

A big-scale road test on 3,200 tubes

How Firestone puts the miles in — and then proves it — not at YOUR expense.

No other tubes in the world are road tested on so big a scale as Firestones. The Yellow Cab Company of Chicago uses Firestone Tubes exclusively on its 800 taxi cabs. The service of these tubes is checked constantly — improvements and developments are arrived at.

By close watching of a large number of tubes in service — not confined to isolated instances, the conclusions are accurate and definite.

Firestone puts the best in materials into tubes by establishing purchasing experts at Singapore, center of the world's rubber market. Firestone puts the best in workmanship into tubes by organizing the crack manufacturing organization of the industry on a profit-sharing basis.

And then subjects the finished product to this big-scale road test — in order to get you more for your tube money and more miles out of your tires. And yet Firestone Tubes cost no more than the ordinary kind.

Firestone Tubes

FOR more tire mileage, more miles to a gallon of gasoline, greater riding comfort and for the best possible tire investment

Next Time—BUY FISK

These tires are built to this ideal:

"To be the best concern in the world to work for and the squarest concern in existence to do business with."

FISK CORD TIRES

INADEQUATE FACILITIES

Owing to adequate dormitory facilities the Normal School at Radford was not able to accommodate all of the students making application for admission to the first term of the summer quarter.

Telegrams and letters were

sent to more than 200 applicants informing them that the school could not provide for them the first term opening June 14th and advising them to enter the second term opening July 26.

All the courses offered during the first term will be offered during the second term. Here-

before the review courses for first and second grade certificates have been offered in the various state institutions only during the first term of the summer quarter.

There has been a marked shortage of teachers not only in Virginia but throughout the nation for the last few years. This shortage continues. The Normal

School at Radford in co-operation with the state educational authorities is seeking to overcome this shortage and is making every effort possible to assist prospective teachers for the next session of the public schools.

Teachers wishing to attend the second term of the summer quarter opening July 26 are advised to make early application for rooms.

Treasury Department—Office of Comptroller of the Currency.

Washington, D. C., June 25, 1920.

Whereas, by satisfactory evidence presented to the undersigned, it has been made to appear that "The First National Bank of Big Stone Gap," in the town of Big Stone Gap, in the county of Wise and state of Virginia, has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking;

Now therefore, I, John Skelton Williams, Comptroller of the Currency, do hereby certify that "The First National Bank of Big Stone Gap," in the town of Big Stone Gap, in the county of Wise and state of Virginia, is authorized to commence the business of banking as provided in section fifty one hundred and sixty nine of the Revised Statutes of the United States.

Conversion of The Interstate Finance and Trust Company, Big Stone Gap, Virginia.

In testimony whereof witness my hand and seal of office this 25th day of June, 1920.

JOHN SKELTON WILLIAMS,
Comptroller of the Currency,
adv26-33

It is no longer considered hazardous to buy a pig in a poke. If the poke is made of cotton it is more valuable than the pig.

Good Typhoid Record

Aggregate for the First Five Months 240 Against 297 in 1919 and 415 in 1918.

Richmond, Va., July 9.—The cool spring and the consequent delay in the state's fly crop has had a marked influence on the incidence of typhoid fever as shown by statistics gathered by the State Department of Health.

For the first five months of 1920 the aggregate number of reported cases of this disease has been 240 against 297 for the corresponding period of 1919 and 415 for the first five months of 1918.

While the early months of 1919 showed a very considerable reduction from the 1918 figures, typhoid fever hung on with greater persistence during the year with the result that there was a total of 2,464 reported cases in the state in 1919 against 2,131 for the preceding year.

February and March, 1920, were banner months in typhoid reduction, there having been but 18 cases of the disease reported in the former and 26 in the latter month.

The State Board of Health urges constant warfare on the fly, careful screening of the home to prevent flies from reaching food or drink for human consumption, sanitary disposal of all human excreta, which means that such disposition shall be made thereof that access thereto may not be gained by insects, animals or fowl and that there shall be no possibility of its polluting any water supply. These precautions will not only check the typhoid menace but will dissipate the forces of other filth borne diseases including those intestinal parasites which sap the strength and impair the health of untold thousands of boys and girls in the south.

When one candidate begins to take the lead the others join forces in an attempt to shove him off the mat. And when he has been properly squelched they continue their pleasant pastime of cutting each other's political throats. It's a great game.

A man can always dictate to his typewriter, but seldom to his wife.

ORDER OF PUBLICATION

VIRGINIA.—In the Clerk's office of the Circuit Court of Wise county, the 11th day of June, 1920.

Big Stone Gap Land Company,

vs.

Eliza Hurd, et al, Defendants.

IN CHANCERY.

The object of the foregoing suit is to enforce a certain vendor's lien retained in deed from the Big Stone Gap Land Company to Huston Hurd, dated March 6th, 1916, on Lot 3, Block 113, Plat 3, Big Stone Gap, Virginia, said lien being for the sum of \$80.00, with interest thereon from said 6th day of March, 1916, until paid.

And it appearing from affidavit on file in said office that one of the defendants, George Hurd, is a non-resident of the state of Virginia; it is ordered that he appear here within fifteen days after due publication of this order and do what is necessary to protect his interest in this suit.

It is further ordered that a copy hereof be published once a week for four successive weeks in the Big Stone Gap Post, and that a copy be posted at the front door of the Court House of Wise county, as required by law.

ORDER OF PUBLICATION

VIRGINIA.—In the Clerk's office of the Circuit Court of Wise county the 11th day of June, 1920.

M. S. Carpenter, Plaintiff,

vs.

Hannah H. Miller alias Hannah H. Carpenter, Defendant.

ATTACHMENT.

The object of this suit is to recover of the defendant the sum of One Hundred and Twenty-five (\$125.00) Dollars, with interest from the day of

19 , and to attach the estate of the said defendant and subject the same to the payment of plaintiff's debt. And attach-

ment having been returned executed on the estate of the defendant, and an affidavit having been made and filed that said defendant is a non-resident of the state of Virginia, and that her last known post office address is Poor Fork, Ky., it is ordered that the said defendant, Hannah H. Miller, alias Hannah H. Carpenter, appear here within ten days after due publication of this order and do what is necessary to protect her interests in this case. And it is further ordered that a copy of this order be published once a week for four successive weeks in the Big Stone Gap Post and that a copy of same be posted at the front door of the Court House of Wise county, as prescribed by law, and a copy of same be mailed to the defendant at Poor Fork, Ky.
