

SNAPPY BALL BY SPAULDING

Enabled the Locals to Defeat St. Albans High School, 4 to 2

TOMASI STRONG AT ALL TIMES

Sector Had a Bad Day in the Field, but Otherwise Tomasi Was Well Supported

For the second time this season Spaulding high school defeated St. Albans high school at baseball, both games being close and interesting and the second being won by a score of 4 to 2 at Lincoln campus yesterday afternoon.

The time of the game was in some contrast from their first one with the same team. At St. Albans the time of play was over three hours in length and yesterday the game lasted just one hour and 20 minutes.

In the second inning Kidder made a sensational catch in right field, bringing a cheer from the spectators, and in the other half of the same inning, Wood, the visitors' right fielder, did nearly the same thing.

The presence of ropes to hold back the crowd from the base lines was a good improvement to the field. Next some benches, please.

This victory is the sixth straight for the Spaulding nine.

Let the Spaulding boys make the game this afternoon with the St. Johnsburys the seventh straight.

SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid in the blood, which affects the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive process.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and improves the digestion. Don't suffer. Get Hood's to-day.

Last night. This afternoon they line up against the Montpelier high school team at Inter-city park.

The time of the game was in some contrast from their first one with the same team. At St. Albans the time of play was over three hours in length and yesterday the game lasted just one hour and 20 minutes.

In the second inning Kidder made a sensational catch in right field, bringing a cheer from the spectators, and in the other half of the same inning, Wood, the visitors' right fielder, did nearly the same thing.

The presence of ropes to hold back the crowd from the base lines was a good improvement to the field. Next some benches, please.

This victory is the sixth straight for the Spaulding nine.

Let the Spaulding boys make the game this afternoon with the St. Johnsburys the seventh straight.

Major League Umpire and Sporting Man Dies Suddenly at Pottsville, Pa.

Pottsville, Pa., June 5.—"Tim" Hurst, the former major league baseball umpire, died suddenly at the home of a friend in Mifflin county yesterday, from an attack of indigestion. He was 54 years old.

Hurst was one of the best known sporting characters in the country. He entered baseball in one of the cities of the Southern league 33 years ago, it is said, when he was a spectator at a game which was to decide the pennant.

The regular umpire quit under fire, and Hurst volunteered to take his place. In the final inning he called a home player out at the plate, with what would have been the tying run, at the same time drawing a pistol. Not a move was made toward him.

Hurst was known as a wit and for his ever-readiness to protect himself against attack. In his younger days, Hurst was engaged in the real estate business in Far Rockaway, N. Y.

COUNTESS TARNOVSKY FREE. Sentenced in 1910 to Eight Years' Imprisonment, She is Pardoned.

Milan, June 5.—Countess Tarnovsky, sentenced in May, 1910, to eight years' imprisonment for complicity in the murder of Count Kamarovsky at Venice, in November, 1907, has been pardoned and released.

The trial of the countess, with Dr. Naumoff and Attorney Priklouf, accused of complicity with her in the crime, was one of the most remarkable in the criminal annals of Italy. All three were found guilty. The trial which lasted nearly one hundred days, was attended by many representatives of the aristocracy.

The countess, whose beauty and manner won the sympathy of Venetians, was accused of causing the jealous youth, Naumoff, to journey from Vienna to Venice and kill the count.

The Moscow lawyer, Priklouf, was indicted for following Naumoff to Venice with the intention of killing him after the count's murder. Both charged the countess with being responsible for the plot, and each asserted she had promised to marry him after the count was out of the way.

Count Kamarovsky insured his life for \$10,000 in favor of the countess in 1907, and went with her to Vienna after he had promised to marry her.

TO SUPREME COURT. Steel Suit Likely to Go to That Tribunal.

Washington, D. C., June 5.—The full opinion of the federal court deciding against the government in the Steel corporation suit was laid yesterday before Attorney General Gregory, who examined it briefly before going to the cabinet meeting.

While officials of the department of justice would not say whether an appeal would be taken, it was generally expected that it would be carried to the supreme court.

POWERLESS BEFORE VITTY

Montpelier Seminary Batters Could Do Little with St. Johnsburys Pitcher

DEFEATED BY SCORE OF 8 TO 2 YESTERDAY

Some Costly Errors by M. S. Figured in the Scoring

Entirely at sea before the bewildering shoots of Vitty, the clever St. Johnsbury academy twirler, Montpelier seminary yesterday afternoon 8 to 2. The visitors pounded Baird hard, especially in the fourth and sixth innings, when they accumulated all but one of their tallies.

The hitting of Gallagher was the feature of a rather slow game, the sturdy first sacker making four hits out of five trips to the plate, and he was robbed of a homer in the seventh, when the "umps" declared the ball hit along the first base line a foul. Except for the sixth inning, when the locals crossed the rubber twice, Vitty was unhittable. The locals tallied on two hits and two errors, one by Vitty.

