Everybody's Favorite

The Favorite Ranges

Do their work better than any other line of ranges

They do it with less fuel.

They require so little care and attention that they save about one-quarter of the time usually spent in the kitchen. And that eliminates all the disagreeable hard work necessary with a common range.

If you buy a Favorite Range, you will be assured of perfect satisfaction for unlimited years—at a fuel cost so low that the range will pay back its own cost many times over.

If you have any regard for money—if you can't afford to throw it away—you can't afford to buy or use any range but a Favorite.
