"THEY WANT THE EARTH."

We mean the money kings whose cry is still for more. The last report from their centre of operations is to the effect that all passenger traffic east of the Mississippi has been absorbed by one management, and that vast changes as to time tables, agents, etc., are to be made.

Faithful picture of the only Democratic (?) paper published in Virginia!! Perhaps our friends who see so much "prosperity" of the McKinley order...

Wm. Jennings Bryan stirred Baltimore to its depths on last Saturday evening. The Academy of Music was crowded to its fullest capacity, and the eloquent advocate of the people's rights...

Mr. Bryan has been invited to address the members of the legislature and will no doubt accept the invitation.

That a big battle has been raging between Boers and British is no doubt true, but particulars are not known, nor results.

It is said that the late Mr. Moody raised \$8,000,000 for church work, and yet died a poor man. "Of such is the Kingdom of Heaven."

Let the United States do as it may as for Suffolk, our sister near the sea it will not expand or become imperialistic.

Senator Martin is spoken of as the coming chairman of the National Democratic Committee, and Congressman Epeas as member of the Congressional Committee.

Carrying pistols in Kentucky ought to be made a felony. The blood-blot on the blue grass State should be wiped out.

The legislature has been asked to appropriate \$500 to aid in caring for the graves of confederates buried in Hollywood. The tax payers will not complain of the additional burden.

The president of a New York Democratic Club gave Mr. Bryan a dinner on his recent visit to that city, and had 13 at the table. Maybe he isn't superstitious, or maybe he don't want Mr. Bryan to win.

Gen. Wheeler made mistake in going to the Philippine. His country didn't need him then and until such time comes let the old fighter rest on his laurels, and enjoy a leisure he has so richly won.

Mr. Swanson was allowed nearly \$4,000 for contest expenses. This whole subject of allowing such expenses is all wrong. Many defeated men make contest for the money there is in it.

A crusty old bachelor, of New York city, invoked the law to quell the yelling of a baby, but the law failed to give him relief, and the baby can keep on yelling to its full capacity and to the horror of the bachelor brute.

Instead of using sharp words on each other, what's the matter with the Senators using them to cut their speeches short?—Philadelphia Times

The above has no reference to our State senators, among whom this session there are no "spell-binders."

If the present legislature adjourns without having enacted some legal barrier against the encroachments of ignorance, the hold-over members of the Senate ought to be forced to resign, and no member of the House should ever again be commissioned to serve the public in any official capacity.

Murat Halstead tells us that the senior Bennett saw in the Bennett junior the leading editor of his day, and we have been wondering if he saw correctly. The N. Y. Herald is without doubt one of the great papers of the age, but has the junior on his yacht, and in foreign seas made it so?

It is simply amazing to us that so reputable a Virginia paper as is the Rockbridge County News, should accuse the peerless Bryan of running after false gods and the Democracy of the present as being unlike the Democracy of the past which "gloried in

being the defender of the masses, against class legislation." If the Bryan Democracy is not a friend of the people pray tell us where such friend as is wanted may be found?

The Orange Observer and the Pittsylvania Tribune are after the Beets. The former says: "This section will certainly make a change for the better when it plants dead beets and raises sugar beets."

The latter says: "Two-thirds of the world's sugar is produced from beets, yet we have no record of a single beet or a pair of beets producing even a grain of sugar."

The Richmond News "goes for" the Richmond Times in this wise: "The Richmond Times is a paper of a great variety of opinions of one kind and another. It is always killed for an opinion upon anything that comes along and of course it exhausts the subject at one fell swoop, and leaves not an inch of ground for anybody else to stand upon."

"In fact, it is only by courtesy now that we call them opinions; they are really mandates, autocratic inflexible and inflexible."

Outside of that state. While this license would permit a corporation, so far as the Federal government is concerned, to do business outside of the state in which it is organized, it should not impair the right of any state to impose any restriction, even to the point of prohibition, as the people deem necessary for their protection.

The state and Federal remedies should be concurrent. It would not be safe to take from the state any power which it now has to protect its people from outside corporations, even though state protection is not complete, because if the state remedy were taken away, the people of the state would be entirely helpless in case the monopolies were able to exert a controlling influence over the action of Congress.

These remedies could be exerted without a constitutional amendment. Republican mischief makers, or rather would-be mischief makers, were responsible for the sensational stories sent out from Washington, alleging that Col. Bryan and Chairman Jones had quarreled over what should be the policy of the Democratic party.

There was absolutely no foundation for the stories. The two men are in perfect accord politically, and on the most friendly personal terms. While in Washington, Col. Bryan took family dinner with Senator Jones, and Senator Jones was one of the party of prominent Democrats who accompanied Col. Bryan to Baltimore Saturday night and listened to his able speech on the attitude of the Democratic party towards the public question of the hour.

Now that the administration has declared for free trade with Porto Rico, and Representative Payne, of New York, has introduced a bill, drawn under Mr. McKinley's instructions, providing therefor, all of the wretches of the McKinley collar will have to fall in line and support it, regardless of their records as protectionists. This will be a bitter pill for many Republicans, but there is nothing in sight to indicate that any considerable number of them will have the sand to vote against the bill.

