THE TRAINED NURSE

HER STRENGTH SOMETIMES TAKED BEYOND LIMIT. A Graduate of the New York Training School Tells How She Recovers After Heavy Strain.

The trained nurse plays a very important part in the modern treatment of disease, partly in the relief of both doctor and patient. Because she is well disciplined she is able to perform difficult services...

Every word of the following careful statement of Mrs. Jessie M. F. Cummings, of 61 Whitmore Street, Hartford, Conn., a graduate of the New York Training School for Nurses, is entitled to the weight which attaches to the utterance of an expert.

"Several months ago," said Mrs. Cummings recently, "I was completely worn out as the result of a very serious and trying case I had attended. I needed a tonic, and so I resorted to Dr. Williams' Pink Pills for Pale People and took them faithfully. I obtained the good from them I expected for, and I can say with truth and pleasure that this remedy is a splendid tonic for woman's nerves."

The soundness of Mrs. Cummings' opinion is confirmed by the experience of numerous sufferers from nervous disorders of every kind and degree, from simple debility to partial paralysis. Dr. Williams' Pink Pills have cured obstinate cases of paralysis and even locomotor ataxia, the most frightful of all diseases of the nerves.

They check waste and begin to minister a fresh and lasting vitality anew. They are sold by all druggists throughout the world. A booklet giving information of great value in the treatment of nervous diseases will be sent free on application to the Dr. Williams Medicine Co., Schenectady, N. Y.
