

## MAKE THIS SIMPLE KIDNEY TEST

Examine Your Urine Yourself Once a Week.

If Suspicious, Take Kidney-Wort Tablets.

Doctors' bills and doctors' visits may be avoided if the first threatening signs of kidney trouble are recognized and the irritation checked at once.

If backache, rheumatism, headaches, dizzy feelings or frequent desire to urinate have aroused your suspicions, set aside a bottle of your morning urine for a couple of hours. If you find a dark sediment at the bottom, "brick dust" deposit or particles floating on top, or that the urine is high colored and of unusual odor, nothing should interfere with your immediately using Dr. Pettigill's Kidney-Wort Tablets, the one true specific for kidney affections that is prepared in accordance with the most recent accepted formulas.

Avoid liquid kidney remedies. Alcohol enters largely into all of them as a preservative. It is needless to say the Tablets are entirely free from alcohol. They never fail to stop the gradual weakening of the kidneys that goes on from day to day. They are guaranteed to cure inflammation of the kidneys, lumbago, pain in the back, dropsy of the limbs, rheumatism, catarrh of the bladder, sluggish or scanty urine, "brick dust" in the urine, frequent calls to urinate, bed wetting, "stone," malaria, constipation, pain in the urethra and kidney weakness.

Backache, lumbago, gout, are all rheumatism, and rheumatism is uric acid poisoning caused by sluggish, weak or diseased kidneys. When the kidneys are made strong by Kidney-Wort Tablets they filter the acid from the blood and rheumatism vanishes. The Tablets are the most certain and safe means of curing rheumatism any physician can prescribe. Other remedies may neutralize the acidity and give a day's relief, but only Kidney-Wort Tablets vitalize the kidneys so that the blood does not again become acid and require the constant dosing demanded by liquid kidney remedies.

**No Italian-American Trouble.**  
Washington, June 8.—The Italian ambassador has received from Mr. Speranza, the secretary of the Society for the Protection of Italian Immigrants, a report upon the recent disturbances in West Virginia in which Italians were said to have suffered from mob violence. Mr. Speranza's report shows that Governor White of West Virginia did all that could be expected of him in protecting the Italians. Action by the Italian government in the face of the facts as they now appear is not therefore expected.

**Haverhill to Be Burned?**  
Haverhill, Mass., June 8.—Anonymous letters have been received by the Gazette and Chief Gordon of the fire department saying that the writers would resume operations in incendiarism throughout the city in about a week and that the work would be continued until Aug. 1. The letters also state that the men have returned from Manchester and are signed "Three Good Socialists."

## POPE LEO WEAKER?

More Alarmist Reports About the Pontiff's Health.

Paris, June 8.—The Temps has printed the following dispatch from Rome: "Leo XIII. continues to receive, but those who see him notice the gradual decline which, without exciting apprehension that any catastrophe is imminent, does not warrant a continuance of the confident optimism. His recent audiences were extremely fatiguing. Each time the pope received pilgrims he was obliged to rest, sometimes for two or three days."

"A number of persons on intimate terms with the entourage of the holy father express the opinion that Pope Leo has been slowly wasting away for some time. The pope rises late and does not celebrate mass except on Sunday, when no one assists except his valet, Centes. The pontiff appears not to desire others should see his infirmities. The trembling of his hands has become noticeable."

"Dr. Laponi requires the pope to drink food medicinal water in the morning. The ice is used mainly because the pope is subject to slight inflammation of the gums."

**"Room For Fear," Says Venice.**  
Venice, June 8.—It is said by the Gazzetta di Venezia that the pope is suffering from intestinal inflammation, that he eats practically nothing and that his strength is diminishing. The paper adds, "Though there is no immediate danger, there will be room for apprehension unless an improvement is soon manifested."

## NEW PHILIPPINE BISHOPS.

St. Louis Prefect Appointed to the Diocese of Manila.

Washington, June 8.—The papal delegation has received notification by cable of the appointment of Rev. T. T. Harty of St. Leo's church, St. Louis, as archbishop of Manila. The appointment was made by the pope and has been accepted by Father Harty.

