FROM AN OLD FRIEND.

Bennettsville, S. C., Dec. 7 1918.

Clinch Valley News.

My dear Sir:

It has been a long while since I have written to any one in Tazewell, and rarely do I have a scrap of news from there.

You may be sure I often think of Tazewell, and of my old friends and acquaintances there, and with an exceeding longing to again climb the slopes of its surrounding hills and mountains and once again talk with the many I knew there, and while I sincerely trust I may yet be permitted to do the former, I know in the latter case it will not be possible in many instances because not a few of these whom I consider and think of

at present as in the flesh are numbered with the dead.

I know that many of the boys I knew are numbered in the host that our Uncle Sam sent over-seas in the great war that has just come to a successful end, but just what boys were among the number I do not know, or what befell them, and that I may learn more of the details will you kindly send me the Clinch Valley News for such terms as enclosed check for \$2.00 will pay for.

Will be glad to have a letter from you, if you care to take the trouble, telling me something of Judge Coulling, S. M. Graham, Jack May, or any others and such things of interest as you may care to mention.

Yours truly,

E. V. SPOTTS.

NOTICE

One chief source of road deterioration is the tendency of traffic to follow a constant line of travel, which wears and depresses the road crown along this line of continuous use. The entire road surface, including the shoulders, at least in dry weather, should be used with the view of avoiding as much as possible this objectionable propensity. Thus will our roads wear evenly, prevent to great extent the inclination to drop in holes or ruts, which obstruct proper drainage and cause water to soak into the road, greatly to its injury. We are all aware how important and expensive a feature is the maintenance of our good roads; let us apply willingly, therefore, since it is to our interest, if for no other reason, one of the remedies for their economical use.

Respectfully,

G. A. MARTIN,

County Road Engineer.

TURKEYS

WANTED FOR CHRISTMAS AND NEW YEAR'S

We are happy indeed to announce to our customers that we have had the greatest Thanksgiving in the history of our business experience. As we predicted, our prices were better than we even anticipated, ranging from 40 to 45c per lb. for fancy stock, some turkeys running even higher than this, but thin, scantily dressed poultry somewhat lower. We are absolutely safe in saying that no poultry house in Philadelphia had better prices and only a few, if any, had as high prices. Our customers were very highly pleased with their returns, which they made sure of realizing by using
