Sighting is in good condition and the teachers are making the best of it.

The young folks are having a fine time almost every evening they are out sleighing.

C. R. With came up from Rockport and spent Saturday and Sunday with friends in Peoria.

J. L. Marchant and a portion of his family will have a new party snowing.

Franklin G. Marchant, son of F. W. Marchant, has done quite well for the past few days; the young gentleman is now recovering.

Though snow on Tuesday was the heaviest of the season and the ground is covered with the beautiful to the depth a foot or more.

The spirit of the district school, under direction of the teachers, will give entertainment on the afternoon of February 22, Washington's birthday. From what we learned I am inclined to believe that it will be a most enjoyable affair.

A gambler from a neighboring state, and who is a subscriber for THE TIMES, complains that only about half the papers go to him. I would advise the papers to be interested in THE TIMES party who is interested in THE TIMES to let him go to its destination, and see how he gets and have one of his own to be supplied.

We want to be thankful for what we get. We can get, but let us not be so glad to get it. We must be glad to get it, but let us not be so glad to get it.

Evans Times: Wm. Ball, who has been laid up with sickness the past two weeks, is now improving.

Wm. Hill, the new section foreman and wife, are now installed in the company boarding house.

The prospects for moisture for the coming season have brightened considerably during the past week, for quite a bit of snow has fallen.

Our population was added to during the week by the arrival of a lady who to Mrs. May, the wife of night operator here. Mr. and Mrs. May are now settled at home-keeping.

The fine good drifting winds of the winter came during the past week, and the snow is piled up to bank and drifts in consequence, which will have the effect of making the water hold out longer the coming season.

Park City Extension

Park City, Feb. 18.—

Another important step has been taken in the Rio Grand Western Railway company's proposed extension to Park City. It has been decided to make two the junction, providing certain necessities, asked for at the City Council this evening, are granted. The prospects are not extravagant, and it is no doubt to be expected.

In brief, the Rio Grand Western petition for more depot facilities and for the privilege of a double track along one of the streets, are now the company has only one track. The privilege of putting in a "Y" is also wanted, extending one block along another street.

The petition was signed by superintendent Wolfley in behalf of the company, and was presented by A. E. Woodruff, their attorney. It asks for the use of that part of First street, between J and M streets, for depot facilities, where switches will be put in, and at the bottom of the street a round-house will be erected. Along M street north for one block, even with the boardman brick residences, it is proposed to put in a "Y."

From the present depot it is supposed to start the Park City branch, paralleling the present track to the outside of the city west to D street, where a turn is made toward the north, and just outside of the tire of blocks now inhabited, the line begins trending toward the mouth of Provo canyon.

KARAKA WING

The supreme court rendered an opinion yesterday in the case of Eureka City vs. R. B. Wilson, which is of more than usual interest, for the reason that it deals almost exclusively with the matter of appeals to the supreme court in cases originating in Justice's courts.

Wilson was convicted before a Justice of the Peace at Eureka for obstructing a street by erecting a building over it. The borough council without having obtained permission, as provided by the ordinances. He appealed to the District court, where he was again convicted, after which he appealed to the Supreme court.

Upon the argument in the Supreme court it was contended by the respondent that the decision of the District court was final, under the provision of the Constitution, which provides that "appeals shall be from the final judgment of Justices of the Peace in civil and criminal cases to the district courts, and in such cases as may be provided by law, and the decision of the District court in such cases shall be final, except in cases involving the validity of the statute."

Chief Justice Peck, in his opinion, held that the decision of the District court is not final, and that the case should be remanded to the District court for a new trial, with such restrictions as shall be provided by law, and the decision of the District court in such cases shall be final, except in cases involving the validity of the statute.

KANSAAS CITY

KANSAS CITY, MO., Feb. 17, 1907.

Say stranger, what you dare to do tonight.

How far you go, grip in this weight-bearing.

And I'll give you the best car they have.

Well, that's no objection.

But that's not your protection part.

And I'll give you the best car they have.

Just a little more pass some point.

No, stranger, I'll be back on time.

But I'll be back on time, not out on time.

What weight is your car, reports?

Say, you're a kinder man.

For a car you are to go with.

Like an empty cupped hand?