Already they are beginning to ask if the McKinley programme includes free trade with the Philippines. Representative Ball, of Texas, took occasion, while the Pension Appropriation Bill, which was passed, was under discussion in the House, to give the imperialists, who are trying to make it appear that any opposition to the war in the Philippines is a traitor to the U. S. government, some sharp raps by quoting the language of Abraham Lincoln, who was a member of the House at the beginning of the Mexican war, and who made a speech demanding information of the President, about the beginning of that war, compared with which most of the speeches made by Democrats against the Philippine war are extremely mild.

Mr. Norman E. Mack, the Buffalo Democratic editor, who is now visiting Washington, is credited with knowing New York politics thoroughly. He says that with the exception of a few corporation and trust lawyers, the party in that state is in line with Col. Bryan, and expresses the belief that the recent financial transactions of the Treasury Department, have materially aided the Democratic cause, and that the state will elect a Democratic governor and presidential electors, next November.

The administration's rather too pronounced sympathy with Great Britain's war on the Boers, is getting it into hot water. Senator Hale declared in a speech in the Senate, that he believed nine Americans out of every ten sympathized with the Boers in their struggle for liberty, and the Senate adopted Senator Allen's resolution, asking why the State Department refused recognition to a properly accredited Representative of the Transvaal republic. And the trouble is just beginning. At a big meeting last night, at which there was some searching talk, which must have made Mr. McKinley squirm, if he read today's Washington papers, the principal speakers were Senators Hale, Allen and Mason, and Representatives Bailey, De Armond, Sulzer, Lentz, Lamb, Champ, Clark and Gordon.

DO YOU GET UP WITH A LAME BACK? Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Elmhurst, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.

WASHINGTON LETTER. From our Regular Correspondent. WASHINGTON, Jan., 22, 1900.

Col. Bryan's visit to Washington brought about a general interchange of Democratic opinions, which resulted in showing, beyond question, that silver, trusts, and imperialism will be the foremost issues in this year's campaign. While willing to talk freely on most subjects, Col. Bryan will not express an opinion on where the Democratic convention should be held, or who should be the candidate for Vice-President. He said of imperialism: "I am opposed to imperialism. I am opposed to the permanent retention of the Philippines. I believe that this government should at once declare its intention to give independence to the Filipinos, on the same terms that independence has been promised to the Cubans. I am not opposed to all expansion. Each proposed annexation should be settled on its own merits. I have tried to distinguish between the peaceful extension of a republic and the change of a republic into an empire." Of his attitude toward trusts, Col. Bryan said: "I propose that a Federal license shall be required of every corporation organized in any state, before it is allowed to do business

outside of that state. While this license would permit a corporation, so far as the Federal government is concerned, to do business outside of the state in which it is organized, it should not impair the right of any state to impose any restriction, even to the point of prohibition, as the people deem necessary for their protection.

WOMEN IN TROUBLE.

The Approach of Motherhood is the Occasion of Much Anxiety to All.

Every woman dreads the ordeal through which she must pass in becoming a mother. The pain and suffering which is in store for her is a source of constant anxiety, fear and dread, to say nothing of the danger which the coming incident entails. The joyous anticipations with which she looks forward to baby's coming gives way to an indescribable dread of the ordeal when she fully realizes the critical and trying event which will soon approach and have to be endured.

Women should hail with delight a remedy which insures to them immunity from the pain, suffering and danger incidental to child-bearing. Such a remedy is now offered, and women need not fear longer the hour of childbirth. "Mother's Friend"—is a scientific liniment—and if used before confinement, gently and surely prepares the body for the great requirements and changes it is undergoing, insures safety to both mother and child, and takes her through the event with comparative ease and comfort. This wonderful remedy is praised by every woman who has used it.

What woman is not interested in "Mother's Friend?" This wonderful remedy has been tested and its priceless value proven by the experience of thousands of happy mothers who have used it during the most critical period of woman's life—the approach and culmination of motherhood.

It has won their everlasting praise, for it gave them help and hope in their most trying hour and when most needed. Every woman may some day need "Mother's Friend." The little book, "Before Baby is Born," telling all about it, and when it should be used, will prove of great interest and benefit to all expectant mothers, and will be sent free to any address upon application to the Bradford Regulator Company, Atlanta, Ga.

THE PAPER OF THE PEOPLE FOR THE PEOPLE AND WITH THE PEOPLE.

HONEST IN MOTIVE FEARLESS IN EXPRESSION SOUND IN PRINCIPLE.

A newspaper is an educator; there are all kinds of educators, but the man who spends money judiciously and liberally is better able to impart his knowledge than the man who has little or nothing to spend.

THE SUN is the highest type of a newspaper. The Sun's reports from all parts of the United States are unsurpassed in the world.

THE SUN'S Cable Service is the finest known; the troubles in the Philippines and in South Africa demand competent correspondents and vast expenditure of money and labor in getting the news. When you get THE SUN you get news and intelligent preparation of facts with it, as well as carefully prepared articles of editorial writers of highest standing.

When you read a daily newspaper, you get the principal recommendation is its cheapness, you get the news—generally very poor news at that.

THE SUN is published weekly for \$1.00 a year, \$1.00 a year, \$1.00 a year.
