WEATHER FORECAST

THE INDICATIONS ARE THAT THE WEATHER WILL BE GENERALLY FAIR IN SOUTH PORTION; SLIGHTLY COLDER TONIGHT.

KING IS SHOT FROM BEHIND

Murderer of Greece's Ruler Is Educated Anarchist Who Had Personal Grudge

Saloniki, March 19.—Aleko Schinas, murderer of King George I. of Greece, appears to have lived much abroad. He returned to this city when it was occupied by the Greek army after the surrender of the Turkish garrison.

The premeditation of the regicide appears to be established by the fact that Schinas lurked in hiding. He rushed out when his royal victim was only six feet from his hiding place, and fired point blank into the back of the king. The shooting occurred only a few yards from police headquarters.

Lieutenant Colonel Francoudis, the king's aide-de-camp," who was walking beside his royal master, immediately drew his revolver. Schinas turned and fired at the aide-de-camp, but the shot went wild.

Two Cretan military policemen who were acting as an escort to the king, dashed at Schinas and pinioned his arms before he could fire again.

When Francoudis saw that the assassin had been arrested he turned to King George, who he supposed had escaped uninjured and was horrified to find his majesty stretched on the roadway.

Francoudis raised the stricken monarch's head from the pavement, but the king was already unconscious and he never spoke again.

Soldiers who had been summoned by the shots lifted the king from the ground and carried him to a hospital. He expired on the way without recovering consciousness.

When questioned by the police Schinas replied:

"You have courts. I will speak there."

Pressed to say who he was and what was the motive of his crime, he replied:

"Take me to the police station so that the crowd shall not maltreat me. I will speak there."

On reaching the police station he gave his name and a few particulars about himself.

GREEKS CAMP IN STREETS

Members of New York Colony Eagerly Await News of Assassination

New York, Mar. 19.—The Greek colony of New York, largely depleted by patriots who left here last fall to fight for their country, were so eager to learn details of the assassination of King George that several hundred of its members practically camped out on Park Row during the night to seize on each fresh edition of the newspapers. At an early hour today no official word of the assassination had been received here other than that quoted in the newspapers.

Demetrios N. Botassi, who has been consul general of the Greeks in New York for thirty-five years and who owes his continual re-appointment to King George, the Atlantis, the Greek daily newspaper in New York and leaders of the colony in church and business were unanimous in the expression of a deep-felt grief over the loss of the much beloved and respected monarch, who for half a century has been head of the Hellinism.

At the same time there was rejoicing that the affairs of Greece pass into such competent hands as those of Crown Prince Constantine, who for months past has been receiving many tributes from Greeks in America. Only last Sunday there was a celebration here by the Greeks in which a handsome sword which had been purchased by popular subscription at a cost of $3000 was blessed and dedicated to the crown prince in recognition of the victories he had won over the Turks.

The Atlantis predicts that Prince Constantine will in all probability be proclaimed king as Constantine XI. Constantine XI the last emperor of the Bysantine empire, having been slain in 1453 in Constantinople at the taking of Constantinople by the Turks.

General Guiseppe Garibaldi, son of the Italian patriot, who recently declared that Constantine was likely to make a much more popular monarch than King George, but he did not believe that the assassination was result of any political movement.

HAD PLANNED TO ABDICATE

Copenhagen, Denmark, Mar. 19.—The late King George of Greece had intended to abdicate the throne and live the quiet life of a retired gentleman after the conclusion of peace according to a letter from him received here today. The recipient is a naval officer who was an intimate friend of the murdered ruler. In the letter King George expressed his joy at the success of the Greek armies and at the rapid and efficient re-organization of the Greek defensive forces. He told of his satisfaction at the nation's display of confidence in Crown Prince Constantine after his recent achievements and said he often had been inclined to abdicate but would not do so during the country's unprosperous period.

The letter concluded by saying that after peace has been restored and the jubilee of his reign celebrated, the king would leave the throne to his son. He intended to live in Denmark but would spend two months of each year in Paris.

Before settling down, however, His Majesty wished to make a tour of the world and particularly desired to see America and to visit the Panama canal.

