CLASH IS LIKELY OVER GRAFT CASE

States' Attorneys and Those of Cook County, Ill., Not in Harmony.

SPRINGFIELD, Ill., May 3.—States Attorney Burke of Sangamon county will make every effort to bring Representative White before the Sangamon county grand jury and a clash between the states attorneys of this county and of Cook county may result.

On the day when the confession of Representative White appeared in the Chicago Tribune, States Attorney Burke sent a letter to the Tribune asking the names of representatives of that paper to whom White made his confession. Later a subpoena was issued for White to appear before the Sangamon county grand jury, this subpoena being made returnable Monday, May 9.

No reply was received from the Tribune, so States Attorney Burke states, until today, when the following letter was received by him:

"Chicago Tribune, office of managing editor:

"Dear sir—I beg to acknowledge the receipt of your letter.

"Mr. White's confession and all his documents, letters, telegrams, etc., in connection with the case were taken from my possession this afternoon by a subpoena deuces tecum issued by the states attorney of Cook county and are now in Mr. Wayman's possession.

"Mr. White is at the resent time under subpoena to Mr. Wayman, and I really know nothing about his movements or how long he will remain in Mr. Wayman's hands.

"Yours respectfully,

(Signed) "J. KEELEY,
"Managing Editor."

The sheriff of Cook county had informed States Attorney Burke that he is unable to serve the Sangamon county subpoena as Representative White is in the possession of States Attorney Wayman. The Sangamon county grand jury is now in session.

Chief Deputy Fred Long of the sheriff's office here talked today over the long-distance telephone with Chief Deputy Peters of the Cook county sheriff's office and the latter said it looked as though States Attorney Wayman did not want the Sangamon county subpoena to be served.

READY FOR PROBING GRAFT IN ILLINOIS

CHICAGO, May 3.—Following a day's absence on a secret mission, State's Attorney Wayman tomorrow will take charge of the special grand jury investigation in the double charges of bribery in the state legislature.

Evidence in both cases—the alleged corrupt election of William Lorimer to the United States senate and the Chicago & Western Indiana railroad scandal—will be placed before the jury tomorrow.

Senator Lorimer said late today that he expected to return to Washington tomorrow. He declared he had not been summoned before the grand jury. Attaches of the state's attorney's office also denied a rumor that Senator Lorimer would be called as a witness.

Among witnesses under subpoena to appear tomorrow in connection with the railroad bill investigation are: F. A. Delano, president of the Wabash railway; J. W. Kendrick, vice president of the Santa Fe and a director of the Chicago & Western Indiana road; Ira G. Rawn, president of the Monon and a director of the Chicago & Western Indiana; M. J. Clerk, secretary, and J. E. Murphy, treasurer of the Chicago & Western Indiana; H. C. Field, vice president and solicitor of the Monon, and W. O. Johnson, attorney for the Erie.

SENATOR M'CUMBER RECOVERING RAPIDLY

WASHINGTON, May 3.—Senator McCumber of North Dakota, operated upon yesterday for an abscess which followed an operation for appendicitis, was reported tonight as progressing rapidly toward recovery.

DRIVEN INSANE BY FEAR OF HALLEY'S COMET

MASSILLON, O., May 3.—Driven insane by the fear that the world will be destroyed by Halley's comet, Fred Bowers, a farmer, is being held at the police station here pending the arrival of an order committing him to the state asylum.

The immediate cause of Bowers' incarceration is his refusal to pay for large quantities of merchandise which he purchased. He declared that it was useless to pay for them for in fifteen days the world would be consumed by fire. Bowers declares that he has a mission from God to warn mankind of the approaching end of the earth.

MAY ADJUST TARIFF TROUBLES WITH CANADA

WASHINGTON, May 3.—With the near approach of adjournment of the Canadian parliament, the intimation from Quebec that the Canadian envoy might be willing to enter into a reciprocal arrangement with the United States which might involve the removal by the provinces of the inhibition against the exportation of pulp wood in consideration of favors by the United States in the way of lower duties on print paper and the free entry of mechanically ground wood pulp, occasioned no surprise here.

From the time of the Washington visit last March of the Canadian premier, the United States government has understood such an arrangement would be welcomed by the Canadian government, and intimation was then made that proposals contained in the Mann bill, introduced in congress last December, probably would be satisfactory.

