CHICAGO IN STORM ZONE

Wind City Nearly Cut Off From Outside World Today—Damage \$150,000

Chicago, Mar. 21.—Only two telegraph wires connected Chicago with the outside world for several hours today. The only practical relief from this situation was by way of an underground telephone cable to Milwaukee. Sleet, wet snow and occasional drizzle, rain, driven by a forty mile gale from the west struck the city and environs before daylight and within four hours had prostrated telegraph wires in all directions. All transportation lines were crippled. One young woman was blown under the feet of a team of horses and severely hurt. The first effects of the storm were felt south and east of Chicago. Wires routed around the south end of Lake Michigan went down within an hour of the time the storm struck. When the territory west of the city was cut off, two hours later the last of the above ground wires along the north shore succumbed to the combined forces of ice and wind.

The only lines which survived were two wires to St. Louis. Over these was carried a very small part of the mass of intelligence which normally is received and sent out from Chicago. The only crumb of comfort to those charged with the transmitting of press and commercial telegrams was that the Good Friday holiday relieved them of the usual burden of brokerage and market reports.

Six hours after the storm broke the sun forced its way through the clouds and the disturbances ceased almost as suddenly as it had begun. The damage, however, had been done and early estimates of the loss to wire and transportation companies placed the figures as high as \$150,000.

Memphis, Tenn., Mar. 21.—Reports from North Mississippi, West Tennessee and southeast Kentucky and north and east Arkansas, which were swept by a severe rain and windstorm last night and early today are delayed by the almost complete prostration of telegraph and telephone wires in this city. No definite advices have been received here from Hoxie, Ark., where the wind is said to have blown down a large number of houses and injured a score of persons.

At Fulton, Ky., considerable damage was done to property. In Mississippi the storm was severe from Grenada to Water Valley. At Senatobia the wind was unusually high and houses are said to have been tossed about as if they were playthings. No loss of life occurred there. Locally only minor damage was done. A heavy downpour of rain with continuous flashes of lightning accompanied the blow.

MANY INJURED IN MISSOURI.

Springfield, Mo., Mar. 21.—A score or more persons were injured, some of them seriously, buildings in the business district were wrecked and residences unroofed late last night at Hoxie, Ark., about ninety-five miles south of here by a wind of unusual velocity. The loss to property, it is said, will total thousands of dollars. No deaths had been reported early today when communication with the town was cut off, but it is feared later reports will show fatalities. Special trains were sent from this city and Thayer, Mo., to aid the sufferers at Hoxie, and other towns in the vicinity, which it is reported, were also affected by the wind.

STORM GENERAL OVER MISSOURI VALLEY

Kansas City, Mo., Mar. 21.—Snow and sleet and a drop in temperature were general over the Missouri valley and the southwest last night and early today. In some sections the storm was accompanied by a strong wind. Heavy rains preceded snow in south and east Missouri. At Oklahoma City and wind rose to forty-five miles an hour. The mercury this morning dropped to thirteen here, eight in Omaha, 12 in St. Joseph, 10 at Wichita and Concordia, Kansas, 20 at Springfield, Mo., 16 at Oklahoma City and Denver and ten at Amarillo, Texas.

KENTUCKY SWEEP BY WIND.

Louisville, Ky., Mar. 21.—First reports from points in the central south were swept by terrific windstorm last night and early today tell of a considerable property damage but loss of life is not mentioned. Wires are down throughout Kentucky, and much of Tennessee. A sixty mile wind blew at Nashville.

NEGRO WOULD BE DIPLOMAT

Washington, Mar. 21.—When Secretary Daniels of the navy department returns today from a visit to his home in Raleigh, N. C., he will pass along to the state department the application of a colored man who has shined

his shoes and otherwise made him presentable, for a position in the diplomatic service.

When the secretary first came to Washington he was the guest of an old friend, Dr. Sterling Ruffin. The physicians' valet, J. Richard Davis, took special care of the cabinet officer and when the secretary left for Raleigh Davis dispatched a letter to him telling of his aspirations for the position of secretary to the American legation in Liberia.

