FUR TRIMMED JACKETS.

NEW ARRIVALS THIS DAY.

The "Franklin Coat" our Leading Winter Jacket.

Prices range from \$15 to \$50. All of our leaders controlled by us in Burlington. "The Franklin" Coat is no exception. It is shown by no other house in the City. (See Cut.)

Hundreds of new garments. Plain and Fur Trimmed Jackets, New Markets, Gretchens for Children, beautiful Styles, all new. Agents for the Genuine "Cravenette" Rain Proof Garment. We introduced this Garment 3 years ago. Hundreds of them sold. Warranted Waterproof, perfectly suitable for Street traveling or Church wear. No garment ever gave such satisfaction, all styles and sizes in stock. "See Cut."

Note. Nearly every Dry Goods House keeps Garments, all advertise as being the Leading House, all claim to carry the largest stock. We invite buyers to look at other Houses then come to "The Old Bee Hive" and purchase. We can show you more handsome Garments than all other Houses in the City put together. This is a strong statement. Come and let us prove it to you.

N. E. CHAMBERLIN.

Gravenette Rain Proof

MAY HAVE BEEN MURDER

ROLAND NORTON'S DISAPPEARANCE NOW LOOKS SUSPICIOUS.

His Brutal Father Has Made No Move Toward Investigation—Story of the Elder Norton's Well-Known Cruelty—Legal Inquiry will be Made.

FORTSMOUTH, N. H., Nov. 21.—The residents of North Kittery are very much excited over the strange disappearance of Roland Norton, the 16 years old son of Samuel J. Norton, who lived within a short distance of the York line. Young Norton disappeared Sunday, August 28, and since then no trace of his whereabouts has been heard, and what is more peculiar, no effort has been made on the part of his father to learn of his hiding place.

This strange paternal indifference, taken in connection with the fact that the father was in the habit of abusing the boy, has led the neighbors to think that there has been foul play.

A visit to the locality to-day and interviews with several near neighbors elicited the following facts: On the Saturday previous to young Norton's disappearance, his father was seen to strike him over the head with an iron rod three times, each blow being severe enough to make the boy fall to the ground, where he was left by the human parent. The boy, however, managed to crawl to the edge of the barn, from which he was seen to come out later in the day and go to the house. Since that time his whereabouts remain a mystery.

Samuel Norton, father of the missing boy, was seen. He talked freely about his son's going away, but appeared to be nervous and ill at ease. When asked if he had made any efforts to ascertain the whereabouts of the boy, he said he had not, as it did not concern him. He said he thought that the boy had gone to Chicago to see his mother, but admitted that he had no money to take him there. According to the father's statement, when the boy went away he left his best clothes, wearing his common working clothes.

Norton until about five years ago lived in Chicago. There he quarreled with his wife, came east and took up his abode at the old homestead. His son came about a year later, and his coming was the commencement of ill-treatment by his father, who made every day some new discovery and caused him to work Sundays as well as week days. Norton is reported as being a very violent man when in the heat of passion and is held in fear by his neighbors.

No far action has been taken toward an investigation by the selection of the town, but a prominent townsman stated to-day that unless some move was made on their part the county attorney would be appealed to to clear up the matter.

RETURNING TO WORK.

Homestead Strikers Find the Carnegie Black List Uncomfortably Long.

HOMESTEAD, Nov. 21.—The strike having been officially declared off, a grand rush was made this morning by the strikers to get back to work. As early as 6 o'clock the rush began and it kept the police busy keeping the crowd out of the Carnegie mill. As the day advanced the rush was over but they continued to make one and three and this will doubtless be kept up for some days.

A large number were turned away, some with good prospects of securing their old positions in the near future, while many were informed that they would be given no work under any consideration. It is now plainly evident that the black list is quite long and those whose names appear on this list will be forced to seek work elsewhere. The firm is inclined to favor the old men as much as possible and there has already been a large number of colored men discharged to make room for old employees.

Flame-Sweep Frauds Lands.

NEWPORT, Neb., Nov. 21.—A terrific fire raged in Stark county yesterday. A number of families were compelled to seek lakes, wells and caves to save their lives.

To Advise Wages Voluntarily.

WORCESTER, Mass., Nov. 18.—The Blackstone Manufacturing company, cotton manufacturers at Blackstone, Mass., will advance wages December 5. The prices have not yet been made known.

Wheelmen to Hit for \$10,000.

MILWAUKEE, Wis., Nov. 21.—Wheelmen Zimmerman and Sanger are matched at last to ride for \$10,000. Zimmerman's \$300 earnest money was covered by Sanger. The date and other details have not yet been settled.

Dean's Rheumatic Pills absolutely cure rheumatism and neuralgia. Entirely vegetable. Safe.

WEEKLY TRADE REVIEW.

