Luncheon was served to the party during the evening.

Improvements to the interior of the Worthen block in the space formerly occupied by the Granite City laundry are nearing completion. The large rear room on the Keith avenue side of the building will be utilized by J. F. Sadtler for a show room. A large bay window designed especially for display purposes protrudes from the side of the block on Keith avenue as a result of the alterations, and other changes have been made by the carpenters.

Robert Smith, the former Goddard pitcher, who was given a tryout with the Chicago White Sox this spring, has been handed over to the Minneapolis club of the American association for seasoning. Smith changed his residence to the Miller city this week. Manager Callahan of the White Sox is favorably impressed with Smith and says he expects his return to big company with a little of experience. When the White Sox were touring California this spring, Smith, who has been residing in those parts during the winter, joined the Chicago camp and made a very favorable impression. Smith graduated from Goddard seminary in 1910, beginning a course at Tufts college the following year. He pitched superb ball both at Goddard and at Tufts.

Christian Henderson, an old timer in police court circles, was arraigned before Judge H. W. Scott this forenoon on an intoxication charge, subsequent offense, to which he entered a plea of guilty. It was the fifth offense recorded against Henderson since 1909, and on the strength of his record the court sentenced him to the state hospital at Waterbury in the last session of the general assembly. An officer will accompany Henderson to the state institution this afternoon. He was arrested last night at 11:30 o'clock by Officer Edwin L. McLeod.

James S. Duncan was very much surprised last evening when about twelve of his friends gathered at 17 Academy street to remind him of his birthday. The evening was pleasantly spent in playing progressive whist, singing and dancing. The best prizes were won by Mrs. "Bob" Knox and John Gibbs, while Miss Gladys Adams and Mr. Duncan captured the boobies. During the collation of ice cream, punch and wafers, Mr. Duncan was presented a gold cuff and pin set and a pair of traveler's brushes by Will Nelson, to which he heartily responded. The party broke up at a late hour, wishing him happy returns of the day.

FAVORS UNITED STATES.

Balance of Trade According to Report of Commerce Department.

Washington D. C., May 1.—Secretary of Commerce William C. Redfield, in commenting to-day upon the detailed figures concerning the imports and exports of the United States for the month of March and the nine months ended in March, said:

"The figures are striking, both in their magnitude and in their details. The aggregate business, inward and outward, of the United States with foreign countries for the nine months was a little in excess of \$3,300,000,000—an impressive total, which if maintained at the same rate would bring the business for the entire fiscal year well in excess of \$4,100,000,000.

Great Britain is our largest customer, buying from us over \$478,000,000 and selling us over \$234,000,000, an aggregate for the nine months in excess of \$712,000,000 or a total business of nearly \$80,000,000 a month. Canada is our second largest customer, buying from us \$200,000,000 in nine months, equal to nearly \$1,300,000 every working day. A pretty fair customer, that. Then Germany comes third, buying \$208,000,000 from us in nine months and selling us \$146,000,000. She is a pretty fair customer, too—buys over \$1,000,000 a day. And fourth comes France, to whom we sold \$120,000,000, and from whom we bought \$112,000,000.

LICENSE APPLICATION IN ORANGE REJECTED

It Is Thought Probable That No Permit To Sell Liquor Will Be Granted This Year.

In all probability the little town of Orange, which voted yes at the last March meeting, will continue to be only a mecca for fishermen who carry their bait with them, as the result of a meeting of the license commissioners yesterday when the only applicant, Bert L. Richardson, was refused a license to sell intoxicating liquor in the Jackson blacksmith shop, so-called, near Orange Center.

When the commissioners, who are Raymond P. Lord, George J. Cook and George W. Simpson, came together yesterday they found awaiting them a petition signed by a majority of land owners on the street where the shop is located. The petition objected to allowing the applicant a license to dispose of liquor on land adjoining property owned by the petitioners. According to the objections the board of commissioners is of one mind in refusing to favor the applicant of a majority of land owners the petition must be respected and due regard must be given the wishes of the petitioners. This happened to be the case at Orange yesterday, when a portion if not all of the commissioners were desirous of complying with the objections filed by the petitioners. Mr. Richardson's application was therefore turned down.

It was stated to-day that there was little likelihood of granting a license to anyone, now that the application of Mr. Richardson, who was the sole applicant, had been refused. The fee for conducting second-class licensed places is considered prohibitive when applied to small towns and for this reason it is not expected that anyone else will apply. Then, too, the hearing held on applications must be advertised three weeks in advance and by the time the board could get around to issue a license, the time when license begins to be operative under the statute would have been long passed.

TALK OF THE TOWN

Joseph Cook left this morning for Burlington, where he will visit relatives for a few days.

Miss Annie Harrington of Burlington is passing a few days in the city as the guest of friends.

Ralph S. Gould of Post Mills, H. H. Hopkins of Plymouth, N. H., and John Lawton of Bolton were among the business visitors in the city to-day.

Mrs. Mary John and Miss Annie Louis, who were called to Barre by the death of Mrs. Hyder Habeb, left this forenoon for their home in North Adams, Mass.