INDIGNATION IS EXPRESSED

London, Mar. 19.—Expression of intense indignation over the assassination of King George of Greece and deep sympathy for the royal family and people of Greece is given freely by all the London morning newspapers today, and all in a similar strain.

"He gave himself heart and soul to the cause of Greece in good days and evil, for fifty arduous, eventful years," says the Times, in tribute to the king, "and he has gone when she is repeating the harvest he had sown."

King George left Greece far richer in fame, honor and power than he found her and he has bequeathed to her service sons who have already proved their worth and an heir who will fill his place with inherited courage and tenacity," says the Daily Express.

"Within a few weeks," adds the Daily Graphic, "the whole of the Hellenic world would have acclaimed King George as the creator of the greater Greece which for centuries has been the golden dream of Eastern Christiandom."

The Morning Post expresses confidence that "the qualities of bravery and patience which have been displayed during the war by Greece will be farther revealed during the critical moments occasioned by the assassin's crime."

King George's long reign "was a slow climb up hill checkered with many reverses," says the Daily Chronicle, adding: "If it be fortunate to die at the height of success, he died fortunately."

The other newspapers similarly point out that the king has been struck down at a moment when Greece stands higher in the estimation of Europe than for many years.

SCHINAS WELL EDUCATED.

New York, March 19.—Aleko Schinas, the assassin of King George of Greece, was a man of education and a confirmed anarchist, according to information obtained by Botassi, the Greek consul in this city.

The man nursed a grudge against the king, Botassi was told today by Greeks in this city, who knew Schinas well, because the government had closed a school or anarchism which Schinas had established at Volo, the chief city of Thessaly. Schinas was born in Volo.

"Schinas, I have been told by countrymen, who knew him well, was a much more intelligent type of man than is indicated by the news dispatches," said the consul. "The man was well educated, a confirmed anarchist and an atheist."

QUEEN MOTHER RECOVERS.

London, March 19.—Queen Mother Alexandra, sister of the murdered king of Greece, has recovered from the first shock of her brother's tragic death and is giving personal attention to the flood of sympathetic messages received from all parts of the world.

King George of England joined her early today and remained with her until afternoon.

Irvin B. Laughlin, charge d'affaires of the United States embassy and other members of the diplomatic corps in London, left cards of condolence at Marlborough house, Buckingham palace and the Greek legation.

QUEEN OLGA PROSTRATED.

Athens, March 19.—Queen Olga of Greece was too prostrated by the news of the fate of her husband to sail for Saloniki last night, but she left today. When her sons, Prince George and Prince Andre communicated the news of the tragedy to her she fell fainting in their arms and recovered only to swoon again. This happened several times and physicians were called to quiet her.

All the princes and princesses of the royal family accompanied their mother to Saloniki.

State mourning has been ordered for a period of six months and court mourning for a year. The whole Greek capital is draped with mourning. On public and other buildings the national flag flies at half mast and is draped with crepe. The bells

(Continued on Page Eight.)

Selling Events Begin Tomorrow—Announcements Are Made Today In the Evening Newspaper

The newspaper published in the afternoon is full of new news—of first reports of events with all that implies of sharp-eye interest. This advertising in an evening paper is thus associated with and interwoven with the liveat of live reading matter, and itself partakes of that quality. And really it is quite important to print the first important selling event as of an accident or of a political happening.

JINX HOUSE DESTROYED

Series of Fatalities Ends With Death of Three in Fire

Chicago, March 19.—The tragic existence of the "house of death" at 2359 Wentworth avenue closed early today with its destruction by an incendiary fire in which three lives were lost. Frank Pustella and his brother-in-law, Jos. Cavelieri, escaped with severe burns by jumping from a second story window, but Mrs. Pustella and her daughters, aged 3 and 5 years, were overcome by smoke as they reached a window and perished in the flames.

The house gained its name because of the fatalities which have occurred within it during the last ten years. A decade ago Jacob Werner opened a meat market in the place. Within a short time his entire family died and Werner committed suicide. Werner's clerk, Fred Kunz, took the market but shortly afterward his little daughter was scalded to death in a pickling vat and a week after this accident Kunz was found dead under mysterious circumstances. The next tenant was a man named Strauss, who was murdered in the house. A few weeks after that an Italian crawled under the porch of the place and committed suicide.