General Business Situation Unchanged From that of Last Week.

New York, Nov. 18.—R. G. Dun & Co.'s weekly review of trade says: No important changes appear in the condition of business. The distribution of products continues enormous, production by manufacturers is greater on the whole than in any previous year, and while some hesitation is seen about entering into new engagements, the general tone of business and industries is remarkably healthy.

At Boston business continues large, collections good and money easy. In general the situation is unchanged, excepting that the wool is more quiet, but the mills are very actively employed, and the situation in cotton goods highly encouraging with advanced prices. The shoe trade is in good shape, with bright prospects, and lumber remained active by the open season for buildings. In the great industries little change is seen, all the textile works being busily employed, and the cotton mills especially pressed with orders.

While prices for some grades of goods are advancing shipments of boots and shoes from the East continue to largely exceed those of last year. October exports of principal products were \$15,045,458 smaller than last year and in two weeks of November the decrease has been \$4,909,000.

The failures occurring during the past seven days as reported to R. G. Dun & Co. and E. Russell & Co. number for the United States 205; for the corresponding week of last year the figures represented 254 failures in the United States.

A COLLISION WITH EARTH.

Prof. Colbert Says the Tail of Biela's Comet will strike us.

CHICAGO, Nov. 18.—With the earth and Biela's comet come in collision. Prof. James T. Colbert, a well-known astronomer, says that the tail of the comet that will be knocked into earth by the earth, while the head, 1,000,000 miles away, will continue its vagrant career. Prof. Colbert outlines some startling possibilities should our earth come full tilt against the great comet.

He says: "Deaths to human beings because of collisions with a comet might occur in more than one way. First, there is the direct contact, of which some pretty well authenticated instances are on record. Second, there is the indirect mortality on the much larger scale that may be conceived as the result of a poisoning of the atmosphere by admixture of great quantities of gaseous matter that has belonged to the comet.

Some people have argued that in this way can we satisfactorily account for some of the pestilential visitations, such as the famous Black Death, which have swept the earth as with the besom of destruction in the past, and moved from place to place far more rapidly than could be explained by reference to the slow traveling of former days. Neither the aerolite shower nor the poisoning of the atmosphere can occur except from collision with the head of the comet, and the calculation shows that we are to be spared by a gap of about a million miles."

Elks in Vermont.

A recent issue of the Social Journal, published in Cincinnati, O., a session devoted to the interests of the Benevolent and Protective Order of Elks, contains the following: "There is not a lodge of Elks in the State of Vermont. Brother Fred A. J. Dunwick, father and founder of Elms Falls (N. Y.) lodge, No. 81, thinks it would be a healthy State for Elks to graze in, and with the assistance of his brother co-workers, will endeavor to establish lodges in Rutland, Burlington, St. Albans and other Vermont towns."

DIAMOND ANNIVERSARY

MR. AND MRS. WARD OF NEW HAVEN OBSERVE THE RARE OCCASION.

Numerous Children, Grandchildren and Great-Grandchildren Gather from Far and Near to Honor the Aged Couple—Prospect of Prolonged Life Before Them.

NEW HAVEN, Ct., Nov. 16.—Ira and Hannah Cramton Ward celebrated their diamond wedding to-day, receiving friends numbering over 100, from 11 till 3 o'clock. Of their 10 children nine are living and six were present. They have 17 grandchildren, four of whom were present, and 24 great-grandchildren, five of them being present.

Mr. Ward was born in Waltham, Vt., April 9, 1796, and since 1815 has lived in New Haven, for 60 years on his present farm of 200 acres which he reclaimed from unbroken forest. Mrs. Ward was born in Ferrisburgh, Vt., Oct. 11, 1798. The health and hearing of both are good, their eyesight failing, and their mental vigor unimpaired.

Hattie Mason, the oldest granddaughter of Mr. and Mrs. Ward's oldest daughter, Mrs. Julia Rogers, is married to-night to Harold Sawyer of Amesbury, Mass. For the celebration three daughters came from the West, and flowers were sent from Illinois, Iowa and Ohio.

Mr. Ward voted for both Harrisons and wants to live and vote again for Benjamin. He and the Congregational church, of which Mrs. Ward is the oldest living member. Mr. Ward seldom misses a weekly market day at Vergennes. Both shook hands with all present and stood the fatigue well. They seem to have a fair chance of still longer life, as neither ever had much sickness. Both retain a wonderful interest in local and public matters.

SALVATIONISTS DEMONSTRATE.

Delegates to the Continental Congress Participate.

NEW YORK, Nov. 21.—Delegates to the continental congress and war council of the Salvation army from all parts of the country, attended a banquet at Lenox lyceum at p. m. to-day. There were 2500 persons present. Only plain food and vegetables were partaken of and the tickets were 25 cents apiece. The banquet lasted about two hours and at its conclusion a torchlight procession was formed.

