The Original and Only 3 in 1 Vacuum Carpet Sweeper

SWEEPER-VAC, without electricity, does as thorough work as the expensive electric vacuum cleaners, but—

The SWEEPER-VAC costs so little that some people imagine it cannot do what it really does accomplish.

Just the natural, swinging carpet sweeper motion, that any woman can perform, is the SWEEPER-VAC way keeping all rugs and carpets clean all the time.

Costs less than the price of having a few rugs cleaned once. Because of increased output the price of the Sweeper-Vac has been voluntarily reduced. \$6.50, \$8.50 and \$10.50.

Refuse every machine that cannot actually show the 3 forms illustrated in the triangle. Look for the name "SWEEPER-VAC." Ask for our special Selling Plan.

For upward of 15 years he was an employee in the treasury department. Guy R. Varnum of 6 North street is slowly recovering from painful burns about the face which he received while working at the Bootwell, Mills & Varnum quarries in Graniteville last Saturday afternoon. Mr. Varnum was last engaged in thawing out a water pipe when a shower of steam came from one of several pipes over which he was leaning at the moment. The steam struck him full in the face, but Mr. Varnum had the presence of mind to close his eyes. Realizing that his condition was serious as well as painful, Mr. Varnum smeared his face with oil and hastened to his home here. Dr. W. D. Reid was called to treat the burns and the patient's condition is now much more favorable. Flesh about the eyes was so swollen from the effects of the steam that Mr. Varnum could scarcely see for a day or two after the accident. No permanent ill effects are expected to follow.

A MUSIC EXPOSITION.

Both Theory and Demonstration Given By Professor Dietz.

An occasion worthy of more than a passing notice was that offered last evening by the music department to the members of the Barre Women's club, it being a lecture-recital by Professor J. C. Dietz, now of Norwich university. All those who were privileged to hear it enjoyed an opportunity seldom afforded to get the very best in music.

A short lecture on the history and meaning of the music presented the recital, but very educational, and recalled his lecture to analyze in a small degree and much better understand the meaning of the following program: "Sonata, Opus 2, No. 3," "Sonata, Opus 27" (Waldstein) and "Sonata, Opus 111." Professor Dietz is a musician in the highest sense of the word, possessing the true musical temperament and the finest technique. His interpretations of the grand and beautiful forms of the great art of all nations, Bach, Beethoven, were revelations to the listeners, who followed him in the closest attention. It is great to know that Dietz will not be his last visit to the Women's club.

Having gone to the pains of obtaining bondsmen to secure the city in the sum of \$10,000, thereby fracturing with one fell swoop a precedent which has held almost unlimited sway in Barre ever since the office of second constable was inaugurated, George W. Parks, successful candidate for the first constable's understudy in the recent city elections, has petitioned the city council for a badge. It is interesting to note that Mr. Parks is the first second constable to qualify for his office in the memory of people who have been familiar with municipal affairs since Barre disposed of its village heritage. Mr. Parks is not asking for a diamond-studded token of his office, but he contends that the dignity of his position demands some mark of distinction. The administrative police committee has taken up Mr. Parks' request and in going over the list it develops that few of the second constables of history have been supplied with badges. A pair of chilled steel handcuffs were offered to Second Constable J. F. Smith and Second Constable C. T. Southgate had a rosewood billy, but it develops that neither one is in a position to hand over the official badge of authority.