Mgr. Frederick Zadok Rooker, formerly secretary of the apostolic delegation at Washington, and Rev. Dennis J. Dougherty of Philadelphia, who were recently appointed bishops of Nueva Caceres and Nueva Segovia, Philippine Islands, respectively, will be consecrated June 14, the former by Cardinal Martinielli and the latter by Cardinal Satoli. The appointments of the new bishops will be officially announced at the coming consistory.

Bishops Rooker and Dougherty will leave for the Philippines at the beginning of July.

## Missionary Union Meeting.

Clifton Springs, N. Y., June 8.—At the session of the International Missionary union the Rev. Dr. Chauncey Goodrich of Peking, China, a missionary since 1864, preached the sermon. At the Y. M. C. A. meeting in the tabernacle addresses were made by the Rev. George A. Hall, state secretary of the Y. M. C. A.; David McConaughey of New York city and several missionaries on the forward movement of young people throughout the world. Platform addresses were made by eminent missionaries, among them Miss Ellen M. Stone, who told of her experiences with the brigands.

## SEVENY-FIVE VICTIMS.

Lives and Property Lost In South Carolina Flood.

### ONE TOWN WASHED AWAY.

Missouri Village Near St. Louis Is Cut Off by the Raging Waters. Topeka Slowly Recovering From Flood Losses.

Clifton, S. C., June 8.—Seventy-five lives have been lost in a flood which swept through Clifton and Pacolet, near here. It is estimated that fifty persons were drowned here, and the Pacolet victims number twenty-five. A score of cotton mills have been destroyed, 500 people are homeless, and 4,000 men have been thrown out of employment. The property loss is about \$1,500,000.

Heavy rains added to the danger. Bodies are to be seen floating on every side, but it is impossible to recover them at this time, as the immediate duty is to save the living.

The Converse Cotton mill, with 51,000 spindles, has been destroyed by flood. The Clifton mill, with 27,500 spindles, is half washed away. The Dexter mill, with 30,500 spindles, is half gone. These mills belong to the Clifton Manufacturing company.

**Much Property Washed Away.**  
Pacolet has been practically washed away. Clifton has escaped a like fate only because it is on slightly higher ground. Both towns are in the defiles of two valleys. The homes of the cotton workers are in the valleys near the cotton mills, and it was here the greatest loss of life occurred.

The Pacolet river was flooded by the incessant rains, and mill No. 1 at Pacolet was carried away and a short time afterward No. 2 and later No. 3. A big warehouse containing 1,000 bales of cotton and 1,000 bales of yarn was also destroyed and the goods carried down stream. It is estimated that altogether 3,500 bales of cotton and 4,000 bales of cloth were destroyed.

The Pacolet mills were among the largest plants in the south, belonging to the same company whose plant was destroyed at Gainesville, Ga., last week. They manufactured brown sheetings and drills, operating 56,330 spindles, 2,100 looms and 400 cards.

## MISSOURI TOWN CUT OFF.

Great Loss of Life Threatened at Village Near St. Louis.

St. Louis, June 8.—Two hundred people in the village of Black Walnut, on the north bank of the Missouri twenty-five miles northwest of St. Louis, were surrounded by rapidly rising water and all means of escape cut off.

Their condition was learned at St. Charles, and Sheriff Dierkes of that city telephoned to the St. Louis police department for aid in rescuing the imperiled villagers. The sheriff stated that only light boats were available at St. Charles and that owing to the heavy current it was impossible to reach the people without the aid of a river steamer.

Immediately Harbor Commissioner Whyte was notified and requested to rush the harbor boat to Black Walnut. The appeal was futile, however, because the high water would not permit a river steamer to pass up stream under the Eads bridge. Word was telephoned to Alton, where the steamer Spread Eagle was moored.

Martial law has been proclaimed in East St. Louis. Men with guns are patrolling the levees and have orders to shoot down thieves and levee breakers.

Word has been received that the village of West Alton is now completely inundated, and the Missouri river appears to be shifting its channel to the principal streets of the village.

## Topeka Slowly Recovering.

Topeka, Kan., June 8.—The bodies of several more flood victims have been found. Money continues to come in from outside in quantities sufficient to keep up with the demand. The total contributions have now exceeded \$23,000, including gifts from Philadelphia, St. Louis and Chicago. The merchants of the north side are trying hard to save their stock. Mud covers much of the stock, however, and the greater part of the articles in the stores are ruined. The railroads are gradually getting into better shape.