The runs were scored like this: After McSweeney had been retired on strikes in the fourth, Pearl singled and advanced on Gallagher's hit. Ricker sacrificed prettily, Pearl scoring. Vitty then came through with a third hit, scoring Gallagher. Two more bingles by Clark and Taylor were responsible for the third score.

In the sixth Gallagher singled and stole second. Ricker was passed and both runners advanced a sack on a passed ball. Vitty sent a line drive to center which Ricker muffed and two runs came across the plate. Vitty reached third and scored a moment later on another passed ball. Hadlock and his pitcher were seemingly crossing each other. Taylor singled and went to second on a passed ball. On an error by Hay at third after Salmon had been retired at first, Taylor scored. The visitors' eighth run came in the ninth as told above.

The seminary scored in the sixth, an error paving the way for the first run. Salmon fumbled Gray's drive and then threw wild to first. Gray taking second, Pike hit safely, the second hit off Vitty. Gray going to third. Walbridge went out on a fly to Clark, but the latter threw wild to third to catch Gray and he scored. Bell drove a safety to center and Pike danced to the plate. The seminary went out in order in the last three innings and in fact in seven of the nine frames.

Struck out—By Vitty 10; by Baird 4; by Hay 3. Double play—Walbridge (unassisted). Time—Two hours, Umpire—Cullen.

CHANCE FOR TURCOS. May Be Utilized in Hotels and Restaurants After War.

Paris, June 5.—The "turco," who likes far better to be called by his proper title of "Algerian Rifleman," will have a new career opened up to him after the war. It has been proposed to utilize the Kabyles of the Atlas region of Algeria to make up for the lack of hotel, restaurant and cafe employees. They are quick to learn, are sober, clean, discreet and polite. Eighty percent of the hotel, restaurant and cafe employes in France before the war were Germans, Austrians and Hungarians. They are preferred because the Frenchman who is less fond of travel, was weaker in languages. He had also less general experience, for the Germans generally learned English and American ways, as well as the English language, before coming here to learn French.

French hotel and managers of watering places are going after the trade of Caribbees and other German resorts in earnest. In cooperation with the touring club they have published a handsome pamphlet for world-wide circulation, setting forth the virtues of well known French resorts with many less fashionable and less known places where the waters are declared to have equally precious properties.

DEMAND BREAK WITH BERLIN. Portuguese Papers Demand Over Sinking of Merchantmen by Germans.

Lisbon, June 5.—Protesting vehemently against the sinking of two Portuguese ships by German submarines, the press of Portugal demands that the government immediately sever diplomatic relations with Germany.

1,282 GERMANS SAVED BY BRITISH SAILORS

Crews of German Warships Lost in Action Were Rescued—Germans Have Effected Few Rescues.

London, June 5.—Of the crews of German warships lost in action, 1,282 members were rescued from the water by British sailors. In addition, about 40 who were picked up by the British submarine E-4 in the North sea last August were given boats, provisions and a compass in order to proceed to Heligoland, as they could not be taken on board.

When the Mainz was sunk in the first month of the war, 353 Germans were picked up, and 283 were rescued from the Blocher in the action off Doggerbank. This list includes only the rescues made by the British warships engaged and not cases where the crews were saved by other means.

The complaint has long been made that Germans made no effort to rescue the British sailors in the Falkland island battle. Altogether only one officer and 12 men, who belong to the destroyer Crusader, have been taken from the sea and made prisoners by the Germans. Six officers and 70 men from the destroyer Maori were captured, but they were rowing in their own boats after their vessel was sunk.

FATHER RESCUES MISSING GIRL IN RAID

Ellsworth Fields, 17-years-old Boy, Accused of Posing as Her Husband.

Southampton, N. Y., June 5.—Ellsworth Fields, 17 years old, of Sag Harbor, was arrested here Thursday night after an irate father had stormed a house and taken away his daughter, who had been missing from home since Wednesday.

Evelyn Bishop, 14 years old, daughter of Oliver Bishop of Greenpoint, is the girl. She went to Sag Harbor on Wednesday and on the next day came to Southampton, where she met Fields. A brother of Fields is employed at the local electric light works and Fields, it is charged, took the girl to him and introduced her as his wife. The elder Fields took them home to dinner with him and gave them a room for the night.

Mr. Bishop had been seeking his daughter, and having obtained a clue came here with Constable Morris Conkin. The clue involved the Fields boy, and with the aid of the police his brother was found. The party arrived at midnight and aroused the household.

MACEDONIAN PHALANX Used by Germans for the First Time in This War in Advance on Russia.

Petrograd, June 5.—For the first time in this war, the Germans in their latest advance into Russian territory, have adopted a new tactical formation for attack. The new formation is likened by military experts here to the Macedonian phalanx—with this difference, that it is composed, not of individuals, but of divisions and army corps.

