The Slim Woman Is Winning.

The day of the slim woman's triumph has arrived. "The thinner one is the more stylish," say the dressmakers. This would have been sad news for the fat woman a year ago. She would have had to try dieting or exercise. Nowadays, however, the woman who is too fat for the styles goes to a druggist and gets a case of Marmola Prescription Tablets, one of which she takes after each meal and at bedtime and so reduces her superfluous flesh quickly. These tablets, being made in accordance with the famous prescription, are perfectly harmless, and they are, also, the most economical preparation a person can buy, for they cost only 75 cents a large case, one of which is frequently enough to start a person to losing fat at the rate of 12 or 14 ounces a day. Pretty nearly every druggist keeps this tablet in stock, but should yours be sold out, you can easily obtain a case by sending to the makers, the Marmola Company, 1123 Farmer Bldg., Detroit, Mich.

themselves, as constructive factors, with the great spiritual currents that are shaping and determining human history; to convince men of the justice of the law that causes him who arises and supplies the needs of his brother in the uttermost; at the same time to multiply his own Christian efficiency at home; and to remind men that all life is a sacred trust involving the stewardship of time, talent, treasure, that to hold it to be given to give is to gain, that the spiritual values alone are everlasting, and that no man can live the large life God has planned unless he enters with his soul into the programme of Christ for solving the supreme problem of the world.

 In an address explanatory of the Laymen's Missionary movement, Judge Ritchie and Dr. McIntire, chairman and executive secretary, respectively, set forth these facts:
What Movement Is.
 "Beginning with last October, the Laymen's Missionary movement is holding conventions of Christian men in seventy-five of the leading cities of the United States, concluding in a national missionary congress in Chicago, May 6, 1910. The object of the national campaign is to secure from the men of our churches, by the inspiration of a group of the strongest constructive leaders of America's religious thought, a recognition of the responsibility of our Christian nation for the unevangelized world.
 "It co-operates with, instead of diverting enthusiasm from, the regular organized denominational channels. It stands for the investigation by laymen of missionary conditions for the agitation by laymen of a proper missionary policy, for the organization of laymen to lead the whole church in its work of saving the world.
 "Its purpose is to help men grasp the magnitude of the real business of the church; to enlist the brains and energies of the men who are swinging our modern industrial enterprises and to utilize them in the tremendous undertaking of the church, the evangelization of the world in this generation, of which work men have no adequate knowledge, as it has never been placed before them, and which work cannot be accomplished, for Christ never intended it to be, without their strength. It is its purpose to awaken men to their opportunities to unite

LOCAL ELKS LOST, STRAYED OR STOLEN

No Word Comes From Voyagers Who Went to Hawaiian Islands.

TRAVELERS ARE MAROONED ON COAST OF CALIFORNIA

New Officers Will Be Installed in First Week of April.

Exalted Ruler James W. Collins and Secretary A. W. Raybould of the local lodge of Elks, are wondering what has happened to the delegation that took the trip to Honolulu last month on the steamship Alameda. The Alameda was reported at San Francisco on February 28, but thus far none of the voyagers has reported at the local club to tell of the trip. It is believed that many of the Utahns who took the trip to the Hawaiian islands are in San Francisco, for the reason that they can't very well get home until the Southern Pacific line in Nevada is rehabilitated. The recent floods and snows have wrought such havoc with western railroads generally that traveling is rather uncertain.

Long Ways Home.

During the past few days transcontinental trains on the Union Pacific and Southern Pacific have been routed over the Oregon Short Line and O. R. & N. via Portland. It is a long trip, and Secretary Raybould is of the opinion that many of the Salt Lakeers who made the voyage to Honolulu have remained at San Francisco rather than make a tour of the Pacific northwest in order to get home.

Rehearse for Show.

The Elks' club is a busy place these days. Rehearsals for the annual show are held daily at the club under the direction of Rufus K. Love, and as the cast includes more than seventy-five persons, Director Love has plenty to do.
 "The Big Noise"—this is the name of the show—promises to be one of the hits of the theatrical season. The music is all new and the chorus and ballet include some of Salt Lake's best amateur dancers and musicians. The show will be given at the Salt Lake theater March 22-23.

PONY APPEARS AS WITNESS IN COURT

By Associated Press.
 CHICAGO, March 5.—"Harry," a nine-year-old Shetland pony, appeared before Municipal Judge Cleland yesterday as a witness for the owner, proprietor of a dog and pony circus, who is being sued for \$1000 damages by a former employee, who alleges that the pony kicked and injured him.
 The animal was taken into the courtroom to show the jury that it was gentle and did not kick unless annoyed.
 The pony remained gentle and quiet in the elevator until it started upward, and then it required the combined efforts of half a dozen men to keep the animal from kicking the sides out of the car.
