creditors. Most of the money Hogan proposes to advance will be applied to the payment of debts and the bonds will be allowed to stand, and Hagenbarth and Hogan will finance plans for developing the property.

RICH ROCK REPORTED ON ROCHESTER LEASE

Rochester, Nev., Mar. 15.—Nothing has so accelerated the all-conquering interest in the search for gold in the Rochester district as has the latest and richest gold and silver strike made by Bill Borland, Charles Dorsey and A. Norland, a real pay streak finder of the Rochester district, on the Supreme claim, owned by Frank Forville, W. Borland and Cliff DeLorme, says a correspondent of the National Miner. The strike was made some six days ago. It was made on a lease block. The ground or block was under lease to U. N. Harwood, who in turn disposed of a controlling interest in the lease to Borland, Dorsey and Norland upon condition that they would prospect for the pay streak from which the rich float came found upon that decline of Lincoln hill. After three days' prospecting the richest ore shot yet discovered in the Rochester district was found.

In three days from the time it was found, J. H. Causton and associates acquired the lease block by outright purchase for \$25,000 cash payment. That is going some. Here is the reason why the promptness of gaining this premier gold price of the Rochester district. The find shows as stripped over sixteen inches of ore that will go better than \$1600 per ton. Some samples across this streak, not picked, but taken as good sampling prompts to \$3500 per ton.

NEW MILL PERFECTED FOR ISOLATED MINES

J. D. Barlow has returned from his trip to Oakland, where he was looking into the question of getting a mill for his mining property in Fondeway canyon

CHANGE IN ADMINISTRATION BRINGS BRYAN, JR., AND WIFE INTO PROMINENCE

Among the persons brought into prominence by the change in national administration are Mr. and Mrs. William Jennings Bryan, Jr., son and daughter-in-law of the new secretary of state. They, with their two children, Mary S. and Helen V., are now living in Washington. The young husband is pursuing law studies in Georgetown University. His wife is a daughter of Alexander Berger, a Milwaukee millionaire.

RICH GOLD-SILVER ORE IS MARKETED

The first shipment of gold and silver ore from the rich strike on the 10th level of the Seven Troughs Concession company of Seven Troughs, Nev., has been forwarded to the market, the lot consisting of eight tons. The mine assays show this ore to run about 9 ounces gold and 125 ounces silver to the ton. The shipment is expected to average above \$225 per ton.

The management is drifting both north and south upon this vein, the gold values being larger in the north face, with silver increasing as the drift to the south continues into virgin territory.

LABOR NEWS OF ALL COUNTRIES

Belgium has 200,000 miners. There are more than 50,000 members of trade unions in Holland. Coal miners in this country number almost three-quarters of a million.

Only three states have efficient protective occupational laws. The yearly record of the industries is 39,000 deaths and 500,000 seriously injured.

It is probable that a child labor law for territories will be presented to congress.

Miss J. Canada, metal workers are demanding 55 cents an hour and a 10 hour day.

The three principal unions of British railway men have been merged into one federation.

Attention is being given to the work of organizing the Spanish speaking cigar makers in Florida.