Davis, who has been in the employ of Dr. Ruffin for some time, speaks and writes Spanish perfectly, having spent four years in Cuba. He is an expert stenographer and in his leisure moments studied for the examination for the diplomatic service. He has the endorsement of the Colorado Democratic league.

M. D. LICENSE IS REFUSED

Pennsylvania Board Will Not Grant Temporary Permit to Tuberculosis Specialist

Philadelphia, March 21.—No temporary medical license will be granted by the Pennsylvania state board of medical examiners to Dr. Frederick F. Friedmann of Berlin, who asserts he has discovered a cure for tuberculosis.

This statement was made yesterday by Dr. J. M. Baldy, president of the board. Dr. Friedmann told four local physicians that he would not come to this city to perform experimental work unless he should receive a temporary license giving him permission to practice here.

"We will never grant Dr. Friedmann a temporary license," declared Dr. Baldy last night. "In the first place, the laws of the state do not permit such action, and secondly, the members of the state board of medical examiners do not intend to make themselves responsible for Dr. Friedmann and his cure. If he wishes to come here and treat patients and collect fees for treatment, he will be compelled to take the state board examinations similar to those taken by any one wishing to practice in the state. We do not object, however, to his coming here as a consulting physician and demonstrating his vaccine and I think every physician in the city will welcome him if he should come under these conditions. We feel, however, that some hospital should take the responsibility whether he is successful or not."

FARMERS SKEPTICAL

Large Percentage Declare That Experience Is the Only Agricultural College

Washington, Mar. 21.—More than 10 per cent of all the farmers interviewed by government representatives believe that experience is the only way to learn how to farm. This percentage told agents recently sent out by the department of agriculture that they took no stock in farmers' institutes, demonstration agents, farm papers or department of agriculture publications as aides in helping to make the soil more productive.

Starting on motorcycles or on foot, four department agents traveled through thirteen states, visiting every farmer along the way and asking questions. This inquiry revealed the fact that of the farmers who got department of agriculture bulletins 84 per cent read them and 48 per cent followed the suggestions contained therein. Of those who attended farmers' institutes, it was learned that 54 per cent practiced the methods advocated there.

MRS. WILSON TO BE PRESENTED

Washington, March 21.—Arrangements were completed today for a breakfast on April 5 at which the local society women formally will become acquainted with Mrs. Woodrow Wilson, wife of the president, and Mrs. Thomas Marshall, wife of the vice president of the United States. The breakfast will be given by a committee of Washington women and will be semi-formal. The guests will include Mrs. Champ Clark, wife of the speaker of the house, and the women of the cabinet circle.

Mrs. John W. Kern, wife of Senator Kern of Indiana, will act as toast-mistress, and an illustrated lecture on "The Historic White House" will follow the breakfast.

Give a pretty girl a mirror lest she get lonesome.

MANY DEATHS DUE TO STORM

Disturbance Over Central Western States Is Moving in This Direction

Twenty-nine known dead and 108 more or less seriously injured, communication by wire almost completely prostrated, transportation facilities badly damaged, and property loss that will reach into the millions are the known results of a series of storms that swept the middle western states last night and early today.

Through this entire region extending from the northern section of the southern states across the Ohio valley to the Great Lakes, the rain, snow or sleet was accompanied by a wind that varied from 40 to 70 miles an hour. The greatest loss of life according to reports received up to 2 o'clock this afternoon, occurred at Lower Peach Tree, Ala., where fifteen were reported killed. Five are reported dead at Poplar Bluff, Mo., with more than fifty injured, while one was killed at Hoxie, Ark., and 25 injured.

According to meager reports the center of the storm was felt in the vicinity of Poplar Bluff, Mo., and Hoxie, Ark., and in western Tennessee and Kentucky. The town of Poplar Bluff was practically demolished. Through the storm-swept district business houses and residences were wrecked, telephone and telegraph wires prostrated and railroad and street car traffic seriously delayed where not completely interrupted.