TROOPS ARE MOBILIZING

Large Force of Federals Entrenched Opposite Guayamas—Many Americans at Empalme

Nogales, Ariz., March 19.—One thousand federals are entrenched at Empalme, opposite Guayamas, while state troops are mobilizing in strong forces at Ortiz, a few miles to the north on the Sonora railway, report refugees arriving here today.

The United States cruiser Colorado remains in Guayamas harbor, its commander having forbidden, it is said, any bombardment of Empalme, where a large American colony is located.

The state troops at Ortiz have no artillery suited for bombardment.

All is reported as quiet at Hermosillo, the capital of the insurgent state.

Ojeda's Plight Is Serious.

Naco, Ariz., March 19.—Ojeda's federals, trapped by state troops around Naco, continue destruction of the railways to the south, thus preventing the arrival of Cabrera's group of state troops. Ojeda's plight proved still more serious today when it was made known that 216 of his men are held by United States troops here. Ojeda had less than 500 when he defeated the state troops last week.

Antonio Rojas, the former Orozco general is reported with 400 men near Cumpas, 100 miles south of this point. His position in the revolt is doubtful and resenting his intrusion from Chihuahua state, state troops are on the way to drive them back.

Smelter Must Close.

Tucson, Ariz., March 19.—The smelter at Cananea, Sonora, must close down within a week, says Dr. L. D. Ricketts, general manager of the Cananea Consolidated Copper company. Employes Randolph, general manager of the Southern Pacific of Mexico received this notification today.

"Dr. Ricketts said that continued cutting of the railway by state troops had made impossible any movement of fuel to the big plant, which employs 4,500 men.

City Officials Arrested.

Monterey, Mex., March 19.—The mayor of Monterey, Zambrano, and two city officials, Manuel Amaya and Alfredo Perez, were arrested today on a charge of rebellion and sent by special train to Mexico City by order of the district judge.

PRESIDENT'S VIEW CAUSES COMMENT

Washington, March 19.—President Wilson's statement of the administration's toward American bankers participating in the Chinese loans and foreign loans generally has attracted widespread comment and discussion in official and diplomatic circles.

Following closely upon the statement came intimations that the negotiations may now proceed as a five-power affair without the American group.

It is pointed out today that the bankers may now be counting on the moral support of their governments to continue to press Provisional President Yuan Shi Kai to make the loan, but there are also some indications of discord found in the conflicting claims of the various nationalities for predominating influence in the appointment of administrators of the loan and for its expenditure.

ILLINOIS CASE IS DISCUSSED

Washington, March 19.—With the ratification of only three states remaining to insure the adoption of a constitutional amendment for the direct election of senators, speculation was heard at the capitol today in regard to the effect of the adoption of the amendment on the senatorial contests in Illinois. Two senatorial vacancies exist in Illinois, but the legislature has been deadlocked many weeks.

CONN'S COMPANION INDICTED BY JURY

San Francisco, Cal., March 19.—Mrs. Catherine Pope, alias "Kitty," under arrest in Detroit in connection with the operations of Owen D. Conn, the "hundred thousand dollar burglar," held in this city, was indicted as an accessory in Conn's alleged crimes late last night by the grand jury. A detective started for Detroit today with requisition papers for her return.

TWO BANDITS SENTENCED

Leaders of the Chicago Auto Gang Given Indeterminate Terms

Chicago, Mar. 19.—Robert Webb and Thomas Burke, two leaders of the auto bandits who terrorized this city during the winter pleaded guilty to burglary today and were ordered to prison under the indeterminate sentence law, which imposes a minimum of one year and a maximum of twenty-one.

Webb is alleged to have killed Detective Peter Hart, but States Attorney Hoyne was disinclined to press this charge. He said Webb never had a chance—his mother went insane and his father was a dipsomaniac.

Webb will be tried later on a charge of murdering Detective Peter Hart, whom he is alleged to have shot while evading arrest.

Webb and Burke having pleaded guilty to the burglary charge, James Perry, the reputed "brains" of the auto bandits, went to trial on a charge of highway robbery. Five other alleged bandits will be tried in rotation.

