The Germans must feel highly flattered by the British imitation of their raids by air. Redfield of the department of commerce, in his talk to the delegates to the meeting of the United States, cited documentary proof in the hands of the department of the difficulties that some manufacturers and shippers were bringing about for the nation as a nation at the present hour by their cupidity and fraud.

As the co-operative basis in business supersedes the competitive, regulation of practices from within and by group action will steadily make unnecessary much of the legislation that society has been obliged to enact and enforce as a result of individualism and competition.