## Seeds For Flood Sufferers.

Washington, June 8.—Secretary Wilson of the department of agriculture has announced that there have been left in the department's storehouses several million packages of seeds after the close of last year's distribution which could be distributed among the sufferers from the western floods if so desired by them. He adds that comparatively few of the seeds are suitable for planting at this season.

## Slayer of Sister Indicted.

Glens Falls, N. Y., June 8.—William Silverman has been indicted by the Warren county grand jury for murder. Silverman killed his sister, Mrs. Rachel Kluger, in Glens Falls last February with an ax and afterward confessed the crime. He will be tried at a special term of the supreme court in September.

## United States Consul Dead.

Colon, Colombia, June 8.—J. C. Ingersoll of Illinois, United States consul at Cartagena, who was on his way to New York, has died here from dysentery. Mr. Ingersoll was a nephew of the late Robert G. Ingersoll.

## CAPT'N REXALL IN HANDS OF PRESIDENT

Restrained From Arresting People Indiscriminately.

### RICKERT & WELLS, DRUGGISTS,

Issue More Explicit Instructions to Dyspeptic People.

"Good morning, sir," said Captain Rexall, clicking his heels together and saluting an employe of Rickert & Wells, Barre's most prominent druggists, yesterday.

"How goes the battle against dyspepsia, and what do you think of Rexall as the best ammunition ever invented to overcome this foe, which is the most dreaded by man?"

"They do splendid work," said the druggist, after acknowledging the Captain's salute, and enquiring after his efficient corps of orderlies, whose faces have become so familiar of late to the readers of the daily press.

"They are all out on police duty, you say, looking for more people to bring here to the headquarters of Rexall. Well, that is a good idea; but see here, Captain, those kids of yours who have, to be sure, done so much good, need a little instruction."

"They ought not to go around and arrest only such people as they find hanging on to their stomachs when they have a pain. That is not all that is necessary, and people who have pains do not always go through the street proclaiming the fact."

"You just call them together and tell your Private Scott, Sergeant Chubb and the rest of them to keep their eyes open for people who have lost all springiness in their gait, who go about as though they had no ambition in life, who look and act as though they were all worn and tired out."

"One does not have to have terrific pains to show that his stomach is out of order. People who are frequently attacked with dizziness, headaches, backaches, foul breath, cold, clammy hands and feet, coated tongue, and hundreds of other such ills are suffering the results of a disordered stomach."

"You know how enthusiastic we are, Captain," said the clerk, "for if we were not, we would not lend our name to Rexall Dyspepsia Tablets and guarantee them as strongly as we do, refunding the cost of the remedy whenever it is asked, provided it has not done all that we claim it will."

Rickert & Wells sell the Rexall Dyspepsia Tablets at their store for 25 cents a box and positively agree to refund the money to anyone who does not find that the tablets will do exactly as recommended. Unless these tablets embody all the virtues that is claimed, it can be easily seen that Messrs. Rickert & Wells would be ruined in making such a bold guarantee.

Don't neglect the opportunity. Buy a box today.

## California Town Destroyed.

Bakersfield, Cal., June 8.—Word has been received here that the entire town of Randsburg has been destroyed by fire. All efforts to communicate with Randsburg have failed, as both the telephone and telegraph offices have been destroyed. A high wind is prevailing on the desert, and as the town was along one street and had no fire protection it is probable that nothing has been saved.

## Wilmington, Del., Elects a Mayor.

Wilmington, Del., June 8.—The Democrats have elected Charles D. Bird mayor of this city. Francis J. McNulty (Dem.) was chosen president of council, Robert G. Harman (Dem.) city solicitor and Frederick C. Mammole (Dem.) city treasurer. The Democrats elected nine of the twelve councilmen. The Addicks faction elected two members of council and the regular Republicans one.

## Bold Post Office Robbery.

Kingston, N. Y., June 8.—The safe in the post office at Roxbury was blown open by professional burglars, who secured \$700 in stamps. They stole a team from Dr. Ellis and went east.