Like a starved soldier, that ain't so.

It's broken at every slip.

That'll be a day as a day as this.

And I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

Well, I'll be back on time, not out on time.

HERE AND THERE

Ogden, Feb. 18.—

George U. Lovell, a well-known resident of Ogden, and formerly Sheriff of Box Elder county for several terms, died very suddenly here tonight about 6 o'clock.

The cause is supposed to have been heart trouble.

Collinswood canyon near Brigham was swept by a snowslide at an early hour Friday night, which resulted in the killing of Andrew Amundson and the outlawing for six hours of John Anderson and Andrew Mills.

Several survivors have recently gone to Milford and Salt Lake, and the fact is added to the interest of those following railroad work.

WEEKLY REVIEW

Business of the Week as Reported by Practitioners

The most favorable features of the business week of 1907 consist of several points.

The collapse of the wool market, which provides some for the month to come.

The advance in the price of cotton, following a decline of 250, and prices from accumulated stocks, and the starting up of a number of important metal and other industrial establishments throughout the eastern and middle states.

The recent reduction in the price of steel billets of 15 a ton, while rails were about only 10 increased another cent to rail prices.

The latest facts prices from \$8 to \$9 lower than last week. This offers to be a stimulus for the buying of rails, demand for domestic.

Domestic pig iron and steel. There is a moderate increase in demand for pig iron at Pittsburgh, and purchases have been made by St. Louis steel makers.

Considerable activity is reported in domestic leather, for which the price is higher, and America purchases of wool at the late London sale amount to 40,000 tons, the highest total at any one sale since the speculative buying there by Americans prior to the going into effect of the McKinley tariff.

Months reports received in Kansas show that clothing and Birmingham and Jacksonville a moderate increase in the volume of trade.

Lumber collections have improved, and orders for spring goods at St. Louis have increased.

Chicago dry goods jobbers report only a moderate gain, but St. Paul sales of dry goods, shoes, groceries, hardware, druggs and military are the most encouraging for any week thus far for this year.

At most other, among more important, western and central-western cities trade remains quiet and unchanged, with little prospects for an early improvement.

St. Louis reports business dull, and at Cleveland, where distribution of merchandise has been fairly active, the market is now firm.

Trade is dull and unprosperous at Cleveland and Charleston, where that condition is not far behind.

The movement of the price is, on the whole, favorable, gains in addition to those for retail clothing, leather and domestic pig iron, being reported for tinplate, lead, zinc and sugar.

Firm and unchanged prices are announced for copper, wheat, pork lard, coffee, petroleum, flour and for steel billets, while addition to lower prices of steel rails are those for Indian corn and oats and cotton.

Abolition and the State

Two years ago the state of Wisconsin passed a law providing that the courts could not award indigent inmates to the care of a keeper or guard.

The expense of their treatment to be borne by the counties from which they come.

The people of Wisconsin generally have rebelled against the law.

They claim that the bills presented during the last two years amount to \$10,000 to Milwaukee county, and other counties in proportion.

And now the Supreme court has declared the law unconstitutional, and the experiment is at an end in that State.

Notwithstanding all that, we believe that such a law is in the interest of both humanity and economy.

If the county of Milwaukee has paid \$30,000, the chance are that 200 drunkards have been treated and that at least 270 of them have been returned to their normal condition.

With only 1, 250 would probably cost the county in the matter of arrests, imprisonment and burial expenses, two or three times that amount in the next five years.

Then on the humane side, Wisconsin would not incur at keeping the indigent class in hospitals, supplying them with physicians, nurses, medicines, food and clothes when they die.

Now, abolition is just as much a disease as typhoid fever or diphtheria, and needs just as careful treatment.

The only difference is that, instead of the water in a barrel, cold lukewarm water, have a thought in their minds that it is a man through the clear of his spirit.

It is a disease of the soul, and it is a disease of the soul, and it is a disease of the soul.

It is a disease of the soul, and it is a disease of the soul, and it is a disease of the soul.

It is a disease of the soul, and it is a disease of the soul, and it is a disease of the soul.

It is a disease of the soul, and it is a disease of the soul, and it is a disease of the soul.

It is a disease of the soul, and it is a disease of the soul, and it is a disease of the soul.
