CONSTANT PAIN AFTER EATING

The Tortures of Dyspepsia Corrected by "Fruit-a-tives"

Sr. MARRIN'S
"For two years, I suffered tortures from *Severe Dyspepsia*. I had constant pains after eating; pains down the sides and back; and horrible bitter stuff often came up in my mouth. I tried doctors, but they did not help me. But as soon as I started taking 'Fruit-a-tives' (or *Fruit Liver Tablets*) I began to improve and this medicine, made of fruit juices, relieved me when everything else failed."

BUTTER TAKING A DECIDED DROP DUE TO MILK WAR

Berkshire Creameries Are Getting Set-Back.

THREATS TO DUMP MILK

Men Guard Team of Nonstriker—Producers Claim They Will Not Yield Till They Get Their Price.

Pittsfield, Jan. 16.—Butter prices are on the wane and threats have been made to dump upon the ground the milk of one or two large producers who still continue to take their product to creameries, in the south Berkshire milk war. Hundreds of pounds of fine dairy butter is finding its way to the Great Barrington markets; in fact, the market is flooded and excellent butter can be bought for 60 cents a pound, which gives the creameries of that section, charging 70 cents, a decided setback.

The farmers, in the vast majority have decided to stand together until they get their price of \$4.01 a hundredweight for milk; otherwise, they will let it go to waste if they are unable to sell products made from it. The creamery near North Egremont has been closed because of the strike, as not enough milk was being received there to pay to keep the plant open.

The Willow Brook people are keeping the Sheffield creamery open, as there are still a number taking their milk there. One of the largest producers, who supplies from 21 to 23 cans a day, continues to carry his milk to the Sheffield plant, despite protests made by other farmers and also in face of threats to dump his milk on the ground. It is reported that several men have ridden on his team as it went to the creamery with loads.

Whether they were armed has not been ascertained.

Another large producer who has been supplying about the same number of cans to the Sheffield creamery has refused to do so any longer. A few other small producers still continue to take their milk at the old price of \$3.50 a hundredweight, but each day sees more long the strikers who hope that ere long their forces will be so strong as to make it unprofitable for any creamery to keep open. The producers claim they will not give in until they get their price.

MURPHY-KELSON

Wedding at St. Francis Church United Well Known Young People.

Miss Lillian E. Kelson, daughter of Mr. and Mrs. Hans Kelson of Old Bennington and Thomas J. Murphy were quietly married at the St. Francis de Sales church Wednesday afternoon at 3 o'clock. Rev. T. R. Carey officiated. Miss Kelson and Mr. Murphy were assisted by Miss Margaret E. Kelson of Troy as bridesmaid and Nicholas J. Morrissey, Jr., of Brooklyn, acted as best man. The bride was prettily gowned in a ruche chiffon dress with hat of the same color and carried a white prayer book. The bridesmaid, a sister of the bride, was becomingly attired in mohogany brown taffeta with hat to match.

The wedding ceremony was followed by a dinner at the home of the bride's parents with only immediate relatives of the families in attendance. The house was tastefully trimmed with ferns and marigolds.

Miss Kelson is a graduate of the Training School for Children's Nurses which is connected with the Troy orphan asylum and for the past two years has followed that profession in Troy. Her early education was derived from the public schools of Bennington and she has many friends here and in Troy who are interested in her future happiness.

Mr. Murphy is a well known young man of Bennington and is employed as clerk in the W. F. Shanahan and Co., market on Main street. He has the best wishes of a host of friends.

Mr. and Mrs. Murphy left on the 6:15 train Wednesday evening for Rutland on a wedding trip of two weeks. Upon their return they will begin housekeeping on Pleasant street. They were the recipients of many beautiful and useful gifts including cut glass, silver, linen, money and furniture.

DR. RODRIGUEZ ALVES DEAD

He Was President-Elect of Brazil and Ill Sometime.

Rio Janeiro, Jan. 16.—Dr. Rodriguez Alves, president-elect of Brazil, died today. He had been critically ill for some time. Under the constitution the election will be held to choose a new president.

To Ward Off Illness.

It does not take long for sluggish bowels and torpid liver to put the system in such condition that it does not ward off sickness as a well body should. If you are afflicted, languid or lazy, have "the blues," headaches, palpitation, biliousness, bad breath, gas, constipation or indigestion, you will feel better in the morning if you take a Foley Cathartic Tablet tonight. This wholesome and cleansing physic acts without griping or nausea. Sold everywhere.

PEACE CONGRESS ADOPTS SECRECY OF PROCEEDINGS

British And American Contend for Open Session.

SURPRISE IS EXPRESSED

Public Will Be Kept Completely in Dark Concerning Some Important Features of Negotiations.