## JUDGE GLANGY

Of Hornellsville, N. Y., Hands Down an Important Decision

Judge James H. Clancy of Hornellsville, N. Y., and one of the most prominent members of the bar in that historic town, decided recently that as against Blood and Liver trouble, Dr. David Kennedy's Favorite Remedy was worthy of the highest praise. He says:

"I have used Dr. David Kennedy's Favorite Remedy and strongly recommend it for its good effect in my case for liver trouble and blood disorder. It built me right up and I improved greatly in health."

Geo. H. Tift of 878 River street, Troy, N. Y., suffered from liver trouble and his blood was all out of order and after using "Favorite Remedy," has this to say:

"For any one suffering from that run down or tired out feeling, caused by blood or liver trouble, Dr. David Kennedy's Favorite Remedy is the best medicine you can buy. I have used it and I know."

The one sure cure for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, is Dr. David Kennedy's Favorite Remedy.

It matters not how sick you are, how long you have suffered, or how many physicians have failed to help you, Dr. David Kennedy's Favorite Remedy will cure you if a cure is possible.

It is for sale by all druggists in the **New 50 Cent Size** and the regular \$1.00 size bottles—less than a cent a dose. Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

Dr. David Kennedy's Golden Pilesters strengthen bowels, remove pain anywhere. 10c each.

Close Investigation of Postal Scandals Ordered.

### CONTRACTOR NOT ARRESTED

Machen's Statement About His Copper Mining Company Proved Correct—Alleged That Post Office Employees Bought Stock.

Washington, June 8.—President Roosevelt fully approves the action of the post office officials in pressing the investigation of the scandals. It is his intention that the investigation shall be sweeping and thorough and that every charge properly vouched for shall be probed to the bottom.

The situation in the department was considered in its general phase at the meeting of the cabinet, but Postmaster General Payne did not go fully into details. The president and Mr. Payne considered the situation at length. It is understood that the president expressed to Mr. Payne his desire that the investigation should be as searching as the ingenuity of the officials could make it and should be pursued until the department has been purged of even the suspicion of dishonesty.

At the cabinet meeting Mr. Payne praised Fourth Assistant Postmaster General Bristow highly for the energy he has displayed and the thoroughness of his work.

The postmaster general has dismissed Thomas W. McGregor and C. Elsworth Upton, rural free delivery clerks. Officials decline to discuss the case of C. E. Smith, the Baltimore contractor who furnished the supplier which figure in the conspiracy proceedings against McGregor and Upton. It is significant, however, that he has not yet been arrested, although the inspectors are keeping a watch on him.

## Machen's Mining Company.

Machen's statement that George E. Lorenz of Toledo, O., was his partner in mining enterprises is confirmed by articles of incorporation of the National Capital Copper Mining company, a corporation organized at Alexandria, Va. Copies of the incorporation papers are in the possession of the postal authorities, and the directors are named as follows: August W. Machen of Ohio, president; Henry H. Rand of Missouri, vice president; J. D. King of Wisconsin, secretary; H. M. Baker of New Hampshire, treasurer; George E. Lorenz of Ohio, T. E. Lee of the District of Columbia, David H. Fenton of Indiana, Francis M. Criswell of the District of Columbia and Samuel W. Scott of Texas. Mr. Rand is confidential clerk to the postmaster general. Mr. King is chief of division in the rural free delivery service and was applicant to succeed George W. Beavers as chief of the salaries and allowances division. Mr. Baker is a former representative in congress from New Hampshire. Mr. Lorenz was formerly postmaster at Toledo and once an official of the post office department, and Mr. Fenton is the law clerk of the office of the auditor for the post office department. It has been alleged that the stock company was sold to employes of the department.

## MR. ROOSEVELT'S PLANS.

Preparing to Make Several Short Trips in the Near Future.

Washington, June 8.—Arrangements are being made for President Roosevelt's trip to Cleveland next week to attend the wedding of Senator Hanna's daughter. The president, accompanied by his daughter, Miss Alice Roosevelt; Secretary Loeb and perhaps two or three others, will leave on a special train over the Pennsylvania railroad on Tuesday afternoon. The party will arrive in Cleveland between 6 and 7 o'clock Wednesday morning. On the return trip the president and party will leave Cleveland early Wednesday evening, arriving in Washington probably before noon on Thursday.

