10-CENT "CASCARETS" STRAIGHTEN YOU UP

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning.

Get a 10-cent box now. Turn the rascal out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels, or an upset stomach. Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken.

PACKAGES IN PORTUGAL.

Messengers Carry Them, as Stores Do Not Use Delivery Wagons.

Light delivery in Portugal is done almost entirely by men and women. Delivery wagons, such as are used in American cities, are unknown here. Some of the large department stores are now using motor trucks, but none has introduced a special parcel carrier. Lisbon and Oporto, the only large cities in the republic, are built on hills, and most of the streets are very steep, attaining a grade of 17 per cent. They are paved with stone and generally are in good condition. The roads immediately about these cities are fair and the grades are easy. County highways are a mixture of very good and very bad. They are not kept up as they should be and for short distances are apt to be extremely rough.

Nearly all articles such as are delivered in the United States from a light wagon or motor vehicle are sold here by men and women, who go through the streets crying their wares. Fish, fowls, vegetables, bread, oil, fruit, etc., are all carried on the head or shoulders of the vendor. Delivery of goods from small shops is made by boys or by the "zalego," who is found at every street corner. These men also transport pianos furniture and other articles of a similar character.—Consular Report.

MILITARY MESSAGES.

Some That Were Made Famous by Their Pith and Brevity.

Of famous military messages there are scores, beginning with the never to be forgotten "Veni, vidi, vici" of Caesar and that equally famous dispatch of Commodore Perry. "We have met the enemy and they are ours," but both were beaten for brevity by General Sir Robert Boyd, who while governor of Gibraltar, being in need of beef for his troops, wrote to the agent in England this laconic dispatch: "Browne, beef, Boyd." Browne sent the stores with the reply, "Boyd, beef, Browne."

And this in turn recalls the story of Peter de Dreux, the celebrated fighting bishop of Beauvais, who, being taken in arms by Richard Coeur de Lion, was imprisoned and fettered. Pope Celestine III remonstrated in behalf of the prelate, and in reply the king sent the bishop's helmet and armor to Rome with this neat dispatch taken from Genesis xxxvii, 32: "Know now whether it be thy son's coat or no." The pope declined further intercession and replied that the coat the king had sent did not belong to a son of the church.

but of the camp, and the prisoner, therefore, was at Richard's mercy.—Detroit Free Press.

Every Woman a Nurse.

Every woman, or at least almost every woman, has, at one time or another of her life, charge of the personal health of somebody, whether child or invalid—in other words, every woman is a nurse. Every day sanitary knowledge or the knowledge of nursing, or, in other words, of how to put the constitution in such a state as that it will have no disease or that it can recover from disease, takes a higher place. It is recognized as the knowledge which every one ought to have—distinct from medical knowledge, which only a profession can have.
