FRIDAY, JULY 21, 1899.

RICHMOND.

The assessors of New York returned property values of \$8,137,000,000, but the owners swear they made a mistake of \$7,531,000,000.

Reckefeller, said to be worth \$200,000,000, is sworn to be worth \$500,000,000. W. B. Vanderbilt's \$125,000,000 shrinks to \$40,000,000 in presence of the tax gatherer.

The City Council of Atlanta has decided that preaching on the streets was not a nuisance. What fool ever said it was? "Cuss," "chaw" and spit, talk politics and criticize your neighbors, but don't go into all the world with the Gospel message?

Keely's perpetual motion apparatus has been converted in junk. "See transit gloria mundi."

It did make me feel moist about the mouth to read of those Pennsylvania cherries "four of which make a mess and ten a good-sized pie."

Some of the Washington correspondents of certain papers continue to write of the decline of the free silver "crisis," while Col. Bryan, in his triumphal tour through the country, continues to say that the platform of '96 will be adopted in its entirety with such additions as changed conditions make necessary.

The Richmond Times, in a recent issue gave to its readers the presidential ticket when Harrison and Tyler were the candidates. Hon. H. E. Watkins, of this county, the grand-father of Judge A. D. Watkins, was one of the electors.

Some crazy newspaper writer says we must drop the Col. from the name of Wm. Jennings Bryan. Why? Wasn't he duly and regularly commissioned? and didn't he go just where he was ordered to go, and do just what he was ordered to do?

Some one writing to the Richmond Times reminds us that in the olden days watermelons got ripe in Hanover as early as the 23rd of June. That beats us. And then, the Hanover variety is superior. We have heard the old darkey diving up Franklin street, say so in this wise: "Come ladies and gentlemen, buy dese melons, Fresh and fine, Just off de vine, It is very sweet, Fit for white folks to eat."

Business, in its rush does many cruel things. The "woodman" would not "spare that tree," nor will the tide of progress spare the Exchange and Ballard. "Farewell, a long farewell," to all their greatness.

Out of the New York Herald's Sunday sermon, of recent date we get this: "Imagine no evil, and thereby diminish evil. If there is sweetness anywhere, find it as the honey bee does. Be a friend to the world, do a kindness whenever opportunity offers, be quiet, calm, self possessed and self controlled and then you will discover the very essence of Christianity."

The Virginia editors have enjoyed their annual outing and are at their desks again ready to extend a cordial greeting to new subscribers and advertisers. Now that they have commended together again they flatter themselves that they are prepared to render better service to the public.

Are the overflow gatherings of religious bodies of service to the cause of religion? We hope so, and yet we have our doubts. Excitement runs very high, the nervous strain must be intense, the physical demands are exacting and the mental wear and tear is great.

It does look as though the street car system of the country would become involved in one universal strike. The only comfort we can offer our friends in the city, is found in the fact that the nickels may be converted into a soda water fund, and a watermelon combine.

Japan has recently entered into new treaty relations with the leading nations of earth, and now occupies a seat at the "first table." Neither Uncle Sam nor John Bull shot her into this improved condition, either.

It is said that Col. Waterson can actually find standing room on the platform adopted by the Democrats of Kentucky. We do not know that more is necessary. Man and wife differ on some things and yet agree to live and love together. It ought to be so with Democrats. They agree on too much of vital interest to be kicking at each other as to minor matters. Together now and in 1900 and they are invincible.

The Baltimore Sun well says: "It is too late to attempt to bully or bulldoze the South. The people of that section can and will manage their own affairs without help from Boston." And this is quite generally admitted the country over. It will become universal by and by.

Look out for the "Strangling Bug," the newest importation from foreign shores. These new neighbors of ours from across the seas, are expressing their gratitude in many practical ways.

The balling of W. G. Pilkinton will not be a matter of surprise. The testimony clearly makes out a case of self-defense, as unfortunate as the whole affair is. Without additional facts the Commonwealth will not ask for conviction.

Thousands Have Kidney Trouble and Don't Know It. There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease.

It was for just such troubles that in his infinite power and goodness the Great Physician caused Swamp Root to grow for the benefit of suffering mankind, leaving it to His servant, Dr. Kilmer, the great kidney and bladder specialist to discover it and make it known to the world.

He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrating me and rendering me unfit for my duties at this hotel."

"During the hot weather last summer I had a severe attack of cholera morbus, necessitating my leaving my business," says Mr. C. A. Hare, of Hare Bros., Cincinnati, Ohio.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy.

THE HERALD does not solicit advertisements to be inserted among its local news matter, and would prefer that advertisers use the other columns of the paper.