Paris, Jan. 15.—No one outside of the delegates knows anything about the discussion which preceded today's decision to keep the proceedings of the Congress secret and to limit the information divulged to official statements.

The decision will preclude the American delegates and even President Wilson from discussing formal announcements that are issued. It has been believed here by persons close to Wilson that he would contend for an open session so far as possible. That he still feels the same way is the opinion generally expressed here.

London, Jan. 16.—Morning newspapers give much prominence to Paris dispatches referring to the decision that the peace congress proceedings are to be secret and contrast it with the official statement that there would be no censorship which was issued yesterday.

They point out that it furnishes inexplicable trouble. None comment editorially but most of them express surprise and disapproval by his headlines and brief introduction sentences. Protests are made that if the regulation is maintained, the public will be kept completely in the dark concerning some of the important features of negotiations.

Paris, Jan. 15.—After all that has been promised concerning open discussion in the making of peace, steps were taken at today's session of the Interallied Conference which show that the whole intent is to keep the people of the world in the dark as to what is going on behind the closed doors of the Quai d'Orsay. The representatives of the five great powers adopted a resolution that nothing about their deliberation be disclosed except what was contained in the colored daily communications.

Some of those connected with the conference construe the resolution as meaning that they are to be barred from seeing members of the press.

The whole spirit of the action taken is contrary in every respect to the assurance given to the American people, and already a feeling of discontent and indignation is displayed among the newspaper representatives from allied countries. The British correspondents made a formal protest, which was backed immediately by the American correspondents.

Outside of this new and most serious cause of complaint the American correspondents feel that they are not getting a square deal in obtaining information from the American delegation. The daily conferences between the correspondents and members of the delegation are unproductive in every way, and the conclusion has been forced upon the correspondents that the only source of news concerning American participation in the peace negotiations is the President, who is inaccessible.

In spite of condemnation which the war was on the secret methods prevailing at the Congress of Vienna, the conclusion is being forced upon observers here that this conference is the Congress of Vienna over again.

Paris, Jan. 15.—The question of whether the Peace Conference is to be secret or wholly open to the eyes and ears of the world, the settlement of which has been long awaited, was brought to a focus today when it was announced that an agreement had been made to confine the information given to the public to a daily official communiqué and that a gentleman's agreement prevailed among the delegates not to discuss or in any way give information of the meetings in the Foreign Office.

WEATHER FORECAST

For eastern New York and western Vermont, fair tonight and Friday. Probably rain or snow tomorrow.

Gray Hair

use
Hay's Health

A very mercurial preparation for restoring natural color to gray or faded hair. For removing dandruff and as a hair-dressing. It not only cleanses the scalp but also keeps the hair soft and pliable at all times. Ready to use when you get it. PHILIP HAY CO. Newark, N. J.

EXPLOSION IN MOLASSES TANK CAUSES DEATH

Eight Bodies Removed From Wreckage in Boston.

IT WAS FREAK OUTBURST

Possible Cause Is Fermentation of Molasses Producing Inflammable Gas—Buildings Totally Wrecked.

Boston, Jan. 15.—Several persons were killed by the explosion of a tank of molasses at the plant of a distilling company on Commercial street today.

Boston, Jan. 15.—Probably a dozen people were killed and fifty injured by the explosion of a huge tank of molasses on the water front off Commercial street, near Keaney square today. A large number of the injured were taken to the relief hospital. The tank was owned by the Parity Distilling company, a subsidiary of the United States Industrial Alcohol company.

A muffled roar gave but an instant's warning before the top of the tank was blown into the air. The circular wall broke into great portions of sheet iron which were impelled in opposite directions. Two million gallons of molasses rushed in a mighty stream over the streets and converted into a sticky mass the wreckage of several small buildings which had been smashed by the force of the explosion.

The tank was located not far from a city storage yard in which stood two frame buildings.

The greatest mortality apparently occurred in one of these buildings, where a score of municipal employees were eating their lunch. The building was demolished and the wreckage was hurled 50 yards. The other city building had an office on the ground floor on an adjacent above, and was similarly torn from its foundations. In this there were two women who were severely injured. One of the sections of the tank fell on the fire house, crushing it. Three firemen were buried in the ruins. One, Leahy, was killed and the other two were injured. A fourth fireman was thrown through a window into the water.

The other half of the tank wall crashed against the elevated structure of an elevated railway, damaging it. A train had passed over the spot but a moment before and another short distance behind was stopped by the block signal.

The intervening elevated railway undoubtedly prevented further destruction on the opposite side of the street, where there is a row of tenement houses.