Reports up to 2 p. m. show the following casualties:

	Killed	Injured
Peach Tree, Ala.	15	0
Saline, La.	1	0
Tiffin, O.	1	3
Poplar Bluff, Mo.	5	50
Hoxie, Ark.	1	25
Walnut Ridge, Tenn.	2	10
Frankfort, Ind.	3	6
Lafayette, Ind.	1	0
Murfreesboro, Tenn.	1	0
Central Ohio	1	20

Washington, March 21.—A terrific storm that raged over the central western states throughout the night was today moving northward, leaving a wake of destruction.

Telegraph and telephone communication was crippled throughout the district south of the Ohio river. The storm, moving northward and eastward over Ohio and Indiana, threatened further destruction.

The weather bureau from the meager reports compiled over the crippled wires predicted a severe cold wave to follow.

Storm warnings were ordered displayed all along the Atlantic coast from Hatteras to Eastport, Me.

Last night's storm swept Arkansas, Mississippi and north across the Ohio river and today was centered over the great lakes. The weather forecasters after examining their reports said:

"The storm is accompanied by severe and shifting gales and wide-spread precipitation, followed by a cold wave of unusual severity for this season of the year. Heavy snowfalls are reported at many points in the north central states and great damage has been done to electric wires, the storm cutting off communication throughout the middle west."

FIVE KILLED.

Memphis, Tenn., March 21.—Five persons were killed and more than 50 injured by the storm last night at Poplar Bluff, Mo., according to members of the crew of St. Louis & San Francisco railroad passenger train which arrived here today three hours late.

They also reported one dead and 25 injured at Hoxie, Ark., and the town practically blown away. Great damage was done at Poplar Bluff, and in the country between that point and Hoxie.

As a result of the heavy wave wash caused by the storm, the steamer Vulcan, used by the government dredge fleet in work opposite this city, and valued at \$100,000, was sunk in 40 feet of water.

ONE DEATH REPORTED.

Shreveport, La., March 21.—One man was killed, several persons were injured and heavy property damage was done at Saline, La., a town of about 300 inhabitants, in Bienville parish, by last night's severe wind storm, according to a report received here today.

Several houses were blown down in Gibbsland, a town in Bienville parish, and several thousand dollars of property damage was done. The house of Joe Randall in Gibbsland was blown from its foundation, carried through the air several hundred yards and deposited outside the town.

WIRES DESTROYED; REPORTS MEAGER

Meridian, Miss., March 21.—Several negroes are reported killed and a number of cabins demolished as the result of heavy wind storms which struck a small settlement last night five miles north of Macon, Miss.

It is feared that severe damage was wrought by the storm in the northern part of the state, but communication with this section is impossible because of the demoralized condition of telegraph and telephone wires.

FIFTEEN DEAD IN ALABAMA

Mobile, Mar. 21.—The town of Lower Peach Tree, Ala., was practically wiped out by a tornado last night and at least fifteen persons were killed according to word received from Pine Hill this afternoon. The tornado passed directly through the town and only a few houses escaped destruction. News of the disaster was confirmed when an appeal reached the mayor of Pine Hill asking for doctors and nurses. A message asking assistance was also sent to Governor O'Neal.

PROPERTY DAMAGED THROUGHOUT INDIANA

Indianapolis, Mar. 21.—Two persons were killed and several probably fatally injured today by the windstorm which wrought havoc throughout the state, causing thousands of dollars' damage to property.

Omer A. Kite, a cab driver at Frankfort was killed when the roof of a building struck him. Henry Walters, a workman of Lafayette, was crushed to death underneath a falling sign.

Several churches and school houses were wrecked over the state and one of the buildings of Indiana university at Bloomington was damaged. Wire service all over the state was demoralized.

The wind, it was said, reached a velocity of sixty miles an hour at 5 o'clock. The streets here are littered with wrecked signs, parts of roofs, broken windows, bricks from chimneys, and branches from trees. The railway service throughout the state was demoralized.

CENTRAL OHIO STORMSWEEP

Columbus, Ohio, Mar. 21.—A terrific wind storm swept over central Ohio today causing one death, probably a score of persons injured, numerous small fires and thousands of dollars damage to property. The gale reached a velocity of fifty miles an hour.

Richard Plimmer, a contractor was killed and three other men seriously injured when a brick building collapsed.