This bill reduced the duty on print paper from $3.75 to $2 per ton and placed wood pulp on the free list.

It is everywhere admitted that timber in the United States available for the manufacture of print paper pulp is rapidly becoming exhausted and Canadian forests must be looked to to furnish a large proportion of the supply.

DAUGHTER OF CROKER WEDDED TO A GROOM

NEW YORK, May 3.—For several days there have been rumors that Miss Ethel Croker and John J. Breen, a groom at a New York riding school, were married recently in Hoboken, N. J.

Denials and counter denials from both sides and the justice of the peace said to have officiated declined to make any statement until tonight, when he issued a sworn statement that the Miss Croker concerned was a daughter of Richard Croker, the former Tammany chief, and Breen, a riding academy groom. He had kept the secret, the justice added, at the request of Breen.

Miss Croker, or Mrs. Breen, is booked to sail for Europe tomorrow. Her family declines to discuss the justice's statement.

TREASURER IS MISSING AND SO IS THE CASH

SANTA MONICA, Cal., May 3.—Ralph Bane, city treasurer of Santa Monica, is missing and a shortage approximating $18,000 confronts the city administration. Bane has not been seen since last Friday, but it was not known until late last night that he had fled or that affairs in his office were irregular.

The money is believed to have been lost on a speculation in wheat, having been put up to protect margins for a great rise Bane expected to follow the late storms in the east.

Bane is believed to have gone to some foreign country. Only a few days ago he was inquiring into the extradition laws of several nations.

The municipality is protected by a $25,000 bond.

WIFE-BEATER KILLS SPOUSE AND HIMSELF

ST. LOUIS, May 3.—While ten policemen surrounded his house in an effort to arrest him, John Briscoe shot and killed his wife and himself today. Mrs. Briscoe had summoned the police to protect her from her husband, who was beating her. Three policemen answered the call, but Briscoe refused to surrender. Reinforcements were summoned and a march on the house was started. Then Briscoe fired the fatal shots.

"CHOPPING UP" RAILROAD BILL

Continued from Page One.

agreement should result in higher rates than previously charged, the interstate commerce commission should approve the rates before they became effective. Mr. Martin of South Dakota offered a substitute providing any rates made by traffic agreements should be approved by the commission before becoming effective.

Traffic Agreement.

Mr. Mann of Illinois, in charge of the measure, opposed both amendments. He declared the traffic agreement clause as reported contained all the safeguards for supervision of rates by the commission that were proposed in the amendments. Both political parties, he declared, had approved this proposition for traffic agreements.

By 83 to 59 Mr. Martin's substitute was adopted.

Mr. Madden of Illinois offered an amendment to strike out the entire traffic agreement section. By 110 to 91 the amendment was adopted, many regular Republicans voting with the Democrats. A number of insurgents voted against the Madden proposition.

SECTION SEVEN CAUSES MOST OF THE TROUBLE

WASHINGTON, May 3.—Section 7 of the railroad bill, which caused all the trouble, never was perfected in the senate. The Cummins and the Elkins-Crawford provisions were offered as complete substitutes for the section. The Cummins provision would have legalized traffic agreements, but would have compelled the railroads to procure the approval of the interstate commerce commission before making changes of rates.

The Elkins-Crawford provision would authorize the making of traffic agreements, but would permit the railroads to put into force changes of rates without first obtaining the approval of the commission.

The insurgents claimed that this provision would repeal the Sherman anti-trust law so far as it applied to railroads and would put an end to competition as to rates.

Both factions contended that their amendments were in compliance with the Republican national platform, which declared that the interstate commerce laws should be amended so as to permit railroads to make agreements as to rates, subject to approval of the commission.

"The insurgents, however, have reached the respectable status of being treated as belligerents," commented Mr. Dolliver before the senate convened.

Not only Mr. Dolliver, but also other insurgents, believed today's proceedings would mark an epoch in the history of the bill. The insurgents were divided in opinion as to the probable fate of the Cummins amendment. Some were not so sure it could be beaten by the regulars, even with the assistance of those senators who agreed to vote against it with the understanding that the agreement provision would be withdrawn subsequently. They appeared hopeful of success and indicated their preference for the regulation of traffic agreements by such a provision. Discussing the programme of the regulars, Mr. Dolliver said:

"It is like driving off the roof the man who is patching it in order to burn the house. We would prefer to go on and perfect the bill. We are certainly getting on. Our war status is recognized. We are to be dealt with, and our right to make treaties and to enter into alliances is established."

