CONGRESSIONAL.

Senator Hale announced in the Senate yesterday that he expected to be able to report agreements from the conference committees of the two Houses on all pending appropriation bills before the close of yesterday. He added that if no other business interfered with the plans of Congress an adjournment of the session could be had on Saturday.

The Senate passed a resolution by Senator Borah, directing the Department of Commerce and Labor to make an investigation and report to the next session of Congress on the conditions of labor in the iron and steel industries of the United States.

Senator Scott submitted the conference report on the omnibus public building bill, carrying authorizations for approximately \$25,000,000 for public buildings throughout the country. The report was agreed to.

The Senate considered the bill creating the White Mountain and Appalachian forest reserve during most of the session, with a filibuster against it. The Senate took a recess at 7:05 p. m. until 10 o'clock this morning.

By a vote of 139 to 130 the House receded from its position and adopted the Senate paragraph in the sundry civil bill which eliminated the Hughes amendment providing for the exemption of labor unions from the operation of the Sherman anti-trust law.

Congress is pledged to spend \$3,600,000 at the rate of \$500,000 a year for the purchase of land to be added to the Capitol grounds by an agreement of the Senate and House conferees.

The Senate amendments to the campaign publicity bill were agreed to. The Senate amendments to the irrigation bond issue bill were disagreed to.

A disagreement on the appropriation for structural tests sent the sundry civil bill back to conference. The House recessed at 5:30 p. m. to meet at 10 a. m. today.

TAFT AND LABOR UNIONS.

The following is president Taft's letter to W. S. Carter, president of the Brotherhood of Locomotive Firemen and Enginemen:

Your dispatch of June 22 received in which you say that press reports today indicate that I favor using the people's money to prosecute labor in their efforts to better their conditions, and you protest against such a policy.

I presume you refer to the proposition now before Congress that money appropriated for fiscal year 1911 for enforcement of anti-trust laws and acts to regulate commerce shall not part of it be expended in the prosecution of conspiracies in the nature of boycotts to increase wages, shorten hours or better the condition of labor.

The Supreme Court has decided that such a boycott is a violation of the Sherman anti-trust law, and this proposal is an attempt to withhold the means of prosecuting that law when it is violated by a particular class thus to be made privileged.

I am entirely opposed to such class legislation. If it were proposed to amend the language of the Sherman anti-trust law itself so as somewhat to narrow its scope, that would present a proper question for consideration, but so long as the present anti-trust law remains upon the statute books an attempt to modify its enforcement so as to render immune any particular class of citizens, rich or poor, employers or employees, is improper legislation and in my judgment ought to be opposed by your brotherhood.

The laboring man and the trade unionist, if I understand him, asks only equality before the law. Class legislation and unequal privileges, though expressly in his favor, will in the end work no benefit to him or to society.

Preacher Causes a Sensation.

Portsmouth, Va., June 24.—"Society women who play bridge and other games of cards for money prizes are in the same class with negro craps-shooters," declared Rev. Lew G. Broughton, in a sermon at the Atlantic Baptist Encampment at Virginia Beach today. His comparison caused a sensation and for a time threatened to break up the services, a number of the leading members of the congregation leaving the auditorium as a protest.

Commissioner of Light Houses.

Washington, June 24.—The first step in the actual reorganization of the Light-house Bureau recommended by Secretary Nagel of the Department of Commerce and Labor, was taken today when President Taft appointed George R. Putnam, formerly an assistant in the Coast and Geodetic Survey, to the post of Commissioner of Light Houses. Arthur B. Conover, of New Jersey, formerly Superintendent of the 3rd District of Light-houses, was appointed Deputy Commissioner. Putnam is a friend of the President's, having been in charge of the organization of a lighthouse service in the Philippines during the incumbency of Taft as Governor General of the Islands.

Mayor Stoy, of Atlantic City, has issued imperative orders for the arrest of "posers" rigged out in close-fitting jerseys from the beach.

WHY TAFT IS ELATED.

In a signed statement in the Cincinnati Times-Star President Taft is quoted as follows: "Washington, June 23.—I am elated at the legislation which has been enacted by this Congress. It has fulfilled the pledges of the party. It is a great satisfaction to me that we have accomplished so much. It has been the custom in the past to try to fulfill party pledges during the term of the president elected; we have secured what we set out to get during the first regular session of Congress.

"We now have the best railroad regulation law we ever had. The provisions for the supervision of capitalization were omitted, but this does not mean that they have been abandoned. Renewed effort to enact them will be made at the next session.

"I think the party in power has enacted legislation which will inure greatly to its benefit. It has kept its coning the White Mountain and Appalachian forest reserve during most of the session, with a filibuster against it. The Senate took a recess at 7:05 p. m. until 10 o'clock this morning.