COUNTY INFIRMARY AT TIFFIN, O., DESTROYED

Columbus, O., March 21.—At Tiffin, O., William Wick, 75 years of age, was instantly killed and six or eight others are believed to have been buried in the debris of a smoke stack of a county infirmary which was wrecked by the high wind. Three others are known to be injured.

FOURTEEN MAY BE DEAD NEAR MOBILE

Mobile, Ala., March 21.—An unconfirmed rumor from Lower Peach Tree on the Alabama river is to the effect that 14 people were killed and an immense amount of damage done by a tornado which swept through that place early last evening.

THIRTY-FIVE BUILDINGS ARE DESTROYED

Louisville, Ky., Mar. 21.—At Somerset, Ky., thirty-five frame buildings were blown down. None of the occupants was badly injured. Other points in the same section are reported damaged.

HAIR FOUND IN CELLAR

Musica Had Cashed 217 Bags of the Human Product Valued at \$100,000

New York, Mar. 21.—Creditors of Antonio Musica and his son Phillip, the hair importers who are under arrest in New Orleans charged here with obtaining over a million dollars from twenty-two banks through fraudulent invoices, learned today that human hair valued at \$100,000 had been found in a secret sub-cellar of a stable owned by the Musica in the Bayridge section of Brooklyn.

Deputy sheriffs made the discovery while conducting a search on a writ of attachment yesterday. They found 217 bags of fine quality hair stored in the cellar. An expert appraised it as worth as much as \$100,000. A search also was made of the Musica residence and the house was found to have been shorn of many of its more valuable furnishings.

HEAVY FINE FOR "MASHER"

Buffalo, N. Y., Mar. 21.—Leo D. Varian, a waiter, must today pay a fine of \$500 or begin to serve 180 days in the penitentiary, the heaviest sentence ever imposed here on a "masher." Varian was convicted of pressing unwelcome attentions on a sixteen-year-old girl.

COL. CABRAL DEMANDS SURRENDER OF CANANEA

Cananea, Mex., Mar. 21.—A demand for the surrender of this place was received today by Colonel Moreno of the federal garrison here. It came from Colonel Cabral, commanding the state forces now mobilizing at Del Rio, mid way between Cananea and Naco, on the border.

Cabral said he would attack in the morning and recommended that all women and children be removed from the place. Automobiles continue to hurry the non-combatants to the border at Bisbee and Douglas, and before the time of the threatened attack all women and children will have been removed.

SCHINAS NOT IN POLITICS

Greek Newspaper Publishes Letter Regarding Ging George's Assassin

New York, March 21.—The Greek newspaper Atlantis will publish today a letter from a Greek in this city, which the editors of the paper say contains reliable information concerning Aleco Schinas, the assassin of King George.

The letter is written by Basil Batznoulias, who claims personal acquaintance with Schinas and who says the man was an anarchist but never entered politics and was not a candidate for election to the boule, or Greek chamber of deputies, as reported.

"Aleco Schinas comes from the village of Kanalla," the statement reads. "He has a brother in Volo named Hercules Schinas, who has a chemist's shop there. The assassin worked as an assistant. As it often happens with brothers, they had a quarrel and Aleco came to America. Here he could not stand the heavy work and returned to Greece."

The statement that he was the founder of a school of anarchism or was a candidate for the boule is entirely untrue, because he was entirely reticent and all he did was to go from the chemist's shop to a coffee house and back. He had no friends in Volo. It was George Schinas who was a candidate for the boule.

"Aleco Schinas had nothing to do with any school and had no idea of entering politics. He was known as a man who loved isolation and his backgammon. He wore a beard and was an anarchist. He was more than 33 years old, short in stature and slightly humpbacked."

Solon S. J. Vlasto, editor of Atlantis, said the many conflicting stories that had arisen in this country concerning the assassin's identity arose from the fact that Schinas is a common surname in Greece and it is quite likely that there is more than one Aleco Schinas.

"Information that I have received from other Greeks who have lived in Volo and from our cable dispatches lead me to believe that the information given by Batznoulias is correct," said Mr. Vlasto.