SARCASTIC COMMENT ON "SOCIAL ORGANIZATIONS"

WASHINGTON, May 3.—"I would not be surprised to find that the safe blowers and porch climbers have social organizations," sarcastically observed a member of the house committee on the District of Columbia today, after counsel for trade organizations had explained their benevolent and "largely social" objects.

The committee was investigating the high cost of living and other problems and evidence already shows, according to counsel, that the tomato canners, oyster packers and other commodity handlers have associations for "social" purposes.

Percival M. Brown, attorney for the wholesale grocers' organization of Washington, testified today that its purposes were "largely social." He appeared to oppose any requirement that weight labels be put on food packages and admitted where retailers tried to buy from the wholesalers it might make a difference whether the retailers belonged to a retailers' organization.

"Why does this social organization require an attorney?" asked Representative Johnson of Kentucky.

Mr. Brown replied that he did not think it needed one; that he was not retained by the year, but on "occasions."

ARRANGE INVESTIGATION OF THE THIRD DEGREE

WASHINGTON, May 3.—The senate inquiry into the "third degree" practices of police will be conducted by Senators Curtis, Brown, Borah, Overman and Stone, who were appointed today by the vice president. Senator Heyburn, author of the resolution providing for the inquiry, was tendered the position of chairman of the committee, but declined on account of pressure of other business.

Smoot Explains Bill.

WASHINGTON, May 3.—In connection with the reading of a telegram from the Board of Trade of Coalinga, Cal., protesting against the house public land withdrawal bill, Senator Smoot today made a statement to the senate explaining the status of that bill in the senate.

He spoke as chairman of the sub-committee having in charge the conservation measures and said the senate committee had reported an entire substitute for the bill. The California protest related especially to oil lands and Mr. Smoot said the senate bill contained no provision for withdrawal of such lands.

DECLARES NEGRO'S SIGHT BETTER THAN WHITE MAN'S

WASHINGTON, May 3.—The white man's educated ancestor has bequeathed to him afflictions from which the negro is free, according to Dr. J. L. Minor of Memphis, Tenn., who spoke today before the American Ophthalmological society, one of the constituent organizations of the Congress of American Physicians and Surgeons, which began its sessions here today.

Dr. Minor said negro children had a better average of normal vision than white children, and that the negroes showed a remarkable absence of errors. He said old age did not make the inroads on the eye of the negro that it did on a white person, and that cross-eyes were almost unheard of among negroes.

On the other hand, he said, trachoma often was seen among colored people.

SALVAGE RECOVERED AFTER FIFTY YEARS

HALIFAX, N. S., May 3.—The schooner Hazlewood arrived here today from Barrington, N. S., with a cargo of material from the steamer Hungarian that was wrecked in February, 1860, with a loss of 400 lives. United States and English silver coins have been found covered with rust, but otherwise in good condition, after having been more than half a century in the water. The articles recovered have been eagerly sought by souvenir hunters. Divers are still working on the wreck.

KILLS CHORUS GIRL AND COMMITS SUICIDE

BISBEE, Ariz., May 3.—Harvie Hughes aged 20, member of a prominent family here, shot and killed Marguerite Matheson a chorus girl, today, and then sent a bullet into his own head. The tragedy occurred in the girl's room. Hughes is said to have broken in and shot her as she slept. Two bullets pierced her heart. Jealousy is said to have been the cause.

Condensed Telegrams

LIMA, Peru, May 3.—On account of mines placed in the river Guayas, the steamers of the Pacific and Kosmos line will not touch at Guayaquil.

CHRISTIANIA, May 3.—The funeral of the late Bjornstjerne Bjornston, the Norwegian writer who died recently in Paris, was held today with imposing ceremony. It was attended by the king and queen.

DUBUQUE, Ia., May 3.—Walter Smith, 24 years old, tonight confessed, according to the police, to setting fire twice to the Grand opera house yesterday during a performance.

WASHINGTON, May 3.—In honor of Associate Justice Lurton of the supreme court an elaborate dinner, with covers laid for sixty guests, was given here tonight by Alfred P. Thom, general counsel of the Southern Railway.