Miss Marion Kay, who has been spending the past week in the city, returned to-day to her home at Putnam, Conn., where she was called by the illness of a relative.

City Clerk James Mackay, A. P. Abbott and Rufus C. Robinson were called by automobile to Greensboro where they will spend a few days fishing on Lake Caspian.

Mrs. John Riddell of Williamstown, who has been staying with friends here for a few days, was called to-day to her home by the illness of her daughter, Mrs. George Gordon.

Harris' orchestra will go to-night to East Barre to furnish music for the annual baseball fair, which is being conducted at the East Barre opera house for the purpose of raising funds for the support of the East Barre A. C. during the coming season. The fair will continue until Saturday night.

Yesterday afternoon at the Granite City trotting park the Spaulding high school baseball team was handed a complete surprise in its practice game with the South End team and only captured the game during the closing moments by a score of 16 to 10. The game was fought on even terms up until the last few innings when by a sudden spurt Spaulding forged ahead. Connors was in the box for the Spaulding crew and was touched up rather freely. Levin was on the receiving end of the battery. Polli and Manera composed the battery for the losing team. Polli twirled an excellent game but was accorded with poor support.

A very pleasant surprise was tendered Mr. and Mrs. James Mackie, 13 Richardson street, last evening, when a number of their friends took possession of their home for the purpose of spending a pleasant evening with them before they leave Barre. Mr. and Mrs. Mackie were presented a handsome suit case, also a box of good "smokes," which "went" them. The presentation was made by William Hurry, and the recipients fittingly responded. Refreshments were served and the rest of the evening was spent in music and song, the good old Scotch songs predominating. Mr. and Mrs. Mackie leave for Montreal Sunday where they intend to reside. Their friends wish them godspeed and prosperity in their new home.

The city furnished a free shower bath to one of the employes of the New England Tel. & Tel. Co. this morning when the big oil sprinker swung down through Main street and failed to stay its flow of liquid dustbane when the tank passed over a manhole in front of the Union Clothing store. Down under the street a wireman was working on the telephone company's cable line and information of the sprinker's presence first came to him in the form of a generous dousing of oil. The man on the box had forgotten to cut off the stream as he passed over the manhole. Onlookers say there was a general exchange of words for a few moments after the anointing performance, but the little incident was closed when the driver and his tank of crude oil were presently lost in a cloud of dust farther down the street.

Dr. D. C. Watt, one of the largest fanciers of White Leghorns in this vicinity, is making extensive additions to his poultry yards at his farm in Danville near Joe's pond. To-day the doctor received a shipment of 1,000 day-old Leghorn chicks which will go to swell the hen population at his farm. By early next fall he expects to have added 2,000 more chickens of the same strain. The Corning system is used at the Watt farm and farmers for miles around have been interested in the methods adopted there for making hens produce. As another well known local poultry man declared to-day, the hen fancier's chief purpose should be to keep his birds happy, and when his present project is fully completed, Dr. Watt expects that every convenience available will be placed at the disposal of his fancy leghorns at Danville.

A new fireproof safe, one of the largest of its kind in the city, was unloaded in the Central Vermont freight yards this morning. It is to be used in the office of the water superintendent at city hall and during the forenoon a sizable band of men was engaged in transporting the safe to its new location and transferring two old safes from the city building to the freight yards. The new deposit vault is some 7 feet high and has a width of 3 feet. It weighs three tons and has been placed in the main office of Superintendent H. E. Reynolds' quarters. It was manufactured by the Morse Safe Co. of Boston, and the city gives in part payment, the old 3-ton safe formerly used by the government, and a smaller safe used until recently in the water office. The postoffice safe will be shipped to Boston, while the smaller one has been purchased by Angus A. Smith for use in his Montreal office. The water department's new safe is said to have cost around \$315.

OFFERS COLLEGE TO CITY.

Successful Institution of 40 Years Standing for Akron, O.

Buchtel college, a successful institution of forty years' standing, has been offered to the city of Akron, Ohio, for use as a municipal college or university, according to information received at the United States bureau of education. The corporation of the college finds that the institution has troubled its attendance in the past ten years without sufficiently increasing its endowment, and proposes to transfer the entire plant and endowment, valued at \$400,000, to the city, practically without restrictions of any kind.

If the offer is accepted Akron will have an educational institution of college grade that will meet the community's needs in a distinctly modern way. It will be known as the College or University of Akron, although in the event of the establishment of other schools or colleges the name Buchtel college is to be retained for the liberal arts department, just as McMicken college is a part of the University of Cincinnati.

In making this proposal the trustees point out, among other things, that as a municipal institution, and with very slight addition to the money now spent for educational purposes by Akron, the college would offer to all qualified students of the city a college education with free tuition; that the college can be made of practical use in the work of city government; and that the college will furnish an excellent basis for a greater municipal university that shall make ample provision for technical and professional training for the youth of the city.

Now is the time to get your screen windows and doors repaired at the C. L. Bugbee mill.
