Good cooking made easy!
Good cooking depends as much on the range as on your skill. A cheap range or worn out stove makes cooking results uncertain and often spoils your best efforts. The

Great Majestic Malleable and Charcoal Iron Range.
makes good cooking easy and sure. Made of charcoal and malleable iron; it stands fast and wear three times as long as ranges made of ordinary range metals. Put together with cold-rolled steel that keeps the joints absolutely tight always (no putty used.) Lined with extra heavy pure asbestos that holds in the heat and reflects it onto oven. Scientifically designed to maintain uniform temperature with least use of fuel; and so circulate heat evenly to all parts of oven. You never have to "turn the baking" in a Majestic.
The cost of a Majestic, in service, is less than that of any ordinary range. The fuel, repairs and the work it saves and the years longer that it lasts more than offset the little extra it costs. The health and happiness of your whole family are affected by the range you buy. Investigate thoroughly. Come to our store and see the Majestic—don't buy any range until you know Majestic advantages.

This extra weight represents extra rubber and fabric, which means extra service.