NEW YORK, May 3.—Improvement was noted today in the condition of Dr. Roswell Park, the distinguished surgeon of Buffalo, who is critically ill with pneumonia at the New York hospital. Dr. Park operated on President McKinley after the president was shot in 1901.

SAN FRANCISCO, May 3.—The engagement of Helene Irwin, daughter of William G. Irwin, the Hawaiian "sugar king," to Charles Templeton Crocker, son of the late Fred Crocker of this city, was announced today. The date of the wedding was not given out.

NEW YORK, May 3.—Basanta Chandra Bonnarjee, a Brahmin, was admitted to citizenship today, the first of his caste to be so honored. He expects to go to Washington soon and be the first naturalized Brahmin to greet a president. Bonnarjee is a man of education and has been in this country six years.

CHICAGO, May 3.—London C. Cretchell, a Los Angeles, Cal. real estate dealer, is being held by the police here on a charge of forgery made by a Los Angeles bank. He will be returned to that city in custody of detectives. When arrested at a hotel here, Cretchell had $1200 in cash on his person.

ALBANY, N. Y., May 3.—The senate today amended the Agnew bill prohibiting the publication of betting odds so as to make it apply solely to bookmaking on horse races. As introduced, the bill was interpreted to include in its prohibition betting odds on boat races, football, baseball and amateur sports.

ST. JOHN, May 3.—Andrew Cushing & Co., one of the largest lumber manufacturing concerns in eastern Canada, assigned today. Liabilities $250,000. The firm was one of a group of American lumber concerns which imported logs from Maine and reshipped the sawed lumber to the United States free of duty.

TACOMA, Wash., May 3.—Charles J. Wezler of Portland, charged with the murder of his mother-in-law, Mrs. Frederick A. Schulz of Tacoma, April 4, tonight was convicted of murder in the second degree. The jury was out two hours, returning its verdict at midnight. The penalty is not less than ten years in prison.

SYDNEY, Neb., May 3.—Following a quarrel over the killing of a dog, a Miss Gebhardt, whose homestead adjoins that of D. B. Thompson, near Laura, Colo., just across the Nebraska line, fired a bullet into Thompson's lung, which will probably prove fatal. Miss Gebhardt has surrendered to the sheriff.

DAYTON, O., May 3.—The Wright brothers have abandoned their Montgomery, Ala., testing grounds, and it was announced tonight that their trial flights in future will be held at Simms station, where they made their first aeroplane experiments. The class of young aeronauts who have been learing to operate the biplanes is now on its way here.

ATLANTA, Ga., May 3.—Miss Gerald Farrar, the opera singer, sang today to an audience of convicts in the federal prison here. Miss Farrar played her own accompaniment and the response of the men admirably told her how appropriate were her selections. "Annie Laurie," "Coming Thro' the Rye," and operatic selections and a simple ballad. Charles W. Morso was in the audience.

NEW YORK, May 3—William R. Hearst won a legal victory over the city of New York in the supreme court today when Justice Greenbaum dismissed a test case to compel Hearst to pay damages obtained against the municipality for deaths and injuries of persons in the explosion of fireworks near Madison Square Garden in 1902, when Hearst was celebrating his election to congress.

OMAHA, Neb., May 3.—Dr. Frederick H. Milliner, experiment engineer of the Union Pacific, received orders today to begin immediately the installation of his system of railway wireless telegraph on the Union Pacific. The first stations are to be at Sydney, Neb., and Cheyenne, Wyo. He has already established a powerful station at Omaha, capable of communicating along the entire line.

NEBRASKA CITY, Neb., May 3.—An address in favor of the initiative and referendum by William J. Bryan, to have been delivered here tomorrow night, has been postponed because the county commissioners of Otto county refuse to allow Mr. Bryan to speak on that subject in the county courthouse. Two of the three commissioners are Democrats, but disagree with Mr. Bryan on the referendum idea.

FOREST CITY, Ia., May 3.—George Tardy a lion keeper, was seriously injured here today during a circus parade, when an enraged male lion sprang upon him and bore him to the floor of the cage. One arm was almost torn from his body and his throat and back were terribly lacerated. Two female lions in the same cage followed their male in the attack and the three fought desperately for possession of their victim. Elepehant keepers rescued Tardy.

