

A GOOD START IN TODAY'S RACE

Shamrock Takes Lead at the Start.

TEN-KNOT BREEZE BLOWING

All the Conditions Point to a Fine Race and an Early Finish Near 3 O'clock.

Highlands, off Navasink, Aug. 22.—In a smart eight knot wind, from west, south-west and over a sea as smooth as an In-lake, the cup defenders, Reliance and Shamrock III, go to the starting line today, to make a second effort for the race in the series for America's cup. A more perfect day for the race could not be desired.

Reliance took a tow for the starting line at 8.40 o'clock. Shamrock followed nine minutes later.

Shamrock went to the starting line under her own sail. It was just fifty two years ago today that the schooner yacht America won the Queen's cup now known as America's cup. Col. Crawford of the Royal Ulster Yacht club challenging committee, said this morning, "We will celebrate the anniversary of the taking of the Queen's cup by winning today."

At 9.24 Reliance dropped her tow and proceeded under mainsail headsails and clubtopsails.

At 10.25—The regatta committee, finding the wind too much to windward to permit the laying of the course 15 miles to the windward and return, has shifted the starting line to a point southeast of the lightship.

At 11.20 the starting line was established four miles southeast of the lightship. The Reliance is setting larger topsail. A dense haze hangs off shore. The starting line is actually obscured.

A larger fleet of excursion crafts is accompanying the yachts than on Thursday. The start was made at:

Shamrock - - - 11.35.05
Reliance - - - 11.45.21

The Times will issue an extra at the close of the race, giving the particulars and finish of the race.

BURLINGTON FALL FESTIVAL.

Will Eclipse All Amusement Events That Have Ever Taken Place There.

Burlington, Aug. 21.—Burlington's Fall Festival will eclipse all previous amusements and industrial events that have ever taken place in the Queen City.

Indications all over this part of the country point to large crowds in Burlington the week of Aug. 31 to Sept. 5. Everybody seems to be interested and talking about the event. The city will be a blaze of color, practically every building of importance being artistically decorated and bands of music and the host of entertainments will make lively by day and night.

The industrial section, where samples of many products will be given away, will be an interesting feature. Everything has been done to make the visit of everybody to the festival profitable and enjoyable. The great Gaskill-Mundy-Levitt Carnival Co., the largest and best organization of the kind in America, will furnish amusement features.

Then there will be the Ferris wheel, the night in the Orient, Blake's Pony, Dog and Monkey circus, the Girl from Ny Thebe, the \$20,000 crystal maze, Buckskin Bill's Wild West, and a host of other equally meritorious amusements. Low rates will prevail on all railroads and steamboats throughout the week.

STRANGER SANDBAGGED ON WINOOSKI STREET

Attempted Abduction of Two Armenian Children in Same City Yesterday.

Winooski, Aug. 21.—With a man sand bagged and left unconscious on the main street of the village at 10 o'clock in the evening, and an attempted abduction of two children by their father, Winooski has enough to talk about for some time.

An unknown man; presumably a chance visitor, while walking up Main street last evening, was suddenly felled by a blow from behind and knocked to the sidewalk. The man was rendered unconscious but revived and was all right later in the evening. The assault occurred in front of Sam Bergman's restaurant on lower Main street. The proprietor nor anyone else as far as is known, saw the man hit but he was found a few minutes later prostrate on the sidewalk. After he became conscious he related that he was hit, presumably by a club and then he fell and knew nothing more. He had some money but would not give his name.

The abduction case is interesting and the end is not yet. The story in outline is as follows: A year ago a company of children, possibly a dozen in all, were brought from Boston by an agent and adopted out to citizens at Winooski. A Syrian girl, 9 years old, was taken by Mr. and Mrs. John Dabrule, and a boy also of that nationality, two years old, by Alfred Lavelle of Hall street. Both children were sent to school and proved to be bright scholars.

Yesterday afternoon Charles Depps, a Syrian of Worcester, Mass., appeared and finding the boy in company with his foster-father, attempted to take him away by force. The child did not want to go to Depps, but recognized him as his father.

Mr. Depps can talk no English, but is accompanied by an interpreter. He says that both children after the death of the mother were placed in a convent in Boston. One day when he went to the institution to visit them he was told that the children had been sent into the country for a vacation. This was eight or nine months ago. The children not returning within a reasonable time the father became suspicious but could not secure the address of the place where they were until a few days ago and immediately came to Winooski after them. Both Mr. Lavelle and Mr. Dabrule claim that they have legally adopted the children but will give them up on a reasonable remuneration for their trouble.

A hearing in the case will be held tomorrow.

DO NOT LIKE CRITICISM.

Rutland License Commissioners Declare It Is Not Part of Their Business to Enforce Law.

Rutland, Aug. 21.—The board of license commissioners of Rutland are much incensed at the severe arraignment which they have been receiving at the hands of the Rutland Herald.

