HOUSEHOLD ECONOMY

How to Save \$2.00 on Cough Medicine by Making It at Home.

Cough medicines, as a rule, are mostly syrup. To make the best syrup, take a pint of Granulated sugar, add 1/2 pint warm water, and stir about 2 minutes.

Get two and one-half ounces of Pinex (50 cents' worth), put it in a clean pint bottle, and fill up with the Granulated Sugar Syrup. This makes a full pint of unequalled cough syrup, for about 54 cents. Keeps perfectly. You couldn't buy as much ready-made cough syrup for \$2.50.

This home-made remedy is pleasant to take, and usually stops even the most obstinate cough in twenty-four hours. It is splendid, also, for colds, whooping cough, bronchial ailments, etc. Take a teaspoonful every one, two or three hours.

The Sugar Syrup is an excellent sedative. The Pinex is the most valuable concentrated compound of Norway White Pine Extract, rich in all the healing elements of Norwegian pine. Be sure to use the real Pinex itself. Your druggist has it or can easily get it for you.

Strained honey can be used instead of the syrup, and makes a very fine honey and pine tar cough syrup.