ATLANTA, Ga., May 3.—Charles K. Hamilton, in his Curtiss biplane at the Atlanta speedway today, made a flight over a stretch of woodland to the little town of Jonesboro and returned about sixteen miles in a little more than eighteen minutes. Hamilton announced he would give one more series of exhibitions probably at Macon, Ga., before trying for a $10,000 priz offered by a New York newspaper for a flight from New York to Albany.

SAN FRANCISCO, May 3.—With the examination of one witness, whose identity was not learned, the federal grand jury inquiring into the sugar industry of the Pacific coast and Honolulu closed its labors today. James R. Knapp, special prosecuting attorney, will leave for Washington Thursday to lay the evidence secured before Attorney General Wickersham. He would not comment on the result of its work here.

BOSTON, May 3.—A movement to increase passenger rates on many of the railroads between the Mississippi river and the Atlantic seaboard will become practically general in New England by June 1. Following the recent announcement of an advance by the New York, New Haven & Hartford railroad, the Boston & Maine and Boston & Albany managements today stated that they had decided to raise rates because of the increased cost of operation.

LONG BEACH, Cal., May 3.—Looking over a local information bureau register recently, Miss Rose Pachman, 18 years old, of this city, found the names of her mother and brothers, who had been lost to her for fourteen years. The girl had been adopted by a family named Miller in Salem, O., in 1896, after the death of her father, and on coming to California all trace of her relatives was lost. Following the finding of the names on the register she located them in Omaha, whither she will go at once.

St. Mary's Academy

Among the time-honored customs observed yearly at St. Mary's there is hardly any other fraught with so many tender associations as the daily May devotions during this sweetest month of the year, for it is at this time that the Children of Mary, the principal religious organization among the Catholic students, unite to pay a public tribute of filial respect and love to their heavenly patroness, the Blessed Virgin Mary, mother of the God-Man, Jesus Christ. It was with joyous alacrity, then, that the members of this sodality gathered around the altar of their queen on the eve of May and by the voice of the president of the society, Miss Adelaide Sun, consecrated the month of May to her honor and invoked her powerful protection now and especially in their later years. This prayerful sentiment was the burden also of their beautiful hymn, on the same evening, "Come, Gather Round the Altar; to Mary Each Heart Offer." The benediction of the blessed sacrament was given by the reverend chaplain in the morning for the same intention. The devotions, consisting of a hymn and the reading of the act of consecration, take place every day during the month at 5 o'clock in the afternoon and culminates on the final day with a more elaborate ceremony known as the coronation of the Blessed Virgin.

There was a happy reunion of the class of 1906 at the academy Sunday afternoon, when Miss Mary Desmond, the president of that class, gathered her classmates, the Misses Florence O'Neil and Catherine McDonough, back to the home of their school days to renew their acquaintance with the friends and scenes of other days. Interesting accounts of the intervening years were heard from each, and yet it seemed so natural to see the three girls together that those years of absence appeared to be all a dream. This is perhaps the first instance of a complete class reunion among the alumnae and should go on the records of the society as a happy precedent.

The speech given by Miss Mena Reno at the student reunion yesterday morning was appreciated generally as quite the best that has yet been heard on these programmes. Taking for her keynote that loyalty which must inspire and inform this movement for self-government now on in the school, she instanced the late contest in which St. Mary's was represented among the other schools of the state as a proof that there is a goodly amount of that fine quality among the pupils on which to count for splendid results. She urged an immediate and zestful following up of the impetus aroused on this occasion for the purpose of pursuing the advantages held out by this annual contest, and, all in all, presented a very effective discussion of the subject.

The Misses Nelly Smith and Adelaide Sun then gave the "Quartet Scene Between Brutus and Cassius," Miss Sun prefacing the dialogue with a brief resume of the story of the play "Julius Caesar," the principal scenes of which have at intervals been given at these Monday programmes by members of the elocution class.