SUICIDE IS IDENTIFIED

Body Found in Sleeping Car Is That of James C. Jordan

Chicago, March 19.—The identity of the man who committed suicide in a sleeping car here yesterday was established at the inquest today when Lillian Jordan, 14 years of age, testified that the suicide was her stepfather, James C. Jordan, a farmer of Whittier, Cal. He was never an attorney in San Francisco, she said.

Jordan's wife preceded him here to obtain medical attention. She was unable to attend the inquest.

Jordan disappeared from San Francisco in July, 1911, after having gone for a sail in the Raccoon straits. It was at first believed that he had been drowned, but later it was determined that he had left because of financial difficulties and also because of an investigation as to the manner in which Philip Green Dood, to whom he was financially obligated, met death. Dodd was shot and killed in his office and it was said Jordan was present at the time. It was believed that he staged the "drowning" as a ruse to stop the investigation.

MINERS GLAD TO LEAVE CHICAGO

Chicago, Mar. 19.—James Tak, one of the government witnesses in the case charging A. C. Frost and four others with Alaska coal land frauds said he was "durn glad to get out of this burg," today when Judge Landis excused him.

Tak, a Klondyke miner, expressed his desire to get back to California with such profound sincerity that a titter went round the court room.

Charles S. Hubbell, a former government employe who surveyed the lands involved in the case, testified the lands showed no trace of mineral other than coal.

MINERS ESCAPE FIRE IN MINE

Bochum, Germany, March 19.—A fire broke out early today in the President collieries near here. The fire started in close to the main shaft and spread rapidly.

Rescuers made several efforts to penetrate the galleries but after working for several hours were able to advance only a short distance.

Late in the day all the miners working in the galleries were brought out alive and unhurt.

BILL PROVIDES FOR ILLINOIS COMMISSION

Springfield, Ills., Mar. 19.—A bill creating a commission consisting of the governor and seven others, to be appointed by the governor as the Illinois commission to the Panama-Pacific exposition at San Francisco in 1915 was introduced in the senate today and referred to the appropriations committee. An appropriation of $500,000 is provided for an Illinois building and expenses of the committee.

BRYAN BACK IN LINCOLN

New Secretary of State Guest of Honor at Birthday Banquet Tonight

Lincoln, Neb., March 19.—In marked contrast to the triumphal entries he has been accorded as a private citizen, Secretary of State Bryan arrived at Lincoln this morning and was met at the station by reception committees from the state legislature and the local Bryan club, under whose auspices the annual Bryan birthday dinner is to be given tonight.

Mr. Bryan was accompanied by Mrs. Bryan, his daughter, Mrs. Ruth Bryan Owen and Governor Dunne of Illinois. They were taken in automobiles to a local hotel, where Mr. Bryan held an informal reception.

Governor Hodges of Kansas, who had arrived on an earlier train, was already at the hotel with his party and greeted Mr. Bryan on his arrival. With Governor Hodges was a party of state officials who will participate in the banquet tonight.

Relative to President Wilson's statement on the Chinese loan, Mr. Bryan said:

"The president's statement on the Chinese loan situation covers the whole ground and I am sure that it will be approved by the country. It is not merely a negative refusal to renew the request made by the last administration, but a positive declaration of the president's desire to assist China and our own business interests in every legitimate way.

"It can hardly be doubted that China will be pleased with the president's attitiude and the business men of the United States will be benefited by the friendly feeling which the president's statement is sure to arouse among the Chinese."

BLONDE ESKIMOS CONVERTED

Dawson, Y. T., Mar. 19.—Christianity has been carried to the blonde Eskimos.

Among this northermost and remotest of the white peoples, whose existence, even, was unknown to the civilized world until reported by the explorer Vilhjalmar Stefannsen, a year ago the Rev. Fry, a missionary of the church of England, is now at work. The fact is reported by Sergeant Dempster of the Canadian North West Mounted policemen who returned yesterday from Herschel island.

Sergeant Dempster relates that the missionary left for Lambert last summer. His news is the first brought from the Arctic since then.

