## No trouble with this Range

You know you are having cooking troubles with that old range of yours. You have to worry and fuss over it three times every day. It tires you out, wastes your money, and gives you poorly baked, unpalatable foods.

Why put up with it? Why not place this Favorite Range in your home at once? It will do the best baking you ever saw with the minimum amount of fuel, and no worry whatever on your part.

The oven in the Favorite is heated absolutely uniform.

Years of experience have taught the makers how to distribute heat evenly to all points of the oven. The top of the oven is never hotter than the bottom; one side is never hotter than the other side.

This Favorite Range is air-tight. It will stay air-tight always. Call and see this Favorite. You will agree with us that you have never seen a handsomer range, or, after using it, a better one.