The board today made the following statement: "In view of the statements made in the editorial columns of the Rutland Herald of August 19 the license commissioners of the city of Rutland deem it their duty to say to the public that this editorial was a gross misstatement of certain conditions, probably for the purpose of misleading the public.

"We desire further to state that there has been no complaint made in form as provided by law, to the commission, relative to the illegal sale of intoxicating liquors but what has been properly disposed of; that the commissioners have instructed the police to furnish them evidence of any violation of the law that may come to their knowledge at any and all times; that the members of the sheriff's department have also received the same request as that given the editor of the Rutland Herald has been importuned by the board for such evidence, which he has failed to furnish in any way up to the present time.

"We desire no newspaper controversy and make this statement simply to inform the public of our position in the matter. We are very desirous of seeing the local option law enforced and are asking the public for every scrap of evidence in form which we can use to convict any parties licensed or unlicensed, within our jurisdiction.

C. E. Thomson, Chairman, C. W. Pennington, J. P. Sawyers, Board of License Commissioners, City Rutland.

FOUND MANY FOSSILS.

U. S. Geological Search Successful in Vermont.

St. Albans, Aug. 21.—Henry E. Dikhaunt of the United States geological survey, who has been gathering fossils from the Cambrian division in this vicinity, has gone to Burlington to continue his work on the Cambrian rocks. George E. Edson, the local geologist, who has assisted Mr. Dikhaunt in his research here, says they were extremely fortunate in their finds, as they shipped to Washington, D. C., over one thousand pounds of material to be worked up. Several fossils were found that were not in Mr. Edson's collection of Cambrian fossils. The fossils sought were shells needed for the completion of a monograph on Cambrian Brachiopods, which will soon be published by Charles D. Walcott, director of the United States geological survey.

CZAR CALLS OFF NAVY

Satisfied by Turkey's Assurances.

NO JOINT DEMONSTRATION

Conferences Upon the Macedonian Situation Proceeding in European Capitals.

London, Aug. 22.—Official advices say the Russian squadron off India is likely to leave Turkish waters within the next few days, as the Turkish government has given adequate assurances that it will meet all the Russian demands. The withdrawal of the war ships will be due chiefly to Turkey's assurances, but also to Russia's desire to avoid a step which might appear antagonistic to Bulgaria.

The Turkish ambassador called at the foreign office to make inquiries regarding the report that it was the intention of the powers to make a joint naval demonstration in Turkish waters and to enter a protest if anything of the kind was contemplated. The foreign office officials made it clear to him that Great Britain had taken no action of this character, and it appears as if Italy will also refrain from carrying out her decision to dispatch war ships to Turkey, as the Italian embassy says no report of their departure has yet been received. This is taken by the embassy to indicate that there have been developments making the step inadvisable or unnecessary at the present moment, perhaps due to the Turkish acceptance of the Russian demands, which was confirmed at the Turkish embassy.

The negotiations respecting Macedonia are conducted on the continent. Foreign Secretary Lansdowne and most of the ambassadors being away from London.

The Turkish ambassador has left London for the country, where he will remain for some days.

The diplomats point out that the scheme for a settlement of the Macedonian question outlined by the Independence Belge could not be approved by the powers, as it is evident Turkey would never submit to a peaceful occupation of the Bosphorus and the Dardanelles. A Turkish official said this could only be done after fighting.

TO TAKE PRACTICE MARCH.

Co. H of Montpelier Will Go Out With Shelter Tents.

Montpelier, Aug. 21.—The Company H boys were called to the armory last evening for the regular checking up of equipment after muster. Hardly anything was found missing this time, the boys having watched their property very well while in camp. After the checking up, a business meeting was held at which vacancies in the various standing committees of the company were filled by election. The cribbage, athletic and dance committees were put in shape for active work.

A committee of five was chosen to ascertain the sentiment of the company with regard to a proposed practice march in September. It is proposed to take a march of several miles some Saturday afternoon, sleeping under shelter tents that night and returning Sunday or early Monday morning. The plan met with hearty support from the members present and it is likely that the march will be taken.

The fire was started by Mr. Barr's three-year-old boy. He found some matches and crawled under a bed to play with them. This resulted in firing the bed, some wearing apparel and lace curtains were damaged or destroyed. The loss was small. The boy was terrified at the result of his play and after the excitement was over he was found hiding under some tomato plants in the garden.

Uprising in Morocco.

The rebellion in Morocco attracted the attention of the entire world, and it furnished some interesting incidents.

This year with the Lyman H. Howe announced picture exhibition, which will be seen in Barre Opera House on Sept. 11, is a picture taken while a column of Moorish troops was on the way to suppress the rebels. The picture is a most interesting one showing the dark-skinned natives on the way to the rendezvous of those who rebelled against the authority of the government. A comparison of the system of marching with that in this country is interesting.

There will be a large number of other pictures representing scenes from all parts of the world, as they actually took place.
