ANOTHER FLAT STOCK MARKET

Yesterday's Upward Spurt Caused by Covering of Shorts.

THE MONEY MARKET WAS EASIER

In Consequence of the Treasury Announcement of Intention to Anticipate the Year's Interest—Rates for Call Fell to 3 Per Cent.

NEW YORK, Oct. 11.—The stock market fell flat again to-day. The dulness made it evident that yesterday's upward spurt was due almost entirely to covering by shorts, who to-day were inclined to regret their precipitation. The London market seemed to feel rather encouraged over the termination of the uncertainty, and operators there inclined to bid up the prices of some of the American stocks in sympathy with the advance of the Kaffir stocks. The rise was short-lived on this side, and dragging tendency of prices was not much changed at any time until the close of the market at prices below last night's level all around.

The money market was easier. The causes of this were quite apparent from the action of the Treasury Department in oering to anticipate the Government interest payments for the remainder of the fiscal year. For one thing, the sub-Treasury figured at the clearing-house again to-day as a debtor for over a million. Government disbursements are running quite heavy, due in large part to pension payments. There was a sum of gold received from Havana to-day on account of the postal revenue, and a small additional shipment of French gold was received.

The rate for call money ruled for the greater amount of loans at 7 to 8 per cent., and fell to 3 per cent. in the late dealings. Money continues to go out to the interior in large volume. Not so cheerful a view was taken of the effect of the Treasury Department's action with regard to anticipated interest. Under the terms of the department order, the amount of interest to be paid out this week is only about $1,000,000, and that not until Friday. Of course only part of it is payable in New York, and precedent shows that a small part of the holders are likely to present their claims on that day. The next disbursement comes on October 234. The requirement for the presentation of registered bonds for indorsement before payment is made is also expected to operate against a general acceptance of the interest. The action of the Treasury Department, nevertheless, has had the effect of allaying apprehension in Wall street, but it is perceived that whatever relief is afforded is not likely to furnish a supply of surplus funds for the benefit of stock speculators.

The business in bonds was very well distributed, and the tendency of prices was downward. Total sales, par value, $2,085,000. United States new 4's coupon advanced ¾ and do. registered ¾ in the bid price.

The total sales of stocks to-day were 289,700 shares, including Atchison preferred, 13,450; Chicago, Burlington and Quincy, 9,504; C., C., C. and St. Louis, 6,500; Louisville and Nashville, 12,500; St. Paul, 8,600; Southern Pacific, 16,774; American Tobacco, 12,750; Brooklyn Rapid Transit, 37,165; Federal Steel, 11,-015; Sugar, 28,697.

MONEY AND EXCHANGE.—Money on call easy at 3@8 per cent.; last loan at 3 per cent.; prime mercantile paper, 5½@6 per cent. Sterling exchange firm, with actual business in bankers' bills at $4.89¼@4.89⅝ for demand and at $4.82¼@4.82½ for sixty days; posted rates, $4.83 and $4.87@4.87½; commercial bills, $4.81. Silver certificates, 58@59; bar silver, 58½; Mexican dollars, 47. Government bonds strong; State bonds weak; railroad bonds weak.

COTTON MARKETS.

NEW YORK, Oct. 11.—COTTON—The price of cotton reached a much lower level in the market this morning, but subsequently rallied, and closed within 5 points of last night's figures. Considering the action of our market yesterday, the tone to-day showed weakness variously ascribed to weak cables. One report had it that Nell's crop circular and the war outlook in the Transvaal had forced holders to unload, and induced general short selling abroad. Another source claimed leading bears on this side had sent over large selling orders, and these, combined with heavy pressure from the bear circles in Liverpool, had brought about the heavy decline. Our market opened 6 to 8 points under last night, and continued to decline most of the forenoon, January at one time selling at 6.91 and May at 7.05. Shorts attacked the market vigorously, and enormous amounts of long stuff were forced overboard by the outside public, and even a number of room bulls sold out a goodly portion of their holdings. For a while excitement was at fever heat, and nobody seemed to have the faintest idea as to where the selling movement would carry prices. Shortly after midday, however, there was a marked change, and prices were soon rapidly advancing, January reaching 7.04. Supposed by official estimates for another light receipt at the ports to-morrow, and a batch of bullish crop and other information from the cotton belt, the market stubbornly resisted further pressure. A number of staunch outside commission merchants sent in a number of large buying orders, with the result that the shorts were soon scrambling to cover. At the close the market was steady, with prices 1 point higher to 5 net lower.

