WALL PAPERS WALL PAPERS

THE NEW RUNNINGS FROM THE MILLS ARE NOW IN

This season's Papers are far in advance of any previous showing in artistic effects. Did it ever occur to you why some rooms look more pleasant to you than others, and that this is due to the coloring and design of the Wall Paper?

The wall covering is the background of the room decoration; if it be cold in color, the room will appear cold; if the design fails in ornamental harmony, it will offend your eye and you will feel discontented with the surroundings. Perhaps we can help you in the selection of your color schemes—at least we ask you for your inspection of our various lines.
