UTAH CONGRESS OF IRRIGATION IS ORGANIZED

Sixty Delegates Meet at Commercial Club to Discuss Matters of Vital Importance to State's Future.

CONSERVATION OF WATER IS URGED

Permanent Organization to Be Effected at Fall Meeting Through Committee Selected Yesterday.

A statewide campaign of education on the subject of the proper use of water for irrigation was launched at a meeting at the Commercial club yesterday. The Utah Irrigation and Drainage congress, was formed, with its administration placed temporarily in the hands of an executive committee.

Resolution Adopted.

It is proposed that the committee appointed yesterday will work in conjunction with the Utah Conservation commission and the agricultural college.

Resolution Adopted.

Resolved, That an effort be made to finance demonstrators who can visit various sections of the state and show people how to measure water and keep records and the amounts applied and to advise them how much to use, obtaining for this purpose from the national, state and county governments, commissions or corporations and individuals the money for this purpose. To accomplish this purpose, be it

Purpose Explained.

At the beginning of the morning session, Mr. Cox explained the purposes of the meeting, a brief address of welcome to the delegates. He said there was great need of better knowledge of the state's water resources, to order to conserve the supply.

THE SUNDAY TRIBUNE

TOO PERFECT—For either marriage or divorce. What on earth will "Lovey" and "Dovey" Holbrook do? See what Mrs. "Dovey" Lean has to say about it in The Sunday Tribune.

SOCRATES—Exploits of the up-to-date sorcerers of Paris. Strange scientific experiments with dead hands, divining rods, prophetic trances, human radiations. Other trickery and quackery.

BARBARIC—Why women mustn't fight their savage tastes. Lady Duff-Gordon says the very thing that makes woman great is her savagery. She doesn't blame Kipling for his poem about "The female of the species." This philosophy, however, is not so terrible as it seems, for Lady Duff-Gordon is merely gossiping about the latest fashions.

SPEARMAN—The great stories by Spearman are attracting wide attention. The story for this week is "Conductor Pat Francis. How the Yellowstone Excursion Escaped Its Pursuer."

W. W. NAUGHTON—Writes how "expert opinion" of ring judges was completely upset by Kilbane.

Dundee featherweight battle, and throws new sidelights on the prowess and abilities of both fighters.

BILLY EVANS—Tales of the baseball diamond, humorous and otherwise, as recalled by a big league umpire.

W. J. MACRETH—Tells why New York Giants bid fair to repeat for the third time their victory in the National league pennant race, reviewing the strength of the clubs and naming the Chicago Cubs as the probable surprise of the season.

JACK BALLEE—Special article on the great Kentucky derby, to be run at Churchill Downs today, with interesting facts concerning the biggest turf event since the Empire state closing.

HEART COMICS—The best supplement of colored funny pictures in the world, with Mutt and Jeff, Silly Hat Harry and others of our old friends up to their old tricks.

NOGALES, Ariz., May 9.—Dieder Maason, aviator, and Thomas Dean, aeronautic mechanic, for whom warrants have been issued in connection with the war aeroplane hoax, are in Mexico. Wearing uniforms of the constitutional army, they took quarters today at a hotel in Nogales, Sonora.

At the labor temple last night it was said that the larger number of employers of structural iron workers had signed the new scale and that others were favorably inclined. There have been a number of conferences between iron workers and contractors, all of them of a character tending to bring about an understanding. Labor leaders also say that the sheet metal workers, who are also on strike, are making good progress at their conferences with contractors.

The building trade council yesterday called off the sympathetic strike at the combination electrical and plumbing establishments of Higley & Dudley and the shop is now on the "fair list" at labor headquarters. Seven or eight plumbers and steam fitters were called off the work in the Higley & Dudley shop because a non-union electrical worker was given employment there.

BREWERY WORKERS' STRIKE IS SETTLED

Men Resume Work Today; Compromise Agreement Reached.