On Monday evening, June 15, the president will go to Baltimore to attend the Saengerfest concert, returning the same night.

The next morning, June 16, he will go to Charlottesville, Va., to attend the commencement exercises of the University of Virginia. He will return to Washington that evening.

**Reformed Church Revises Forms.**  
Asbury Park, N. J., June 8.—The fight over revisions of forms in the Reformed church synod has been brought to an abrupt termination. Dr. Hutton chairman of the revision committee has offered a compromise which has been adopted. Dr. Hutton's plan was to adopt the revised communion form as an optional or alternate form. He said the fathers who loved the old form could then use it as usual, while the progressive element in search of a shortened service could use the revised version.

## Senator Quay to Retire.

Pittsburg, June 8.—Senator Quay has announced his resolve to give up politics in a letter to a close friend. He writes: "I do not expect to be a candidate for re-election before the legislature that will be chosen next year. After nearly fifty years of work in the Republican party of Pennsylvania I feel that I should take some rest before the final summons. With the party in the state thoroughly united I shall feel satisfied to retire to private life after the expiration of my term in the senate."

## RUIN BY THE FOREST FIRES

New Brunswick Town Is Swept by the Flames.

### LOSS IN MAINE \$3,000,000.

Needless Burning of Fallow Is Said to Have Started the Disastrous Conflagrations—Some Fires Now Under Control.

Hopewell Cape, N. B., June 8.—Twenty-five houses are in ashes and a financial loss of more than \$300,000 has resulted from the forest fire which swept through this locality. The greater part of the place has been laid in ruins. Many of the best residences and the courthouses have been destroyed.

This town is the shire town of Albert county and is one of the leading shipping ports of the maritime provinces. The residents are largely wealthy shipowners and sea captains.

## PROGRESS AT GLENS FALLS.

Adirondack Fires Under Control Unless Strong Wind Blows.

Glens Falls, N. Y., June 8.—The Adirondack fires are under control, but should there be another hard wind they would start again. This statement was made by J. T. Finch, who arrived from Indian Lake, where he has charge of the fire fighting force.

The greatest menace to the forests is the burning of fallow. The disregard for consequences by some of the natives is illustrated by a man living near North Hudson, who owned a small patch. He burned his fallow early in the week after having been warned not to. The fire got away from him and ran north for twenty miles, where it was met by a fire from the Lake Placid country. This man will be arrested as soon as the officers can find him, and the lumber companies propose to push the prosecution.

## MILLIONS LOST IN MAINE.

Fire and Drought Have Caused an Enormous Damage.

Houlton, Me., June 8.—Estimates by lumber men place the loss from fires and drought in Aroostook county at more than \$1,000,000 and for northern and eastern Maine at \$3,000,000. Fires are threatening New Sweden. The Bangor and Aroostook railroad men are confident they have saved the Ashland station and other buildings and valuable contents.

The conditions at Brownville have improved. The Great Northern Paper company at Millinocket has a crew of Italians fighting the fires and protecting the property.

## Lost Life While Fighting Fire.

Lake Placid, N. Y., June 8.—William Howe of this place was hemmed in by the flames while fighting forest fires near the foot of Mount Marcy, in the Adirondacks, and smothered to death by smoke. There are now no forest fires burning within from five to ten miles of Lake Placid, and the forests immediately around the lake are unburned. It is reported that the fires in the entire Adirondack region are receding.

## Heavy Rain Urgently Needed.

Saratoga, N. Y., June 8.—The absence of wind in the Adirondacks has in a measure improved the general conditions of affairs in those sections where the forest fires have been raging for several days, but the flames cannot be extinguished without a heavy and protracted rain. In many sections the fires cannot be approached.

## Fire Situation Improved.

Hoosick Falls, N. Y., June 8.—The fire situation has improved, although a few new fires have started on the west side of Grafton mountain. They are reported to be under control.

## Large Fires in Quebec.

Montreal, June 8.—There are no more large forest fires in Quebec province, and as the weather promises rain it is believed that the worst is over.

## MR. ROOSEVELT'S PLANS.

Preparing to Make Several Short Trips in the Near Future.

Washington, June 8.—Arrangements are being made for President Roosevelt's trip to Cleveland next week to attend the wedding of Senator Hanna's daughter.