The April reports of averages of the weekly notes in lessons, conduct, etc., were read out Sunday morning at 11 o'clock, making the exercises unusually long. The speech and readings also being of more than ordinary length, there was insufficient time left for the meeting designed to be held at that time by the class presidents for the purpose of reaching some practical decisions with regard to student government. The main point agreed upon, however, was that for the present the meetings of the class presidents should be attended by the vice presidents and secretaries, thus securing a more general representation of the students in these particular assemblages. The experiment which is to be made in allowing the students a share in the disciplinary sphere, namely that of barring the unworthy from a place on the weekly roll of honor, is to begin operation this week. It is thought that this initiatory step will prove effectual in drawing a more careful and studious attention to the points included in the standard of deportment implied in the roll of honor and induce a more conscientious regard for its administration.

The first and second academics took their first spring outing Sunday afternoon, spending the hours with pleasure and untold profit to both mind and body in the school of nature as represented by Liberty park. The signs of the times in connection with out-of-door school work are all in favor of that idea, especially during these delightful days of spring.

STEAMERS IN COLLISION, BUT CREWS ARE SAVED

PROVIDENCE, R. I., May 4.—A rumor reached here early today that two steamers had been in collision somewhere off Cape Cod and that passengers of one vessel were being taken off by the other boat.

Word was sent out by wireless to the wrecking tug Tasco, half-way between Providence and New London, to turn back to give assistance.

The tug Tasco of the Scott Wrecking company of New London is in the harbor here. Her owners received news of the collision tonight and held the vessel for orders, the exact spot of the collision being unknown. A heavy fog has interfered with wireless communication all night.

BOSTON, May 4.—The steamer Liginoir reported in collission with the steamer Santurice, off Cape Cod, is an oil tank steamer of 2396 tons, owned by the J. M. Guffey Petroleum company of Port Arthur, Tex. The Liginoir is bound from Port Arthur for Beverly.

The steamer Santurice, which left Boston yesterday for New York, is a steamer of 1222 tons and is owned by the Harlan & Hollingsworth company of Wilmington, Del.

News of the collision between the Santurice and Liginoir was contained in the following wireless message received here tonight:

"Steamship Liginoir: Had collision with the steamship Santurice off Cape Cod about 8 o'clock last night. Have taken part of the Santurice's crew aboard, but Captain Folker, chief engineer and remainder of her crew remained aboard and will try to beach her at once. Fog is very thick. Liginoir slightly damaged forward, but will stand by until morning, when, unless needed, will proceed to destination at Beverly.

"L. A. CATES, Captain Liginoir."

Further details could not be obtained by wireless on account of the thick fog, and the exact position of the two vessels remained unknown. It is probable neither vessel carried passengers.

ILLINOIS LEGISLATOR "SQUEALS," SAYS ATTORNEY

ST. LOUIS, May 3.—John E. Wayman, state's attorney of Cook county, Ill., tonight secured a confession from an Illinois legislator, who is accused of taking $1000 for his vote in the contest that resulted in the election of William Lorimer to the United States senator. Wayman refused to give the name of the man who confessed.

Wayman and Detective Murnane of Chicago stopped at the Southern hotel, where Murnane made the following statement in the presence of Wayman:

"We came here to meet a member of the Illinois legislature because this is the most convenient place. We have been here the greater part of the day, and you can say we got all were looking for. You might say we got a 'squeal.'"

While in St. Louis Wayman called on Circuit Attorney Zebert G. Jones.

Early in the day Michael S. Link, representing the forty-seventh district in the Illinois legislature, was visited on his farm near Nameoki, Ill., by Wayman and Murnane and a deputy sheriff.

AUTOMOBILE RUNS INTO UNITED STATES MAIL WAGON

John Dern's big automobile, driven by Mr. Dern's, chauffeur, ran into a United States mail wagon at the corner of Second South and Main streets Tuesday afternoon at 1:30 o'clock, and the driver of the mail wagon, George Cuningham, was thrown off the seat into the street. His injuries, however, consisted only of a severe shaking up.

Traveling?

What about trunks, suit cases, grips, etc.? Better buy them here. We manufacture our own goods and we know what kind of material are used. We don't make "one trip" trunks—the kind the express man smashes the first trip we make them especially for traveling—they'll stand any amount of rough handling.

A Meredith Trunk Lasts

Prices are moderate. If your trunk or grips need repairs send them to us.

FIREMEN COME TO RELIEF OF ONE OF THEIR COMRADES

Salt Lake City firemen showed Tuesday that they are a big-hearted lot, when they presented Eddie Andrews, driver of No. 2 hose wagon, with a receipted doctor's bill for $575 and a check for $32.50.

