FOOD

FEDERAL FOOD ADMINISTRATION FOR VIRGINIA.

MR. HOOVER'S MESSAGE TO THE AMERICAN PEOPLE.

UNITED STATES FOOD ADMINISTRATION, WASHINGTON, D. C.

To All Who Have Cooperated in the Work of the United States Food Administration:

Again in full confidence, I call upon the American people to set aside Sunday, December first, and the week following, for the consideration of America's opportunity for renewed service and sacrifice.

Last summer, when the military situation was acute, we assured the International Food Conference in London that whatever the war-food program of the Allies required we were prepared to meet; that the Conference need not consider whether or not we had the supplies—we were prepared to find them; we pledged ourselves, by the voluntary economy of our people, to have the reserves in food to supply all necessities.

The President of the United States has asked me to take charge for this Government of this work; to perfect and enlarge the arrangements for food-stuffs to the populations of Belgium and France now being released, and to organize and determine the need of provision to the liberated people of Southern Europe to prevent such debacle as has taken place in Russia.

The determining factor for the success of such an enlarged appeal will be the vivid consciousness in every individual in each community of obligation and opportunity. It is that common recognition of obligation that we bow wish to create.

The American people, in this most critical period of their history, have the opportunity to demonstrate not only their ability to assist in establishing peace on earth, but also their consecration, by self-denial, to the cause of suffering humanity.