The brewery workers' strike was settled at 11 o'clock last night and every man who has been out will return to work this morning. Approximately 250 men are affected.

The settlement is based on a compromise of the demands made by the men. Each side made concessions as the conferences progressed and last night a satisfactory settlement was reached.

Under the schedule of wages and conditions agreed upon the bottlers get an increase of \$1 a week; they asked for an advance of \$1.50. In the engineering department the hours have been reduced from twelve to ten hours, with a reduction in pay. Drivers will receive \$21.50 a week, the rate formerly paid to certain classes of drivers only. Formerly the men worked nine hours for four months and ten hours for eight months of the year. Under the new arrangement they will work nine hours for six months and ten hours for six months. This plan is governed by the rush of work in certain seasons. Overtime will be paid at the rate of 50 cents an hour instead of 40 cents, the former rate.

The best of feeling has prevailed on both sides throughout the period of suspension. Brewers and employees have consulted together in a spirit of fairness and each proposition, whether made by employers or employees, was given due consideration. The settlement of the dispute was scarcely ever in doubt, the only question being as to the length of time it would require to reach an agreement on the numerous technical points involved.

The outlook continues bright for a settlement of the electrical workers' strike and lockout. It was the expressed opinion last night that a few more days would see the end of the controversy.

Tour of Music Halls and Theaters in Europe and America Provided For.

Special Cable to The Tribune. LYMOUTH, May 9.—Evelyn Nesbit Thaw has abandoned, temporarily, at least, her ambition to become a sculptress and will return to the stage.

She has signed a contract with the Marbill agency to tour musical halls and vaudeville theaters of Europe and America. Her salary is given at \$5000 a week. She will make her first appearance within a few weeks at a London music hall.

When she embarked the Olympic today, Mrs. Thaw said that she was going direct to Paris to continue her study of sculpture for a short time and would then go to London to make her debut. With Mrs. Thaw was her two-year-old son, Russell, whom she affectionately calls "Pom-pom."

He was attended by a nurse. Not until the Olympic was four days out did the identity of Mrs. Thaw become known. Then the news quickly circulated that the slight young woman and her child were Evelyn Nesbit Thaw and "Pom-pom."

She became the center then of attraction and many endeavored to make her acquaintance. This so annoyed her that she remained in her state room and devoted her entire attention to her little son.

In speaking of her plans for the immediate future, Mrs. Thaw said: "I intend to return to the stage shortly, although I am not overjoyed at the thought. I really don't want to go back to it, but I must make a living somehow, and then I have my boy to support for a long time. The New York and London managers have been asking me to return to the stage for some time. They have held out promises of a large salary, and now it has come to the point where I must accept."

Some Noted Passengers. Among the passengers arriving on the Olympic were Sir Ernest Shackleton, who lectured on polar explorations on Thursday evening and told his audience that it was his last lecture on that subject.

Miss Alice Neilson, who has come over to sing various roles at Covent Garden this season; Lee Shubert, who came in search of new attractions for his theaters; George Dillingham and his bride, also looking for new plays, and Martin Beck were also among those to arrive. Mr. Beck declared that there would be no invasion of the English music hall field by American vaudeville managers, explaining that there was simply an international exchange of talent.

HENRY M. FLAGLER IS GROWING WEAKER

WEST PALM BEACH, Fla., May 8.—The condition of Henry M. Flagler, the southern hotel and restaurant magnate, who has been ill for several months, again is causing his friends considerable anxiety. Mr. Flagler, according to reports given out at his residence, has grown weaker in the last few days. His present illness was brought on by a serious fall several weeks ago. Friends and business associates have been summoned to his bedside. Physicians would not admit tonight, however, that Mr. Flagler's condition had become critical.

At the labor temple last night it was said that the larger number of employers of structural iron workers had signed the new scale and that others were favorably inclined. There have been a number of conferences between iron workers and contractors, all of them of a character tending to bring about an understanding. Labor leaders also say that the sheet metal workers, who are also on strike, are making good progress at their conferences with contractors.