WHEAT—Spot strong; No. 2 red, 77½c. f. o. b. Options opened firm at an advance of ¾c. on higher grain cables and a more warlike look to the South African situation as indicated by a decline in consols and private advices. The early firmness was increased by the acceptance of most of the offers to the United Kingdom, but later the foreign bids for cash wheat were out of line, and the market for futures eased partially off under local liquidation. Subsequently an active demand developed on war news and rumors of heavy export purchases in the West. Closed strong at ⅞@1c. advance. March closed at 80¾c.; May closed at 80½c.; December closed at 77½c.

CORN—Spot strong; No. 2, 41¼c. Options opened firm at an advance of ¾c., and ruled very steady, with a large spot demand, supporting the future list. Speculation, however, was slack. Closed strong at ⅝@⅞c. net advance. May closed at 38¼c.; December closed at 39¼c.

COTTON BY STEAM—To Liverpool, 2⅜d. asked.

COFFEE—Options opened steady at an advance of 5 to 10 points on general buying, led by shorts. This support was founded almost entirely on bullish reports from Brazilian and European markets, smaller receipts than anticipated, continued large warehouse delivery, and evidences of growing interest on the part of the spot buyers. Trading quite active, with investment buying a feature. Profit-taking caused a partial reaction near the close, started by ½ francs loss in Havre; closed barely 10 points higher; total sales, 14,500 bags, including October, $4.45; December, $4.50. Spot—Rio firm; No. 7 invoice, 5 13-16c.; No. 7 jobbing, 6 5-16c.; mild firm; Cordova, 6⅝@11¾c.; sales, 2,000 bags; Rio 7's on basis of above figures; also, large jobbing trade.

SUGAR—Raw nominal and unsettled. Refined quiet:

CHICAGO MARKET.

CHICAGO, Oct. 11.—War news primarily and enormous export engagements incidentally made wheat a strong market to-day, and resulted in an advance of ⅞@1c. in the leading future. Corn was even stronger, advancing 1c. for December and ⅞c. for May, wheat influence and heavy export engagements prevailing. Oats closed ⅝@¾c. higher. Provisions were heavy, and closed with slight declines for lard and ribs, but unchanged for pork.

NEW YORK-RIVER STEAMER.

Splendid Ship Launched With Impressive Ceremonies.

The Augusta, the new ship built for the Baltimore, Chesapeake and Richmond Steamboat Company, was launched from the ways at Neafie & Levy's shipyard, in Philadelphia, a few days ago. The launching was a perfect success in every respect, not a hitch occurring in the general arrangements.

Miss Jane H. Andrews, of Raleigh, N. C., who christened the Augusta, is the daughter of Colonel A. B. Andrews, first vice-president of the Southern Railway, who, with Mrs. Andrews and son, were present at the launching.

The Augusta is being built to run between Baltimore, Old Point Comfort and Norfolk, Va., or to West Point, Va. Her length over all is 260 feet; beam at water line, 42 feet; on main deck, 46 feet; depth moulded, 17 feet. She is built of steel to the saloon deck. The main saloon will be handsomely finished in mahogany; the dining-room, situated in the forward end of the main saloon, also in mahogany. The staterooms will be seventy-five in number, all having windows outside. The smoking-room will be in quartered oak. The machinery will consist of inverted triple-expansion engine, cylinders 27x40x68 inches in diameter, by 42 inches stroke; four Scotch boilers, each having three corrugated furnaces. She will also have a complete electric plant, 450 incandescent lights, a 45 annere searchlight, steam steering gear, etc.

Attending the launch, by the courtesy of Mr. Reuben Foster, general manager of the York River Line, was quite a large party of Baltimoreans, who went over to Philadelphia in a special car attached to the 10:20 A. M. train from Union Station.

At a delightful lunch served before the launch, Miss Andrews, the sponsor, was presented with a handsome bunch of American beauty roses.

The York River Line has grown, since 1865, from two small side-wheel steamers of 150 tons each to a fine fleet of five steamers averaging seven hundred tons each, and from a business of thousands of dollars to millions of dollars per annum.

Should the Augusta be put on the line between Baltimore and Norfolk