Andrews has had more than his share of hard luck lately, owing to sickness in his family. Pluckily he had struggled along on his $85 a month. Tuesday morning he was called into the office of Chief W. H. Glore and was told that it was sorry business that he had to be called on the carpet. His features were soon overspread with smiles, however, when he learned that his doctor's bill had been paid and a neat little sum in addition raised by the boys.

As soon as Dr. C. M. Benedict found out what the firemen were doing he signed a receipt in full for all services rendered.

POLICE BELIEVE THEY HAVE CLEVER CROOKS

In the capture of Frank Kelly and J. S. Marriott at the Oregon Short Line depot late Tuesday afternoon the police department believes it has in custody a duo of the cleverest pickpockets that have ever operated in the west.

A report was telephoned to police headquarters that a stranger within the gates had been "touched" at the station for his pocketbook, containing considerable money and valuable papers. Patrolmen C. J. Eckstead and George Burton got busy on the case and in a short time had landed the two men.

At the police station the account they gave of their actions since arriving in town was decidely unsatisfactory, to say the least. It is probable that a charge of grand larceny will be preferred against them Wednesday.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security and Trust Company, 32 Up. Main street, $2.00 per year.

TIME IS MONEY, AND ALSO PROBABLY JAIL SENTENCE

Caught with the goods in his possession, Elias S. Ash, 41 years of age, was arrested Tuesday afternoon in Keith-O'Brien's store on the charge of stealing a large, richly ornamented clock.

Ash had been observed acting suspiciously in the store during the early afternoon. The police department was notified and George A. Sheets, chief of detectives, and Detective George Chase went to the store with a view of keeping their eyes on the suspect. They had not waited long until Ash was seen to grab the clock and make his way toward the door. He was caught, however, before he had a chance to go far.

Were Too Hilarious.

From the evidence in police court Tuesday afternoon, George John, Tons Anastrom and John Mallos became over zealous in celebrating the advent of Greek Easter about midnight Saturday by the discharge of firecrackers and were fined $5 each for violating the fire ordinance.

BIG STRIKE OFF IN INDIANA COAL FIELDS

TERRE HAUTE, Ind., May 3.—Eleven thousand Indiana bituminous coal miners will return to work tomorrow morning, thereby ending a strike which has been on in the Indiana coal fields for thirty-three days. Such was the temporary agreement reached here late tonight by the joint conference of miners and operators.

Under the agreement, only those mines where the northern outside day wage was being paid prior to April, 1910, will resume operations. The mines that will not come under the agreement lie south of the Baltimore and Ohio, employing 3000 men. A settlement of these mines will be taken up soon. The temporary agreement made tonight gives the miners a 5.55 per cent advance.

LONG-MISSING BOAT IS NOW REPORTED SAFE

ST. JOHN, N. F., May 3.—Nearly all the vessels of the sealing fleet have arrived in port, bringing to a close a successful season.

The steamer Aurora, which had been reported missing with 185 men aboard, has been reported off Cape Bona Vista, low down in the water, evidently from a good catch.

The season has been remarkably free from serious disaster to the fleet.

RETAIL MERCHANTS [illegible] THEIR VISIT TO SA[illegible]

"But we'll agree to it," [illegible] Conkling.

"Yes, you agree to it after [illegible] experts have had four months [illegible] to treat these organs as [illegible] replied Mr. Lucas.

Dr. Haines was still on the [illegible] court adjourned at noon.

MOTHER'S FRIEND

A LINIMENT FOR EXTERNAL USE.

Cheerfulness and a bright disposition during the months before baby comes, are among the greatest blessings a mother can bestow upon the little life about to begin. Her happiness and physical comfort will largely govern the proper development of the health and nature of the child. Mother's Friend contributes much to the mother's happiness and health by the relief and mental comfort it affords. It is a liniment composed of penetrating oils and medicines which lubricate the muscles and tendons of the body, soothe the swollen mammary glands, cause a gradual expansion of the skin and tissues, and aid in the relief of nausea. The regular use of Mother's Friend greatly lessens the pain and danger when baby comes, and assures a quick and natural recovery for the mother. Mother's Friend is sold at drug stores. Write for our free book, containing valuable information for expectant Mothers.