CRUISERS TO MEXICO

Navy Department Approves Movement of Ships to West Coast

Washington, March 19.—At the instance of Admiral Southerland, commanding the Pacific fleet, who has been watching from Guayamas conditions on the west coast of Mexico, the navy department has approved his recommendation that the cruisers California and Maryland be sent to that coast. They are now at San Francisco.

Admiral Southerland, who is aboard the flagship Colorado, found that a number of American citizens who had been disturbed by the revolutionary troubles in Sonora are drifting down to the coast towns.

Lower California is reported tranquil today, the new governor, Brigadier General Miguel Gomez, having arrived Monday at Ensenada and assumed office.

Telegraphic communication has been re-established between Monterey and the United States via Laredo.

FRAUDS IN HAIR TOTAL MILLION

New York, Mar. 19.—Phillip Musico, sought with his father Antonio, in connection with invoice frauds on shipments of hair, has been captured in New Orleans, according to announcements made today by detectives for the American Bankers' association.

The hair importing business of Antonio Musica and his son Phillip was thrown into bankruptcy by creditors today.

Frauds alleged against the father and son are estimated to aggregate a million dollars.

The father Antonio was also arrested with two sons, George and Albert, according to reports received here. Antonio and Phillip were indicted by the grand jury here yesterday.

EUROPEAN POWERS TO MAKE DEMAND

Cologne, Germany, March 19.—The European powers are preparing to demand from the Balkan allies a speedy termination of hostilities in European Turkey according to an inspired dispatch from Berlin to the Cologne Gazette.

CATTLE CONTRACTS ARRANGED.

El Paso, March 19.—Contracts already are being written by Mexican cattle raisers, designed to absorb any decrease in tariff rates that the special session of congress may make, in this district, according to W. W. Boggell of Marfa, Tex., who is here attending the Texas Cattle Raisers' annual convention.

Marfa is the county seat of Presidio, one of the big Texas border counties. Judge Boggel said Mexican cattlemen are stipulating in their contracts that if the United States congress reduces the tariff the price paid them for cattle must be increased proportionately.

SIMMONS OUTLINES PLAN.

Washington, Mar. 19.—Senator Simmons outlined to the president today his plans for handling the tariff bill in the senate. The senator declared that in order to deal with the tariff expeditiously, close touch must be kept with the various committees of the house and senate.

CONFERENCE ON TARIFF

Congressional Adjuster's Favor Quick Revision Acceptable to Democratic Leaders

Washington, Mar. 19.—Quick tariff revision along lines acceptable to the Democratic leaders of both houses of congress was the object of a conference called for today between the ranking tariff revisionists of the house and senate.

The conference marking the completion of the tariff revision bill in all essential particulars by the house ways and means committee was designed as a move to get together on common ground and to smooth the ways for the launching of the first Democratic tariff in many years under a policy of swift, harmonious action.

Senator Simmons of North Carolina, chairman of the senate finance committee and Senators Stone, John Sharp Williams and Smith of Georgia, constituted the senate sub-committee for the conference with Chairman Underwood and some of his colleagues of the ways and means committee, the senators going to the house side in accordance with the tradition incident to the revenue-originating functions of the house.

UNDERSTANDING IS REACHED

Washington, March 19.—A conference later between Senator Simons, Hoke Smith, Williams, Hughes and Chairman Underwood and other members of the house ways and means committee resulted in the general understanding that tariff rates will be thoroughly considered jointly by the house and senate committees and President Wilson before the tariff revision actually begins in the house. The four senators, all members of the finance committee, looked up a number of contested questions concerning tariff rates today but no effort to compromise differences and reach definite conclusions were made. It was is planned to have a number of conferences between the two houses beginning in about ten days, when the tariff bills will be considered in detail.

WOOL TARIFF TO BE 15 PER CENT

Washington, March 18.—The tariff revision bill now is virtually in shape for submission to the Democratic caucus of the house, though still subject to a smoothing out process. The Democratic majority of the house committee on ways and means voted today to make raw wool dutiable at 15 per cent ad valorem, with substantial reductions in the present rates on manufactures of wool, much along the lines of the previous Democratic wool measures of the last congress.

This victory of the protectionists over the free raw wool advocates was the culmination of a lively contest in committee. The present law imposes a duty of 11 cents a pound on raw wool, which the house bill of the last congress would have changed to an ad valorem of 20 per cent, a reduction figured to represent approximately a cut from 47 to 20 per cent ad valorem.

