FACTS ABOUT THE U. S. ARIZONA.

I, the biggest dreadnought ever built, was laid down in May, 1908, and at the time it was started was the costliest vessel afloat. It was equipped with twenty-four-inch guns and was considered much better armed and more strongly built than any vessel the United States had ever launched before. It was built at the Washington Arsenal and the Pacific Coast yards, and was the most formidable defense of any, construction.

Like a mighty giant towering above all others, the U. S. Arizona, the greatest dreadnought ever built, lies at anchor in the harbor in front of the United States. All that can be said is that she is a T-shaped structure, with large bays at the rear of the ship. The length of her main deck is thirty-two feet, and her overall length is sixty-feet, making her the largest warship in the world. She is also the largest warship that will be built for the United States Navy.

The Arizona was laid down in May, 1908, and was completed in the year 1922, at a cost of $25,000,000. The Arizona is rated as a battleship, and is classified as the United States Navy's first battleship. She is armed with twenty-four-inch guns, and is armed with four 20-inch guns, two 16-inch guns, and four 12-inch guns. She is also armed with four 6-inch guns, two 4.7-inch guns, and four 3-inch anti-aircraft guns.

The Arizona is the pride of the United States Navy, and is used as a training ship. She is also used as a floatplane carrier, and is used as a target ship for the training of the United States Navy's air forces.

THE PENNSYLVANIA, BEFORE LAUNCHING.

The Pennsylvania, the second of the Pennsylvania class of battleships, was launched on the 4th of November, 1922. She is named after the state of Pennsylvania, and is the second of the Pennsylvania class of battleships, the first being the Pennsylvania. The Pennsylvania is a battleship of the Pennsylvania class, and is armed with twenty-four-inch guns, and is armed with four 20-inch guns, two 16-inch guns, and four 12-inch guns. She is also armed with four 6-inch guns, two 4.7-inch guns, and four 3-inch anti-aircraft guns.
