L. W. Welch of Grand Rapids, Mich., who made such a remarkable automobile trip from Cleveland, O., by way of Boston, said while here that the roads in Barre were the worst he had passed over in the course of his whole journey. Probably no one knows this better than the people of that city and Barre will have good streets as soon as the paving blocks are down. Mr. Welch went from here to Burlington yesterday and goes from there to Montreal.—Montpelier Argus.

The alumni of Montpelier Seminary were defeated in a game of ball by the under graduates of the school Tuesday afternoon by a score of 16 to 5. After the game all joined in a melon rush.

POPULAR SCIENCE.

Our sun at the distance of Arcturus would be invisible to us.

The human jaw has only eight muscles, but these exercise a force of nearly a quarter of a ton.

Professor Brain of the University of Strassburg has undertaken to heat a room in Munich by a flash light in Nuremberg, which is 100 miles away.

It has been shown that more than a gallon of salt solution can be introduced into the blood vessels in the course of an hour without destroying life or occasioning any disease.

The astronomer has heat measuring devices that can detect infinitesimal variations of temperature and indicate the heat of stars distant millions of miles from the earth and chemical compounds sensitive to light that our eyes never can see.

Blown to Atoms.

Silverton, Colo., June 17.—Three miners have been killed at the Toltec tunnel by an explosion of fifty pounds of giant powder which they were thawing. Two of the men were blown to atoms.

GOWN GOSSIP.

Trained skirts are not seen except for weddings and very dressy occasions.

Black silk stockings embroidered in colors are said to be popular. Some of them are works of art.

Hats of unlined gauze, the edge finished with black or white velvet, are dressy. The trimming is usually an ostrich feather or an egret.

Happy is the woman whose most becoming color is mauve or violet. These lovely but trying tones are to be most fashionable in the coming fall.

Boss have disappeared in everything except ostrich feathers, stoles and capes of the costliest and most perishable materials having taken their places.

Better for ordinary wear than taffeta petticoats are those of pongee with a trimmed or embroidered flounce. American pongees give good service, especially in the undyed fabric.

Nothing sets off a pongee or linen gown like a touch of red, and a great deal of red is worn in the way of hats, belts, stocks and hand bags. The brightest scarlet is popular, and ruby or cherry red still more so.—New York Post.