The cause of the explosion had not been definitely determined tonight. Walter L. Wedger, explosive expert of the state police, said that he was not prepared to give a final opinion, but that it seemed probable to him that it resulted from gas fumes generated by fermenting molasses within the tank, which was not full. The molasses had been kept warm by steam heat from a plant at some distance from the tank.

ORCHESTRA CONCERT

Delightful Entertainment at Opera House Wednesday Evening.

Bennington people, and particularly those who fully appreciate the best in music, Wednesday evening experienced one of the rare opportunities in the lives of small communities, the concert given at the opera house by the Russian symphony orchestra. The program was composed almost entirely of classical selections that are admittedly "over the heads" of many of us, but at that one who had music in his soul even though he lacked knowledge must have been thrilled by the marvelous harmony that filled the auditorium.

The company was so large that the stage was crowded yet there was apparently not one discordant note. In every particular the concert was wonderful. The three solos were perhaps more deeply appreciated by the audience as a whole for the reason that the mastery of technique was more in evidence.

It is highly creditable to the community that such a large audience gathered on such an occasion. The presence of so many people demonstrated a pronounced tendency in the direction of better things.

In securing the entertainment Manager Harie made one of the best moves in his business career and one that will long be remembered.

A Working Girl's Life.

Day in and day out, month after month, she toils. Often she is the breadwinner of the family and must work that others may live. Rain or shine, warm or cold, she must be at her place of employment on time. A great majority of such girls are on their feet from morning until night, and symptoms of female troubles are early manifested by weak and aching backs, dragging-down pains, headaches and nervousness. Such girls are asked to try that most successful of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been giving girls strength to do their work.

CHILD LABOR PRODUCTS MAY BECOME TAXED

Agreed on Amendment to War Revenue Bill.

2-CENT LETTER POSTAGE

Action on Proposed Repeal of Present Zone System for Second Class Mail is Deferred.

Washington, Jan. 15.—The Senate amendment to the war revenue bill, levying a tax of ten per cent. upon products of child labor entering interstate commerce and designed to have the same effect as the child labor act recently declared unconstitutional by the Supreme court, was adopted today by Senate and House conferees. A separate vote on the amendment will be taken in the House before final passage of the bill.

Besides the child labor provisions, the conferees reached complete agreement today on nearly all of the miscellaneous tax disputes and have left for disposition only a few important questions. Several of the conferees believe now the bill will go to the President before February 1.

Another important Senate amendment accepted by the House conferees today was that removing war taxes on first class postage next July 1, when the pre-war rates of two cents an ounce on letters and one cent for post cards would again be effective.

Action on the second class mail provision of the Senate, proposing repeal of the present zone system and establishing new modified zone rates, was deferred.

MISS BESSIE MAY EDSON DEAD

Passed Away This Morning After Five Weeks Illness.

Miss Bessie May Edson, aged 27 years, died this morning at 3 o'clock at her home on Putnam street after an illness of pneumonia. Miss Edson was the daughter of Mrs. Bettie W. Edson and the late A. O. Edson.

The deceased was born at Snowden, N. C., and came here when a year old. She was educated in the Bennington public school and was later employed for several years in the office of the Powers Laundry on North street. In the early part of 1918 she was graduated from the Troy Orphan Asylum training school for children's nurses. After her graduation Miss Edson came to Bennington and was employed by Mrs. George Worthington, Jr., of Cleveland, O., and was later similarly employed by Mrs. Susan Colgate Cleveland with whom she remained until five weeks ago when she was obliged to return home because of failing health.

Miss Edson was a member of the Baptist church. She was a kind, generous, conscientious girl and her many friends will be grieved to learn of her death.

The survivors, besides her mother are Miss Maude A. Edson of Washington, D. C., Sergeant Guy O. Edson of Ontario, N. Y., and A. Sidney Edson of this place.

The funeral arrangements have not yet been made.

ASKED TO HOLD "WILSON"

Chelsea, Mass., Police Want Alleged Bad Check Operator.

Officer Richard Hurley this forenoon received a telegram from the chief of police in Chelsea, Mass., asking that the man arrested here yesterday for alleged irregularities with a check book be held and that an indictment would be issued.

The man when he called at the County bank gave the name of C. W. Wilson. In his pocket was found a check book of a national bank in Chelsea and made out in the name of J. Edward Blackwell. Over a dozen checks ranging from \$20 to \$70 had been drawn on an account which appeared from the stubs to amount to \$12,871.63.

It was under the name of Blackwell that the Chelsea police asked that the man be held.

UNDERSTANDING WITH JAPAN

Joint Control of Chinese Eastern and Siberian Railroads.