SECURITIES ARE STOLEN

Subway Robbery Results in Loss of Negotiable Papers Valued at \$45,000

New York, Mar. 21.—W. A. Hall, president of a magazine company was robbed in the subway of securities valued at \$45,000 worth of negotiable securities. The theft became known early today through an advertisement in which Mr. Hall offered a large reward for the return of the papers "with no questions asked."

Mr. Hall was on his way from Wall street to the Grand Central station to deliver the securities, which he had just indorsed to another. He had placed them in an inside pocket of his coat which he had buttoned. But when he stepped off the train at the station he found that one of the buttons had been clipped off and the securities were missing. He remembered three men who had jostled him in the train but he declares he will not prosecute the thieves if they return the securities.

MURDERER IS HANGED

Execution of Negro Today May Be Last Legal Hanging in Nebraska

Lincoln, March 21.—Albert Prince, negro, was hanged at 1:35 o'clock this afternoon for the murder of Warden Davis. He was convicted of the murder of Deputy Warden E. D. Davis at the state penitentiary a year ago, heard the warrant for his execution read this morning.

"All right, gentlemen," he said, "go ahead with the execution." Prince stabbed the deputy warden at the close of chapel exercises at the state prison on February 11, 1912. Prince will probably be the last man to be legally hanged in Nebraska. The state house of representatives has passed a law making electrocution the legal mode of capital punishment and another abolishing capital punishment in this state.

BARTHOU HEADS NEW CABINET

Paris, Mar. 21.—Jean Barthou, minister of publicity in the retiring French cabinet, today accepted the president's invitation to head the new cabinet. He called on President Poincaré and informed him that as the

result of inquiries he was sure of an ample majority to support him in the chamber of deputies and also in the senate at least until the electoral reform bill comes up again for discussion. It was the lack of support for this measure which brought about the fall of the Briand cabinet.

OFFICIAL SPRING HAS ARRIVED

New York, Mar. 21.—Winter ended at 12:01 this morning according to the vernal equinox with New York City having had less snow and cold weather than for many years. Practically all of the \$500,000 which the city annually spends for removing snow was saved.

NEAR DEATH IN ARCTICS

Schooner Crew Spent Winter Reaching Alaska From Siberian Coast

Seattle, Wash., Mar. 21.—The following special cable from Nome, Alaska, was received here today: Sam Gottschalk of the whaling schooner Moras reached Nome last night after a trip of 100 miles over the breaking ice in Bering Strait with news of the loss of the schooners were caught in the ice near the Siberian shore last fall at the time of the freeze up and landed boats to prepare winter quarters. Before the men were able to land all their provisions or make extensive preparations for the winter a great storm arose and they were unable to return to their schooners. During the storm the ice coming down from the Arctic caught the schooners and crushed them into a shapeless mass.

The crews, consisting of Gottschalk, Koren, a naturalist, the owner of the Kittiwack—Albert Gunderson and Gus Schroeder, started out in the lone remaining whale boat in a desperate attempt to cross the strait through the open leads in the great floes to the Seward peninsula.

Captain Whitting of the Moras, refused to accompany them and started south along the Siberian coast in an attempt to reach Plover bay, where there is an Eskimo settlement. Whether he arrived there is not known.

The party in the whaleboat encountered a terrific storm near Big Diomedes Island, and their boat was smashed to splinters in the surf and ice floes when they landed.

For three months the men subsisted on walrus, living in huts constructed of stones and ice, before they were able to attempt the passage over the broken ice to the Seward peninsula and Nome.

The Kittiwack was a small auxiliary gas schooner of fifteen gross tons. She was purchased two years ago by Koren, who went north in her to make a study of arctic wild flowers.

ELOPING SISTERS MARRY BROTHERS

Washington, March 21.—Two telegrams were all that were necessary today to apprise two families of the marriage of four of their members, when Lee F. and Townsend B. Titus, brothers of Luckets, Va., and Mary G. and Lucy E. Stonebruner of Lovettsville, sisters from the state, broke the news of their elopement and marriage here.

The wedding was officiated by the Rev. Samuel Smith of Pennsylvania, uncle of the brides, who romantically eloped in the double elopement.