In the committee today meats were put on the free list as they were in the house bill of the last congress and cattle were left on the dutiable list.

A sentiment for a single tariff bill instead of a schedule by schedule revision, developed today among Democratic leaders at the capitol. If this idea is adopted by the coming Democratic caucus of the house, the pending tariff revision bids fair to go down into history as the Underwood tariff of 1913.

Senator Simmons of North Carolina as chairman of the senate committee in finance, conferred today with Representative Underwood, chairman of the ways and means committee.

As a result a senate sub-committee headed by Senator Simmons, and a house sub-committee, headed by Representative Underwood will have a general conference on the tariff tomorrow to bring about a plan for insuring harmonious action between the two houses so as to facilitate tariff revision legislation and end the extra session of congress much sooner than has been contemplated.

The ways and means committee Democrats will meet again Thursday when a sub-committee will report on the administrative sections of the tariff.

The lack of a broad demand for the fine sheer cotton goods that require the longest staple cotton is lessening the value of such cotton in the raw state and forcing mills to manufacture coarser fabrics.

COMPETITOR TESTIFIES

Dunkle of Omaha, Tells of His Success Against International Company

Omaha, Neb., March 19.—Testimony in defense of the International Harvester company to the anti-trust suit of the government varied in character today, competitors of the defendant, dealers and farmers being placed on the stand.

Christopher Dunkle of Omaha, the manager of the Nebraska Moline Plow company, a competitor of the International in farm implements other than harvesting machinery, testified that the competition in all lines had been active and normal and that the field has been open for the introduction of new lines of binders for several years of his experience. His company, he said, was putting out a full line of harvesting machinery this year. His success thus far has been satisfactory, he having made 126 contracts with dealers for carrying the new binders within a month. He said his company also has taken on several other new lines.

On cross examination Mr. Dunkle testified he knew of no particular reason for his company taking on a harvesting implement line at this time and could not say whether it resulted from the government's suit against the International Harvester company. He estimated the defendant had been doing 75 per cent of the binder business in his territory.

MILLION IN HAIR FRAUDS

Members of Musica Family Under Arrest in New Orleans

New Orleans, Mar. 19.—Charged with defrauding banks in this country and Europe of approximately a million dollars, Antonio Musica of New York and his three sons, George, Arthur and Phillip were arrested on the steamer Heredia today.

Two daughters of the elder Musica, Louise and Grace, also were detained. The party was taken into custody just before the departure of the Heredia for Colon. When searched at the police headquarters $50,000 were taken from Arthur Musica and about $10,000 more from other members of the party.

The Musicas carried with them nine pieces of baggage which the police hauled to headquarters. It is believed that much more money and valuable papers will be recovered when their trunks are opened.

The party will be taken back to New York at once.

Antonio Musica is nearly 70 years old, Phillip about 30. For years they had been importers of cheese; in 1910 the government charged them with underweighing frauds and Phillip, shielding his father pleaded guilty and was sentenced to a year's imprisonment. Shortly afterward his sentence was commuted by President Taft and, returning to New York, he again became associated with his father in business.

Hair goods now became their specialty and banks for months negotiated their paper until the recent repudiation of a draft, the attachment of their property, charges of criminal manipulation of invoices involving hundreds of thousands, then flight of the entire family, including two daughters.

Notice of the dissolution of Mitchell and company was posted today on the stock exchange. It was said that the dissolution was forced by the governors of the exchange because the firm manipulated on the outside market the stock of the United States Hair company, recently organized by the Musicas.

SUBWAY DEAL COMPLETED

New York City Closes Contract With Street Railway Companies

New York, March 19.—The city today entered into an agreement with its two principal street railway companies for the operation of a new $300,000,000 subway system, now under construction.

Contracts signed by the public service commission and the companies provide for the operation of subways under the so-called "dual system," the city and the traction companies uniting in contributing to the cost of construction; the railways will operate the new lines and the city will share in the profits of operation above a certain percentage.

The signing of the final agreements today marked the end of four years of negotiations.

An ounce of done is worth than a ton or going to do.
