MINISTER ARRESTED ON SERIOUS CHARGE

Rev. D. P. Tate Alleged to Have Secured Fraudulently \$15,000 From Poorer Classes of Danville.

[Special to The Times-Dispatch.] Danville, Va., July 29.—Rev. D. P. Tate, a former prominent Methodist minister and real estate agent of this city, was arrested this afternoon in Knoxville, Tenn., on the complaint of the Danville police, on the charge of obtaining money under false pretenses. The news of his arrest produced a sensation here, as he had been actively engaged in both the ministry and real estate until about the middle of June, and nothing but sympathy is expressed for his family, which is quite large.

NOVEL METHOD OF ENDING LIFE

Negro Ties Halter About Neck, Then Gives Lash to Horse.

[Special to The Times-Dispatch.] Williamsburg, Va., July 29.—Albert Hawkins, colored, forty-five years of age, adopted a novel way of committing suicide, which proved entirely successful, when he tied the rope of his horse's halter about his neck, fastened the other end to the harness and struck the animal several blows with a buggy whip. Hawkins was dead when the horse dashed up to his house with the trailing body. Hawkins worked for Mr. Clement at Harpers Point, and is thought to have become suddenly insane. He was a hard-working negro, whose wife died a few years ago, leaving a number of small children.

BELIEVE CRISIS HAS BEEN PASSED

London, July 29.—The Moroccan crisis is practically ended. At least this is the opinion of the English public, although the Foreign Office is careful to point out that the negotiations are not simple and may drag on for months.

TREATIES ARE COMPLETED

Pacts of Peace Will Be Signed This Week. Washington, July 29.—The general arbitration treaty between the United States and Great Britain and the United States and France will be signed in Washington next week. An announcement to this effect was made today. After the signing of the treaty there will be a formal exchange between the governments concerned. Secretary of State Knox will sign the treaties for the United States.

PEONS DISSATISFIED

They Expected Greater Personal Benefits From Revolution. Washington, July 29.—The verbal reports that the ambassador to Mexico, Henry Lane Wilson, has made to the President and Secretary Knox regarding conditions in Mexico are on the whole said to be very encouraging. The ambassador found that a number of peons entertained exaggerated ideas as to the personal benefits they would realize from the revolution. It has been somewhat difficult for the provisional government to reconcile them to the fact that there cannot be a wholesale seizure of private lands and a division on agrarian principles among the populace.

Cardinals Defeated

The Giants defeated the Cardinals at Spring Hill diamond yesterday by the score of 6 to 1. Barrett and Schapiro were pitted against each other. It was a pitchers' battle up to the seventh frame, when a double and a single and a couple of errors by Kelly, at third, netted the Giants four runs. The features of the game were the battery work of both teams and a fast double play by King, Williams and Bowles. This game was played in one hour and fifteen minutes. It seems pretty good for amateurs. The Cardinals play the Stars at Byrd Park next Saturday, August 5.

Miscellaneous

St. Andrew's Victorious. The St. Andrew's ball team defeated the Recruits in a close game yesterday, by the score of 8 to 5. The features of the game were the batting of Timmons, who secured a home run in the sixth with the bases full, and the six scattered hits and struck out ten men. A Fitzhugh featured behind the bat for the Recruits.

(Continued From First Page.)

Whirlwind Tour of Continent. Mr. and Mrs. J. Harrington Walker, of Detroit, have been prominent among Americans in Europe this summer. They made a whirlwind tour of the Continent, attended all the coronation festivities, and then went to Cologne, where they joined Mr. Walker's niece, the Countess Manfred von Matuschka.

At Cologne the Walkers have three children—a son, Caldwell; a pretty daughter of sixteen and another attractive child of eight.

The entire party traveled down the Rhine with the Matuschkas, landed at Wiesbaden and motored through Saxony to Dresden, where the party was feted on all sides. Thence their progress was marked by constant entertainments for the Matuschkas are great personages.

When the Matuschkas' family seat, Schloss Brechan, in Silesia, was reached the Walkers ended their tour. They intend to remain there a few weeks.

VISI TO RADIUM INSTITUTE. Queen Alexandra Greatly Interested in Recent Invention. [Special Cable to The Times-Dispatch.] London, July 29.—Queen Alexandra, with

and organisms by the medical superintendent, Hayward Finch, and the director of the chemical laboratory, W. L. Alton.

An inspection was first made of the consulting-rooms, which are equipped with all instruments for diagnosis and cubicles in which the treatment is applied. The royal visitors were then taken over the pathological laboratory, where the effects of rad-

dium on bacteria were demonstrated, and some new forms of microscopes—instruments for cutting microscopic sections—were shown. The chemical laboratory, the photographic studio and the dark-room were also visited. Their majesties were deeply interested in all they saw, and frequently expressed their pleasure the experiments gave them.
