Use Cool Rugs for Summer

A lot of people are beginning to realize that you can have a better vacation at home than away.

Instead of moving out of town and putting up with a lot of discomforts at a summer resort in order to get a change they are simply altering the complexion of their homes and spending part of the money they usually put on a trip in making their homes delightfully attractive for summer use.

You will find rugs a surprisingly important factor in making this change in your home. In winter your rugs are dark and warm looking. They are just as dark and warm-looking in the summer. Take up your winter rugs and put down rugs in cool blues, tans and greens of summer fabric.

You will be delighted with the change. You won't want to go away for that vacation this year.

See the splendid line of "Crex," Fibre, Melrose and Burma Rugs than we are showing in all sizes.

Sleep Out Doors

You who do not know the joys of out-door sleeping have never really slept.

Buoyant, irresistible good health is in the soft ozone of the summer night air.

Live out doors as much as you can in summer.

A cot with comfortable springs—one that is easy to move about—one that folds up out of the way in the daytime—a cot that is "weather-proof" is all that you need. Such a great summer comfort costs little.

Try it. You will find a new happiness in summer living. An all steel collapsible cot for \$2.50.

DON'T GET DISCOURAGED

In a few days you will get warmer weather so that you can wear your thin dresses, gauze hosiery, summer hats and parasols. If you have not got ready for this warm weather the following kinds will appeal to you as all right.

Thin Wash Coods
Nice lot of Sideband Muslins in assorted colors, also some grades in small patterns. These at 12 1/2c per yard.
Nice lot of Cotton Foulards. These in same patterns as Silk Foulards, some with sidebands. They look like silk. The price is 15c.
One lot of Colored Figured Flaxons. These for thin cool dresses are very pretty and desirable. Price 18c and 25c.

Thin Silks
This has been a Silk season. Fashion has ordered these thin Silks. Raw Silk has been low, so that good grades of Silks have sold very cheaply. Here are some of our best values:
On one of our tables are several 18 and 19-inch Silks in all the leading colors. These come in navies and small checks, also in plains, and the sale price is but 49c per yard.
We are still selling Warranted Yard-Wide Lining Silks, all colors at 57c per yard. We have already paid an advance on these and will soon have to mark them back to \$1.00, their value.
All of this season we have sold our 7000 yard-wide Messaline in all colors at \$1.00 per yard, a saving here for you. These we cut as wanted in very small pieces if wanted, at same price.
We have on sale a 40-inch Black Silk for dresses, coats and waists. This is a \$1.75 value—a special at \$1.25 per yard.

Ladies' Waists
We have just received another lot of the popular Waist of the season. The Middle Blouse, that had so large a run last season, will be just as good this season and in fact the Waist people predict a greater demand.
We received by express Monday morning a line of Waists that are made on the lines of the Middle Waist but of a different material and in a style that will appeal to you as so much ahead of the Middle that you will wonder why someone did not bring it out before.
They are made loose, straight effect, with a neat, wide collar of plain white and colors. This is a Waist that sell at \$1.00 and \$1.50. We also have a good line of the regulation Army Middle.

Ladies' Rain Coats
We have just received another lot of those double texture Rain Coats. These are the Coats that for service and comfort are the best we ever have shown.
These Coats are the Coats that are made of a material that will not wet through, neither will they rub off in the inside by wear as the Coats do that have rubber backs. They are a Coat that looks well, wears well and has got the style the public demands.
At \$6.50 we will give you the best Raincoat value we ever offered.
We have the other, Rubber-Lined Coats at \$5.00, but this is the Coat we are advising you to buy.
At \$8.50 is a Coat that is similar in style to the above, only is a better material and is made up a little differently. See this line of Coats.

We are speaking to you pretty freely about our kinds of Corsets. It's a line that we think does us good to speak about. This week we ask you to please notice in our south window a factory display of Nemo Corsets. They are certainly about right.
