NOTED PEOPLE.

The crowd paid but little attention to the occupants of the vehicles. In the last carriage of the first procession sat Prince Henry of Prussia on the back seat, but he was so occupied with talking to the Duke of Sparta that he seemed not to notice the crowd. The

Prince of Wales seemed very indifferent and stolid, but the Princess of Wales

bowed and smiled constantly. It was not until the king's procession came

that there was any show of enthusiasm. Lord Kitchener, Admiral Seymour and

Gen. Gazelee, as they rode together, of course came in for much attention, but they all seemed to pay little attention to the people along the route. Lord

Kitchener, in the resplendent full dress uniform of a general, also looked un-

miliar, and many persons did not recognize him. The Indians were undoubtedly the most picturesque feature of the procession, while the state coach

of the king, drawn by the fat Hanover-lan horses which figured in all of the

late Queen Vivtoria's processions, seemed much more like fairyland than

usual. The progress of the royal cortege was marked by no special incident, with

the exception of an accident to Lord Edward Pelham Clinton, one of the

ing at high speed in an opposite direc-tion. The horses fell and there ap-peared to be a bad mixup. The police

extricated the team with some difficul-ty, and Lord Pelham Clinton, who was

THE ROYAL CHAIRS.

The various chairs to be used by the king and queen in the service attracted special attention, but what inevitably caught the eye was the glittering array

of gold plate, brought from various royal depositories, ranged along the chancel and behind the altor. Amidst these surroundings the earl marshal,

the Duke of Norfolk, resplendent in white knee breeches and heavily em-

broidered coat hurried to and fro directing the final touches.

By 10 o'clock the interior of the abbey presented a blaze of color. Along the nave, which was lined by grenadiers, every chair was taken up by high

officers of the army and navy and others in equally handsome equipment. On top of the arch separating the navy from the chancel sat the surpliced or-

STREET BARRIERS CLOSED.

The street barriers were closed at 10 o'clock. Prime Minister Balfour and Lord Rosebery were caught outside. They were obliged to alight from their carriages and walk to the abbey.

At 10 o'clock the king's nurses drove

The roof of the palace and those of all the surrounding build-lags were crowded with spectators, and the constantly arriving members of the ings were crowded with spectators, and the constantly arriving members of the royal family, with their suites and the appearance of the other participants in the procession elicited cheers varrying in degree of enthusiasm according to the popularity of the personages recognized by the people. Almost as animated was the scene in the vicinity of Westminster abbey, where bands of music stationed about the building relieved the tedium of the arly waiting, and soon after the doors mere opened state coaches, carriages and automobiles rattled up in a ceasetess line, the rich apparel of their occupants eliciting hearty approval, which however, was surpassed by the reception accorded to the men of the may brigade as they marched past at a swinging pace to take up a favored losition guarding the route near the labey. THE NEW SINGLE TURRETED MONITOR ARKANSAS

The new single turreted monitor Arkansas, which will shortly be formally turned over to the government, is one of four vessels of the coast defense class authorized by congress three years ago. She has a tonnage displacement of 3,214, a horsepower of 3,235, a guaranteed speed of 1134 knots and cost to build nearly \$1,000,000. Her main battery will consist of two 12 inch and four 4 inch rifles, while her secondary battery will include three 6 pounder and six 1 pounder rapid firers and one machine gun. The Arkansas is heavily armored, has very little freeboard and should prove a formidable war machine where large radius of action is not important

MINISTERS HOLD SECRET SESSIONS

Seems to be Order of Day at Present Conference.

CHANGE IN THEIR POLICY.

Disposition Now Seems to be to Desist From Making Immediate Attacks Upon the Mormon People.

There is much of the work of the present Methodist conference that is bemeeting the differences that existed between Mrs. Potter of the Woman's Home Mission society and the Rev. Mr. Mork in relation to the transfer of deaconesses, were attended to, and it is stated, amicably settled. It is further stated that the ministers were agreed that the best policy to pursue in Utah was to live absolutely at peace with the members of the dominant Church, It seems to be the desire of Bishop Warren and the ministers of this mission to desist in the future, from making immoderate attacks upon the religion and lives of the "Mormon" people, but rather force them gently to succumb to a

"superior" love and kindness. At this morning's session the feature that seemed to be most satisfactory to the ministers was the clearing of the \$10,000 debt that has been hanging so long over the new First M. E. church at Ogden. Dr. Hiff reported that Dr. J. Wesley Hill, who is in Philadelphia, has sent his check for \$1,000 and as that was all that was required outside of the sums that have already been subscribed but not paid as yet, the hope is indulged in that within a short time the

big debt will be a matter of history.

In the report of the committee on In the report of the committee on church schools there was a resolution calling for the establishment of a church academy, for the higher grades and a call upon the general board of church extension for an appropriation of \$10,000 to aid the project. The resolution was adopted unanimously, but the Rev. Mr. Mork said he could foresee difficulty in locating the school. He stated as his reasons for so thinking were, that the northern part of the state was already amply provided with educational institutions and in the south the Presbyterians had an acadsouth the Presbyterians had an acad-emy at Mount Pleasant and the B. Y. academy had an excellent branch school at Beaver, which was doing splendid work. However, he voted for the adop-tion of the resolution.

"The attorney for defendant raised several technical objections to the complaint. It was contended that plaintiffs had an adequate remedy at law, that they could have brought an action for damages which would have been an adequate remedy. I do not think that damages would be an adequate remedy in such a case as this. It was also contended by the city attorney that the possession of property would not be transferred by injunction from one party to another. In this case, I one party to another. In this case, take it that there is no possession of

It is contended that the result of the injunction would be to close in of the injunction would be to place in the hands of plaintiffs the water in the creek and also the water in the canal. I do not think that such an effect would result. If the situation should be such on Aug. 15 that the city is able to fill its contract it will be immediately restored to the possession of the Parley's creek water. The injunction will be granted.

"There were matters set out in the city's amended answer which are very important and should be determined on the final hearing. If, however, after the lath, the city is unable to meet its contract it should make application to the court for an immediate hearing on those points. There was not sufficient

City Atty. Nye stated that the city might be able to fill its contract within 48 hours and he would like to have some provision made in the injunction for the city to recover the Parley's creek water if it should be able to do

Atty. Sutherland, so the court stated that such provision would be made. Mr. Sutherland reminded the court that he had made no ruling in regard to the spring water in the bed of the creek. Judge Morse stated that he could not make any finding in regard to that point, that it would have to be determined on the final hearing.

Upon the suggestion of City Atty.
