BRISTOL, VIRGINIA

# The Most Welcome Tire That Ever Came to Market

Men Who Appreciate Superlative Values Prefer The Brunswick

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line it entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skimping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

among them has spent less than 20 years in handling rubber.

Each is a master of his craft. And the new ideas they bring to the attention of Brunswick directors receive sincere consideration. Every proved betterment is adopted unopposedly.

The Brunswick Tire is a combination of acknowledged features—plus Brunswick standards of manufacture.

The result is a super-tire, the like of which you have never known before. The kind of a tire you will gladly join in welcoming.

Yet Brunswicks cost no more than like-type tires.

Try ONE Brunswick. We promise a surprise. And we feel certain that you will want ALL Brunswicks.

Then good tires will have a new meaning to you.
