Isn't it Worth 25c. To Be Cured of Constipation

People who suffer from habitual constipation with all its attendant ills, clogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition renews with greater difficulty of cure and the sufferer constantly growing worse. There is a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

Laxakola Does It

Its remarkable tonic properties reach every organ—the liver, kidneys and stomach, nerve, heart and brain—and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colds, chills and languid feeling it is the ideal medicine. It tastes good. Children like it and ask for it.

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz. laxative and tonic, and at one price. No other medicine gives so much for the money. At 25c. per bottle, the 12c. and 6c. sizes are available in LAXAKOLA Co., 122 Kansas Street, N. E. of 9th Street, N. W., Chicago.

The dean of the women's department of one of our great universities declares that she no longer, after a long and successful career, but the unexpected help which will remove difficulties. Tired by nature, says the Youth's Companion, she used to say that she could never survive the shock of finding a burglar in her room. One night recently she awoke, suspicious that some one was fumbling at her door. The room was quite dark; the clock struck one. She lay there considering what to do, not at all frightened, but very indignant at being robbed. Many minutes passed; the burglar still moved stealthily about. Meanwhile the dean had formed a plan. Calling her youthful ventriloquist skill into service, she said in a deep voice, seemingly at the burglar's elbow: "Bodie, fight the gas." Her maid in the next room, thus called by her last name, shot out of bed, and the burglar shot out of the window. Investigation proved that the man's search had not yet reached the drawer containing the valise. "He robbed me only of what I could well spare," she then laughed, "my fears."

A Scotsman who had been employed nearly all his life in the building of railways in the Highlands of Scotland, came to this country in his later years and settled in a new location on the plains of the west. Soon after his arrival a project came up in his new home for the construction of a railway through the district, and the Scotsman was applied to as a man of experience in such matters. "Hoot, no!" said he to the spokesman of the scheme, "ye canna build a railway across this country." "Why not, Mr. Ferguson?" "Why not?" he repeated, with an air of effectually settling the whole matter. "Why not? Ise ye no see the country's as fat as a hog, and ye dinna have any place whatever to run your tunnels through?"
