

YOUR FALL COUGH

is very liable to be an all winter cough unless you at once change the condition that causes it. There are a great many remedies that will stop a cough, but unless they stop it in the right way they should be avoided.

Our White Pine & Tar Cough Syrup

is the only one we know of that quickly removes the cause of a cough. One bottle is generally all that's necessary. Sometimes less will do it. Money back if the remedy fails.

Parent Teacher's Association

The Parent Teacher's Association will meet at 3:30 p. m. Wednesday (today). We are all busy parents especially at this time, but certainly we can spend no time for a better purpose than to discuss the welfare of our children with those to whom we intrust them the greater part of the day.

With conditions at the school, crowded as they are, it is impossible for the teachers to visit all the homes of their children, so can't we make the effort for at least one hour each month to visit them and discuss with them the problems that confront us as a community which are vital ones to our children.

The proper school spirit cannot exist without the co-operation of the home. It is our children who suffer for our negligence in these matters. The inspiration and encouragement that comes to the teacher when she has the opportunity of conversing with the mothers of her children who are intrusted in their moral and spiritual development as well as mental, is reward enough surely for the effort made. The teachers are anxious to co-operate and willingly give their time to attend the meetings and it should be considered a privilege to meet at those times to strengthen our hopes and ideals for our children.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated to-morrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—adv.