Tokyo, Jan. 14.—An understanding has been reached between Japan and the United States, the Kokumin Shimbun announces, apparently authoritatively, regarding the joint control of the Chinese Eastern and Siberian railroads, which for some time has been regarded with concern.

Notice of the agreement has been sent to the seven nations concerned. The plan includes the appointment of John F. Stevens as president of the operating board under a joint commission.

PROHIBITION IS RATIFIED BY 36 STATES NEEDED

Nebraska Legislature Cynched Issue Today.

VERMONT NOT IN LIST

Legislature at Montpelier in Fight Over it Today—Senate Ratifies By 24 to 4.

Lincoln, Neb., Jan. 16.—The Nebraska legislature today ratified the national prohibition amendment. Nebraska is the 36th state to ratify and its action today makes the amendment effective.

Montpelier, Jan. 16.—The fight over the ratification of the national prohibition amendment is on in the Vermont legislature today.

It was precipitated this morning by the news that 35 states had ratified and the prohibition leaders wanted to make Vermont the 36th state.

The senate passed the resolution of ratification by a vote of 24 to 4. The four negative votes were cast by Root of Bennington, Tenney of Windham, Kingsley of Rutland and Hall of Grand Isle.

In the House a resolution of ratification was offered by Belknap of Rockingham and referred by Speaker Dana to the committee on federal relations.

During the noon recess the dry leaders got together and agreed to attempt to force a vote on the resolution in the House this afternoon. In the meantime news came that Nebraska had ratified making the necessary 36 states.

Washington, Jan. 15.—Thirty-five States of the thirty-six necessary have now ratified the prohibition amendment to the United States Constitution. The Legislatures of five States ratified the amendment today—Idaho, Oregon, New Hampshire, Colorado, and Utah.

Under the Constitution the amendment "shall be valid, to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the States or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by Congress." In the case of the prohibition amendment now being voted on by the Legislatures Congress provided that the amendment should be submitted to the State Legislatures for ratification.

Of the forty-eight States, thirty-five have now ratified the amendment, within one State of the required three-fourths. It is expected that the "thirty-sixth State will ratify not later than tomorrow.

Under the terms of the amendment itself, nationwide prohibition goes into effect one year after ratification of the amendment. One year from tomorrow will be Jan. 16, 1920, and it is the contention of Anti-Saloon leaders at their national headquarters here that the terms of the amendment, regardless of any intervening agencies, nationwide prohibition will become effective not later than Jan. 16, 1920.

Congress, by appropriate legislation, has already decided that wartime national prohibition should become effective July 1, 1919, so that in actual practice national prohibition becomes effective six months before it could become effective under the national prohibition amendment. Under the wartime prohibition legislation, after it becomes effective, July 1, 1919, the nation must remain dry until peace is signed and the armies demobilized, the resident by proclamation to fix the date for such demobilization.

Chicago, Jan. 16.—Meanwhile the distillers through their chief of counsel announced twenty state constitutions will require referendum to ratify the constitutional amendment. Every resource of the distillers will be employed in an effort to save the businesses, it is said.

An important meeting of the distillers committee in New York, January 28 is planned to adopt a detailed program.

TURKS CAPITULATE

London, Jan. 16.—Turks, who have been holding over in Medina, the Holy City of the Mohammedans, capitulated to the King of Hedjaz, according to a statement. The official statement says—"Amur Abdullah, representing the King of Hedjaz, officially entered Medina at eleven o'clock Monday morning. He was enthusiastically proclaimed. He proceeded to the tomb of the prophet and offered midday prayer."

A Woman's Experience with Grippe

When a cough or cold "hangs on," and you have aches and pains in your joints and muscles, it is likely that grippe is taking hold of your system. Mrs. J. A. Rodgers, Switzer, S. C., says: "I am susceptible to colds; I often ending in grippe. In this case I have found Foley's Honey and Tar to prevent doctor bills." This sterling family remedy loosens the phlegm, stops irritation, allays soreness and inflammation and frees the air passages. Good for children. Sold everywhere.

YOU MEN WHO PAY THE FAMILY SHOE BILLS

Tramping 18 miles a day, Mr. H. M. Foreman, a mail carrier of Allentown, Pa., found that shoes with ordinary soles last about one month. But he says a pair of Neolin-soled shoes gave him more than nine months of service, in which time he walked over 4,000 miles.

His experience shows how you may save shoe money by providing your family with Neolin-soled shoes, which give extra wear where other shoes wear out quickest.

You can get Neolin-soled shoes in any type of shoe you want. Prices are about the same as for shoes that give only ordinary wear, sometimes they are even less. If your dealer hasn't the style you want, he can get it for you quickly. Remember, Neolin Soles are created by science to be wear-soles should be. They are available everywhere for re-soling as well as on new shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.
