Every Desirable Tool for the Garden

They make work easy.

They make work a pleasure.

They make work profitable.

They are inexpensive.

They are in great demand.

Give a thought to the comfort of your wife during the hot months ahead of her. Kitchen work is necessary, but it can be made more pleasant for her by eliminating much of the surplus heat. Buy a gas or oil burner. They are inexpensive, and she can accomplish wonders with one. Kitchens are hot places at best, and too much heat saps the vitality of life.
