

DEMOCRATIC ADDRESS

To the People of Utah. Delivered at Salt Lake City on Saturday, June 10th, by the Territorial Democratic Convention.

Resolved, That as the convention was not called to make nominations or formulate a platform of principles, the following be adopted as the sentiments of the convention to be presented in the form of an address to the people of Utah:

We, the democrats of Utah, in convention assembled, hereby declare our devotion to the time honored principles of the democratic party as enunciated in the national platform and embodied in the hearts of its members.

We are emphatically in favor of equal rights to all and special privileges to none; of the greatest possible liberty to every individual compatible with the public welfare; of the advancement and support of home industries; of the maintenance of local self-government to the fullest right extent; and of a strict construction of the national constitution.

We are in favor of such reform of the tariff as is consistent with the interests of the consumer and the producer, and declare that duties upon foreign imports should be levied upon the necessities of life, for the purpose of providing revenue, and not for the special benefit of any class or private enterprise. We are opposed to the bounty system, by which the many are taxed for the enrichment of a few.

We demand the speedy passage of the bill for tariff reform now pending in the senate, including the provision for an income tax by which those large property holders who are best able shall bear their just share of the burden of taxation. And we denounce the obstructive policy of republicans in congress, by which a needed measure to provide public revenue is delayed, causing uncertainty and doubt in commercial and manufacturing circles, and thus paralyzing industry and arresting trade.

We demand the restoration of silver to the constitutional position it occupied in 1873, by which the republican party cast down that historic and essential money metal, and caused the increasing disasters which, beginning with the panic of 1873, and bursting forth at intervals with terrible severity, deepening the agricultural interests of the country, creating unrest and discontent among the oppressed laboring classes and increasing the armies of tramps which swarmed over the land, culminated in the panic of 1893 and still spreads its blight upon trade and industry.

We call attention to the undeniable fact that the republican party took the government from the democratic administration in 1893, with more than a hundred million dollars in the national treasury and turned it back to the democratic party in 1893 with a treasury practically bankrupt.

We denounce the silver policy of the republican party as a system of miserable makeshifts to palliate the republican financial crisis of 1873, and declare that only in and through the democratic party can the people of the United States expect the re-establishment of true bimetalism, which includes free coinage of silver at the ratio of 16 to 1.

We believe that this can be done with safety and profit to this nation by American action, independent of European agreement, if international co-operation cannot be immediately obtained.

We denounce the republican policy of protection as embodied in the infamous McKinley law and reaffirmed by that party in its most recent utterances. We regard it as an assistant agency in producing the poverty and distress and social calamities of various kinds which afflict our country.

We deny that the high tariffs placed upon lead and wool and other commodities have raised their price or benefited the producer of such materials, while they have been oppressive and detrimental to the consumer and the country at large.

We cordially endorse the democratic congress and administration. In repealing the obnoxious federal election law and thus promoting the freedom of election, we favor the democratic party.

In formulating and endeavoring to enact a bill to reform the existing corrupt system of tariffs. In revising the pension lists, so that while all persons deserving the aid of the country for services in its defense shall be secured in their rights, impostors and fraudulent pension agents shall not be permitted to further bleed the body politic.

In the exercise of the federal power to suppress lawlessness where power to do so is clearly vested in the federal authority, and declining to interfere when it would intrude on the rights of a local government.

In the restoration to the church of Jesus Christ of Latter-day Saints property confiscated under the provisions of congressional law; and we favor the immediate restoration also of the real property so expropriated in view of the now indisputable fact that no pretext remains for charging that the majority of the people of Utah are in opposition to national authority.

In the passage through the house and the report in the senate of a liberal and excellent bill for the admission of Utah as a state on an equal footing with the existing states; and we urge its speedy enactment as a measure of simple justice to the oldest and most prosperous of the existing territories.

In the appointment of bona fide residents of the territory to the various offices in the gift of the government instead of men from other sections of the country unfamiliar with our people and the situation of our affairs; and we favor the rule under republican administrations.

And we further endorse all efforts to maintain the dignity and authority of the government and remove the effects of over thirty years of republican misrule.

long career of power, republicans have fostered if not originated the movement upon Washington by thousands of the unemployed. They have interfered with the efforts of the judiciary and the executive in different places to enforce the law. They have encouraged the massing at the seat of government of thousands of homeless men, made desperate by republican legislation, hoping that their presence would embarrass the administration and convey the false impression that the party in power is responsible for thirty years of republican misrule.

In this arraignment we include those local republicans who have endeavored to cast ridicule upon the governor, opprobrium upon the judges and insult upon the militia and the constabulary, while those officers were engaged in preserving the public peace and seeking to turn back the tide of poverty which was flowing into the territory.

We deeply sympathize with the distressed of our fellow citizens, the unemployed working people of the country, and particularly those who are dwellers in our territory. We deplore the policy which has brought into our midst large bodies of destitute men, who have been supplied with the very means that was required for the support of the resident poor, and some of whom sought to obtain the work which was needed by our own population.

We declare it to be our conviction that only by the reforms which will be introduced by a democratic congress and administration, can relief be afforded to the oppressed and needy working population and prosperity be assured to the toiling masses.

We denounce the false pretenses recently put forth by leaders of the republican party, by which they seek to deceive the voters of the United States into the belief that they are friends to silver by linking it with the heresy of protection. The terms "bimetalism" and "the enlarged use of silver" by which they seek to dazzle the eyes of the west and the south, are only catch phrases to fool the uneducated.

We denounce the national republican party for its false pretenses of sudden regard for the people of Utah against whom in its platforms and by extreme legislation it indicated intense hostility from its inception. Its simulated affection is coincident with the appearance of a possibility of republican support in the territory, and that its support is the only cause of its new attitude. It is the unselfish tenderness which the spider feels for the fly.