The first division was escorted by a band of cadets, preceded by 10 torch bearers. The national flag and headquarters officers followed. The procession moved to Carnegie Music Hall, where the proceedings proper of the congress began. Seven thousand people crowded into the hall, and the platform was jammed with Salvation Army officers of all ranks, in regulation uniforms.

Commander Bollington Booth presided and made an address of welcome. He said that the in-door congregations had attended the army meetings in the United States in the past year, aggregated 13,199,888. The converts made 32,263; cities and towns occupied 403; corps and outposts 555; soldiers and recruits 13,109; officers 1590.

Mrs. Ballington Booth then spoke and aroused the enthusiasm of the meeting to the highest pitch. She said to-morrow night she would dedicate her three weeks old baby, Myrtle Theodora Booth, to the cause of salvation. This evoked great cheering and all the bands played at once.

There were songs and exhortations and choruses and then the commander read letters of sympathy with the objects of the army and congratulations upon its work from Gen. William Booth of England, Commander Herbert Booth of Toronto, Rev. Dr. Lyman Abbott and President Harrison. The president's letter was dated November 19, was addressed to Commander Booth and read as follows:

"My Dear Sir—Have your letter of the 17th of November and beg to thank you for your sympathy so kindly expressed for me in my great sorrow. I am very liberal in my judgment of methods and think it well that not all those who are endeavoring to subdue the fortress of vice approach the altar upon the same line. To all whose sincerity and usefulness are proved by devotion and results I can give my hearty good wishes and cheerfully extend them to you and your associates. Very truly yours,
BENJAMIN HARRISON."

Wedding Party Buried in a Ruin. MADRID, Nov. 16.—News from Bajarr, a town 45 miles south of Salamanca, tells of the sudden collapse of a vestment building where a wedding party were taking tea. The highest pitch. She said to-morrow night she would dedicate her three weeks old baby, Myrtle Theodora Booth, to the cause of salvation. This evoked great cheering and all the bands played at once.

COMPROMISE EFFECTED

Between Trustees and Contesting Relatives in the Tilden Will Fight.

NEW YORK, Nov. 18.—The trustees of the estate of Samuel J. Tilden report that a settlement between them and the relatives contesting the dead statesman's will has been arrived at and that the original idea of establishing a library and reading room in this city is now actually in sight and needs only official endorsement.

The persons contesting the will agreed to release one-third the original amount for library and reading room purposes. This sum will aggregate \$2,000,000, the annual interest of which will be about \$60,000. The trustees accepted the compromise and propose to use the interest in the manner contemplated by the will.

SMALL-POX UNABATED.

New Victims of the Epidemic at New Haven City.

NEW HAVEN, Conn., Nov. 16.—The small-pox epidemic at the general hospital continues unabated. Despite every possible effort to check the progress of the disease new cases are breaking out each day. This morning Miss Meloxan, the trained nurse who attended Fiste, the first patient, was taken with the disease. She appeared at the institution. This afternoon both she and Dr. Henry Flagg, the home physician who was taken ill with the disease yesterday, will be conveyed to the pest house. No fatal cases have been reported so far, save that of the colored child that died last night. Fiste is recovering and the other six patients at the pest house are doing well and are expected to recover.

Benington's New Opera House.

The Benington opera house which has been in process of erection during the summer by H. W. Putnam is approaching completion. The auditorium is reached through a grand entrance 14 feet wide. The opera house proper is built of brick, is 108 feet long, 64 feet wide. The auditorium is 70 feet long, from the floor to the ceiling is 49 feet and the stage is 40x65 feet. The two fly galleries are each 25 feet above the stage floor, and connected by a self-supporting bridge. The parquet occupies about one-eighth of the floor. In the rear of it and separated by a balustrade is the dress circle. The parquet and the dress circle have a seating capacity of 600. Over the dress circle is the balcony circle. In rear of this is the gallery. The two have a seating capacity of 400. There are two handsome procession boxes with a capacity of eight persons each. The side walls of the auditorium and of the stairways to the balcony and gallery are wainscoted in cherry. The remainder of the walls will be frescoed. The ceiling of the auditorium and over the dress circle are covered with asbestos, then a canvas, and then frescoed. There will be 20 electric light fixtures in the auditorium, of which 10 will be foot lights. There are five places of exit in case of accident in addition to the main entrance, and the house can be cleared in five minutes. The total cost of the house when completed and furnished will be about \$85,000. The lessees of the house are Messrs. P. G. Bond and E. M. Tiffany.

CLOSE CALL FOR THE PREMIER.

Gladstone Narrowly Escapes Being Run Down by an Omnibus.