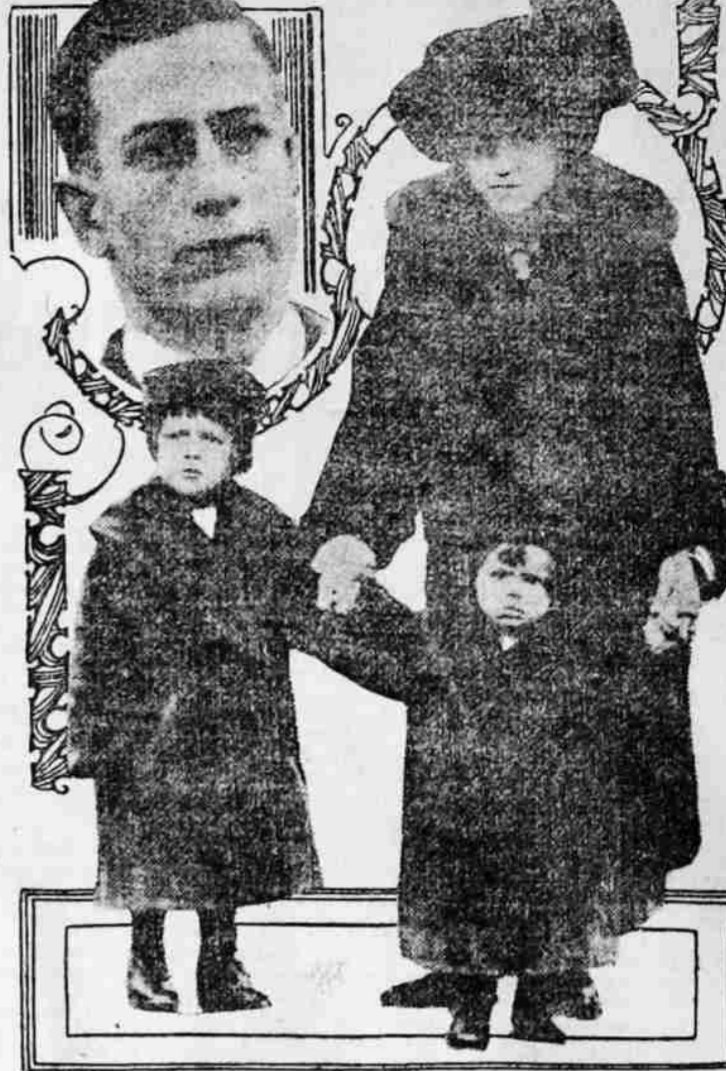

A total membership exceeding 75,000 is claimed now by the painters, decorators and paper hangers' union.

On May 1 at New York, N. Y., United Cloth Hat & Cap makers of North America will convene.

Five states have passed laws limiting the working hours in many private establishments.

Demands by Boston & Maine railroad station employes for a wage increase have been granted.

CUPID STILL HAS A KNOCKOUT PUNCH; JUST SEE WHAT HE DID TO JOE RIVERS

Left to right, Joe Rivers, Mrs. Joe Rivers, Miss Dorothy Levy, and Justice J. W. Summerfeld.

That old Dan Cupid still has his knockout punch was shown in Los Angeles recently. He sent Joe Rivers, near champion lightweight pugilist, down for the count. Miss Pauline Sierst, of Santa Monica, was the bride; Miss Dorothy Levy, sister of Rivers' manager, the bridemaid. Justice J. W. Summerfeld performed the ceremony.

The couple are now in the east on their honeymoon. Rivers is shortly to commence training for his bout in New York with Leach.

He is very much taken with a ten-stamp mill made by a company at Oakland and if his plans are carried out he will probably have one of these mills installed in the early summer. The mill only costs about \$2000 complete and is guaranteed to crush fifteen tons of ore per day. It is especially adapted for the man of limited means in a country like Churchill county. It only weighs about 2800 pounds complete and can be operated by a four-horsepower gasoline engine and will work ore at a profit that rates from \$7 to \$8 a ton. A very small quantity of water is required.

The ore is first put through the rollers and then passed down to the stamps and over the plates. The concentrates can be saved, and thus the various grades of ore can be milled. The largest pieces of the machinery only weighs 400 pounds, so the mill can be easily handled in a rough mountain country.

Since it was opened the mine has produced \$2,000,000 in lead, zinc, silver and gold ore. It was Gordon, the present holder of the property by lease, who discovered its productive-ness in zinc and lead.

RICH ROCK REPORTED ON ROCHESTER LEASE

Rochester, Nev., Mar. 15.—Nothing has so accelerated the all-conquering interest in the search for gold in the Rochester district as has the latest and richest gold and silver strike made by Bill Borland, Charles Dorsey and A.