"Very interesting," said the marriage license clerk as he made out the necessary papers. "In case of children what relation would be that," interrupted Dr. Smith, holding up an appealing hand. "I have been asked that before."

The elopers, fearing parental storms, disappeared on a honeymoon and will return later when the situation is calmer.

NO REPORT BY GOVERNMENT

Washington, March 21.—Contrary to many published reports, the public health service did not make any official report today upon tuberculosis patients inoculated with Dr. Friedmann's vaccine at Mount Sinai hospital in New York.

The service does not expect to make a report on their condition for some time.

MANY CANDIDATES FOR PENSION COMMISSIONERS

Washington, March 21.—Former Senator Obadiah Gardner of Maine, having refused the offer of commissioner of pensions, it was learned today, friends of Dr. D. C. Gentsch of New Philadelphia, O., have renewed their efforts on his behalf for the place.

GONZALES EXECUTED

Members of Firing Squad Declare Chihuahua Governor Was Shot at Torreon

El Paso, Tex., Mar. 21.—Mexicans arriving at Juarez from the south today declared that they were part of a firing squad which executed Abraham Gonzales, governor of Chihuahua, under the Madero government a fortnight ago.

Gonzales was killed under the notorious "fugitive law" these Mexicans declare.

The Chihuahua governor, the self-proclaimed executioners said, was killed at Torreon.

At Jimenez, the ex-governor was separated from six other prisoners, and, alone in a single car drawn by an engine, was hurried south. At a quiet place in Torreon he was removed from the car and shot, say the men who admit being present.

Gonzales has been missing since his removal from Chihuahua nearly three weeks ago. He was one of the most prominent promoters of the Madero revolution. Gonzales was well known among American cattlemen before the revolution, being a cattle broker of Chihuahua City. He was educated at Notre Dame university, South Bend, Ind.

DARROW TO DEFEND BOY

McNamara Attorney Accepts First Case Since His Own Prosecution for Bribery

Los Angeles, Cal., March 21.—Clarence Darrow will shortly appear in the defense of another for the first time since he became implicated in bribery charges growing out of the defense of the McNamara brothers.

Mr. Darrow has become interested in the case of Martin Hickert, a lad of 15 years, who is charged with the murder of his father, whom he killed because of the continued cruelty to which he and his mother were subjected.

If the boy's defense does not interfere with Darrow's own third trial, which is set for March 31, he will act as assistant counsel under one of the attorneys who defended him in his own first and second trials on charges of bribery.

MONTENEGRO SENDS REPLY

Demands of Austria Are Refused—Ultimatum Is Promised

London, March 21.—King Nicholas of Montenegro today replied to peremptory demands made by Austria yesterday in connection with the Montenegrin bombardment of Scutari.

Although the note is conciliatory in tone, the king refuses most of Austria's demands. He says he has ordered that the bombardment be directed only against the forts and that the rest of the city shall not be shelled.

SITUATION REGARDED AS EXTREMELY SERIOUS

Vienna, Austria, March 21.—The Austria-Hungary government is preparing an ultimatum to Montenegro, according to an unofficial statement issued today.

The Montenegrin reply is considered here as creating a serious situation. A lively exchange of views is proceeding between the Austria-Hungary and the Italian foreign offices in regard to possible joint action by the two powers.

Austria will insist on enforcing the decision of the European powers that Scutari shall remain an integral part of the future autonomous state of Albania.

CONTINUANCE IN LAND FRAUD CASE

Cheyenne, Wyo., March 21.—Counsel for the Owl Creek & Northwestern Coal company defendants in the suit brought by the government to recover land in the Big Horn basin appeared in the United States district court here today and asked a continuance until next week, promising that at that time the individual defendants would appear in person.

The government charges that original entries to the land in question were fraudulently made.

And platonic friendship frequently makes a noise like a flirtation.

The Evening Paper Keeps Its Readers in Contact With the World at Close Range

The afternoon paper is made "at high pressure." The facts showing you the kind of world you live in day by day—of presenting again and again history that is less than an hour old—keeps the afternoon paper aquiver with life and life's moods. The advertising in an afternoon paper is a PART OF IT—appealing to minds quickened and made responsive and appreciative by contact with the world at close range.