LONDON, Nov. 18.—As Mr. Gladstone was crossing Hendly last evening, he stepped directly under the heads of a team of horses attached to an omnibus that was swinging around the corner. The driver pulled his horses back upon their haunches, and as the Premier was walking quite rapidly he escaped with a slight blow of the pole on the shoulder. He staggered a short distance but quickly recovered himself and reached the pavement in safety.

Borden Case before Grand Jury.

TAUNTON, Mass., Nov. 16.—No new witnesses in the Borden case have appeared here as yet. It is understood that the district attorney will not put in his case in full before the jury, lest some of the important matter leak out. He will confine himself to only so much as ought to convince the jury that there is probable cause to hold.

Victoria in Excellent Health.

LONDON, Nov. 18.—The Queen arrived at Windsor Castle from Balmoral to-day. Notwithstanding rumors of her falling physical condition, she looked to be in the best of health.

Taylor's "Dead Winner" outwears all other tales.

SCOTTSDALE, Pa., March 18th, 1892. DR. DAVID KENNEDY, DEAR SIR—From a growing girl, I suffered with female trouble or weakness for several different physicians, but found no relief. I was so reduced in strength and flesh, that I weighed but 68 lbs., I had no hair on my face, and I heard of the wonderful cures Dr. David Kennedy's Favorite Remedy was performing and tried it. The first bottle produced marked improvement. After taking five bottles, I was almost a well woman and weighed 125 lbs. "JUST THINK OF IT MY SUFFERING SISTERS," such a gain in weight and better in health than I ever was. It is my desire to tell every woman in the world who suffers from any of the complaints common to our sex, of the benefit and cure to be derived from the use of Dr. Kennedy's Favorite Remedy.

If you have chronic weakness, breaking down, uterine catarrh, suppressed or painful periods, suspicious growths, disease of the ovaries, or leucorrhoea, suffer from painful or irregular menstruation, hemorrhage, or irregular monthly sickness, falling of the womb, or any of the ailments of the female sex, you will find only help for you; it has cured thousands when all else has failed. Ladies, don't be discouraged and give us a chance, good health and long life can be gained by using Dr. Kennedy's Favorite Remedy. Price, 50c a bottle.

War 'with Landlords. ENGLISH WORKINGMEN LISTEN TO A TIRADE AGAINST RENT. Socialist Waite Exhorts the Unemployed to Follow His Illustrative Example and Pay no Rent—His Words Find Acceptance in Socialistic Hears.

LONDON, Nov. 21.—The socialist democratic federation, through its committee on unemployed workingmen, began to-day a new rent campaign. Waite, the socialist who organized the demonstrations of the unemployed, addressed a meeting yesterday. In his speech he said that after to-day any man who paid a farthing in rent while his family did not have sufficient food would be a cur. Waite declared that he did not believe in paying rent. He had not paid any in seven years and meant never to pay any. This statement was greeted with cheers. He called upon his hearers to imitate the Irish and pay their landlords with thorns.

Emergency committees, he added, have been formed in every district to assist tenants who resist their landlords. If the property owners succeeded in distraining them, the distressed tenants, with their wives and children, will go to St. Stephens and camp out before the hours of parliament. This plan of campaign, the speaker shouted, would pain thousands of dirty landlords.

NOTED TEMPERANCE LEADER.

The Forceful and Brilliant David Frost.

He Speaks of an Insidious foe of Temperance and asks if Demands Law—Comments in Earnest Language the Many Virtues of Kickapoo Indian Sagwa and Gives His Reasons.

The portrait of David Frost, the noted temperance lecturer, will be recognized far and wide. The noble work of this distinguished advocate of temperance has given him a reputation second only to that of the late John B. Gough's.

In a recent conversation with Mr. Frost, that gentleman said, with the convincing earnestness which characterizes his remarks: "One of the most evil evils with which the friends of temperance have to contend is the cheap whiskey distilleries and the sale of rum and gin, which, if not checked, will be the ruin of the nation. It is the duty of the 'temperance' party to see that the 'ginners' and other patent medicines, the enormous quantities of which are consumed, do not do incalculable injury in many cases by impurities in the ingredients where it never would exist otherwise. This most insidious form of intemperance should be put down by law."

It is not only an old and tried remedy, but in this case I deem it my duty to continue that grand benefit of the Indian Kickapoo Indian Sagwa. I have taken occasion also to learn something about this medicine and its origin and know that it is not only an old and tried remedy, but in this case I deem it my duty to continue that grand benefit of the Indian Kickapoo Indian Sagwa. I have taken occasion also to learn something about this medicine and its origin and know that it is not only an old and tried remedy, but in this case I deem it my duty to continue that grand benefit of the Indian Kickapoo Indian Sagwa.

Guaranteed Cure. We authorize our advertised druggists to sell our new discovery for cough, cold, croup, whooping cough, and all other ailments of the throat and lungs.
