Turn the key! and your Buick is Double Locked

No lock could be safer! One turn of the key locks both ignition and steering wheel. But merely turning off the ignition does not lock the wheel. You may shut off the engine and coast, if you like, and still have your car under perfect control.

And no lock could be more convenient! It is illuminated and located within easy reach, where the steering column meets the dash.

The Buick double-lock is an exclusive Buick feature—one of many important refinements which characterize Buick for 1928.

Sedans . . . \$1195 to \$1995
Coupes . . . \$1195 to \$1850
Sport Models \$1195 to \$1525

All prices f. o. b. Flint, Mich., government tax to be added. The G. M. A. C. financing plan, the most desirable, is available.

Pure Food and Drink FOR Young and Old

THEY'RE both food and drink--these tempting bottled beverages!

Scientists say the sugar in these wholesome drinks becomes, by chemical action what they term "invert sugar," which provides vital energy for work or play

And you know, of course, that the health-insuring process of carbonation prevents lurking germs and makes these drinks purer than water from a sparkling mountain stream.

REAL FOOD IN BOTTLED CARBONATED BEVERAGES

Dr. W. W. Skinner, of the U. S. Bureau of Chemistry, says: "Bottled carbonated beverages contain more actual food value than many fruits and vegetables of the same weight."