We denounce the only republican legislation of Utah territory: For its waste of public time and money in vain endeavors to manufacture party capital. For its opposition to the educational interests of the territory, by refusing to appropriate sufficient funds for the agricultural college and to carry on the university according to the provisions of the law creating the institution and requiring the establishment of necessary departments, and also by endeavoring to cripple the public schools in a scheme to take away part of the revenue necessary to their support and divert it for the purpose of giving bounties to benefit private enterprises.

For striving to commit the representatives of the people, in memorials to congress, to gross misrepresentation of fact and egregious blunders in principle. For defeating legislation which would be for the general interest but not favorable to republican advancement.

For making appropriations, after refusing to give necessary support to the education and the deaf and dumb, reform school, insane asylum and kindred institutions, and neglecting to provide sufficient revenue to meet the appropriations inconsiderately made.

The spectacle of republican legislation running away in haste to avoid an issue which they had raised themselves, evading the officers sent to arrest them and hiding until a republican majority could be assured, thus stopping the progress of public business in the upper house of the legislature and bringing that body into public contempt, was a scene unparalleled in the annals of our country, and exhibits the republican party in an attitude of cowardice and absurdity.

The republican legislature showed no baseness or less capacity, more parsimony and smaller economy, greater partisanship and narrower statehood than any other legislative assembly in the history of the territory.

We endorse the action of Governor Caleb W. West in the interposition of the veto power vested in him, by law, to prevent the enactment of vicious and partisan measures and insulting and misleading memorials by which the republican legislature would, but for his action, have injured and disgraced the territory. And we recognize in the governor a firm, discreet and able executive, whose influence has been cast on the side of law and order and the public welfare generally.

We confidently appeal to the citizens of Utah to stand by and support the party of the constitution and the people, from which alone political redemption can come to this territory and permanent prosperity to the nation; which will demonstrate the superiority of its principles and policy as soon as measures of reform it has inaugurated can be put into force and produce their effects; which works for the greatest good to the greatest number; which is the foe of monopolies and the friend of the masses; which does not depend upon any one man, however powerful, for its guidance or its victory; and which will maintain and bear off triumphant those sacred doctrines and institutions for which the fathers of our country fought and died, and to which we hereby pledge our faith, our devotion and our best efforts, with the full conviction that success will crown our efforts and Utah will enter the Union as a free and vigorous democratic state.

WILLIAM H. KING, Chairman. WM. K. ERD, Secretary. DAVID EVANS, JOHN T. CAINE, O. W. POWERS, JOSEPH MONSON, L. J. STEWART, Committee.

BAUSEHENTISM. FAIRVIEW CITY, Utah, Feb. 3rd, '94. FREDERICK HALL, Esq., Provo City, Utah. DEAR SIR:—In answer to your inquiry about what effect my wife had when I bought from you, I will say my wife was down with rheumatism most of the time last winter and part of last spring. I spent a good deal of money for medicines and doctor bills. She only received temporary relief. In July I bought from you one of your instruments and one bottle of oil. Since that time I have bought another bottle of the oil. As to the result I will say it has done more good for my wife than all other remedies put together which we have used. My wife now is well. If she feels any pain at all she always ends it with one application from your instrument and the rubbing on of the oil. We have used it on our children for sore throat and other pain. It has never failed in giving relief. I would be more than willing to do you in helping others if I could do so. Yours very truly, SWEN O. NIELSON.

AN INSECT COMMUNITY. The Wonderful Methods of Work and Government Employed by Wasps. Wasps act as architects, builders, carpenters and paper makers. They go abroad into the fields and gardens in search of provisions. With exemplary care for the public welfare they eat out the sunny side of your peaches and carry away meat from the lamb chops in your larder. Man, base man, who robs the busy bee of his hard earned honey and slays the gentle calf for the production of veal cutlets, usually speaks of the social insects as robbers and deprecators. But he forgets that the generous and public spirited wasp does not levy tribute on his appraisals for itself alone. It is the commissary of the republic. Each worker hurries back to the nest the results of his fruit hunting or his mandating expeditions and shares them among his fellow subjects with that distributive justice which Aristotle preached and which nobody in our human communities practices. He carries out the principles of the Fabian system.

Every successful wasp, when he returns to the nest with a piece of prima beef, or a wingless fly, or a cargo of sugar saved for the community from the grocer's barrel, perches on the top of the dome among his assembled fellows, and disgorging all his spoils divides them equally among nurses and paper makers. His two main doctrines are, "If any wasp will not work, neither shall he eat," and "Every wasp to labor according to his capacity and receive according to his needs in a free community."

Division of labor, I believe, goes a long way in the nest. Some of the workers seem to be specially employed as foragers and soldiers, others appear to be told off as nurses and guardians, while yet others are engaged as paper makers and masons. It is even said that they last work by definite shifts. I know not on what authority, and that they each have a space of about a square inch allotted to them to fill with cells, on which the neighboring worker is permitted to encroach with impunity. But these are perhaps the fictions of imaginative observers. At any rate, the eight hours' act is not late in operation. Wasps work early and late of their own mere notion.—Longman's Magazine.

London Tit-Bits has "twisted" 12 pounds as follows: "All is not beer that's bitter. The pledge in time saves crime. It's the long game that cures slow learning. She talks most who talks fast. Who can't be cured should be incured. There's many a tip 'twixt the meal and the lip. The nearer the bed the colder the sheet. When the fuel goes into the fire, the fog flies out of the chimney. Marry for taste—man, rather than treasure. Once bitten, now pierce it the second time makes one funk. Half a sofa's better than no bed."