This phalanx, in the advance from Cracow, moved along the line of the Gorlice-Jasko-Kreszoff railway, and included 16 full army corps, of which five, forming the main striking head, were picked troops withdrawn specially for the purpose from the French front.

The phalanx was superabundantly provided with artillery, including a large number of heavy batteries. The latter were also in many cases brought across Germany from the French front. For example, 24 battalions of the Prussian guard corps had with them 40 batteries, half of which were of heavy caliber.

The formation, in fact, is a new application in modern war, had naturally a tremendous driving force, but it was deprived of any great possibilities of tactical movement by the fact that it was chained to a line of railway, whereby alone it could maintain its supplies and munitions in the quantities required by such a huge concentration.

The Germans, in withdrawing many of their best troops from the French front, filled the gaps necessarily left there, with overpowering technical superiority. Thus where the Germans find themselves opposed by a thousand men and two machine guns, they post 100 men and 20 machine guns, confident that by continuing on the defensive with an extended use of the technical adjuncts of warfare they can safely withdraw their best troops for temporary service elsewhere.

PRESERVES RIGHTS OF PRESS. Libel Case in Connecticut Dismissed Because Editor Exercised Only Duty.

Waterbury, Conn., June 5.—The criminal libel suit brought by State Senator James A. Pease, of this city against William J. Paep, editor of the Waterbury Republican, ended abruptly in the district court late yesterday when Judge Isaac Wolfe, after opposing counsel had in his opinion the state could not make out a case against the accused and dismissed the suit. In the preliminary hearing the editor was sentenced to thirty days in jail, but on an appeal was taken. In sustaining a demurrer as to the form of the complaint, Judge Wolfe stated that if the theory of the state were correct, no newspaper that exercised its duty and privilege of comment and criticism upon candidates for office, or upon the acts of public officials, would be safe in the exercise of that duty.

NATION TO RULE LABOR

Compulsory Service at Home for Great Britain

NEEDED TO GET MUNITIONS

Workers to Win or Lose the War, Says Lloyd George

Liverpool, June 5.—England's fate rests with her laboring classes, David Lloyd George, new minister of munitions, declared yesterday afternoon in an address to the organized battalions of longshoremen here.

"There was never a war in history in which the laborers at home played so important a part," said Lloyd George. "If labor does not pull with the government, then the whole machine is clogged and demoralized."

Lloyd George attributed the Russian defeat at Przemysl and in the whole Galician campaign directly to the allies' lack of ammunition. He repeated the statement he made Thursday night at Manchester that it might be necessary for the government to use compulsion in pressing the manufacture of munitions of war.

100,000 JEWS ARE HOMELESS

Warsaw Papers Smuggled Into Lodz Say the Number Behind the Russian Lines Is Increasing Daily.

Lodz, Russian Poland, June 5.—Warsaw newspapers which have been smuggled through the lines say that the number of homeless Jews in the Russian side is increasing steadily. At a conference in Moscow recently of the Jewish Aid society, it was estimated that the number of these homeless persons is about 100,000.

The greatest distress prevails among the homeless in the government of Lomza, numbering about 22,000. Thus far it has been almost impossible to give them substantial assistance. At the Moscow conference it was decided to appeal to Jews throughout Russia for aid, and a plan was discussed for taxing wealthy Jews for the benefit of the sufferers.

ANTI-AMERICAN RIOTS ENDED. With Government Announcement of Internment.

London, June 5.—With the government's announcement that enemy aliens in Great Britain would be either interned or repatriated, all anti-German rioting stopped and the fickle public attention turned itself to other matters. With the public clamor thus sidetracked, the government likewise quickly turned to other matters, and after a day or two the sudden acceleration in the internment of aliens slackened.

The military authorities are naturally reluctant to have thrust upon them suddenly and large number of internment cases than can be handled easily in the camps already established, and there has been no move to develop mushroom camps which would soon have to be condemned as unfit. It is also regarded as unwise to permit anything in the nature of overcrowding at camps already in existence. No steps are to be taken to charter additional vessels for purposes of alien internment.

So the actual fulfillment of the government's promise to intern or repatriate all enemy aliens is likely to be realized only after considerable delay. Such alien as surrender for internment are disposed of as rapidly as possible, but there has not been any combining of the highways, and only in exceptional cases have known Germans or Austrians been called upon to give themselves up.

A number of men and women who are within the possible scope of the internment order are being dealt with by the emergency committee for the assistance of Germans in distress. Those who have thus far sought the assistance of this committee have been mostly women, some of them British with German husbands. A number of them are people who were rendered homeless as the result of recent anti-German rioting. When these homeless ones are not immediately required for internment they are given food and lodgings in a building provided by the committee and under the nominal supervision of the police.

GRAFT WAS DETECTED. Aid Supplies from United States Were Sent to Proper Destination.

Cairo, June 5.—Refugees who arrived at Alexandria from Jaffa, stated to a representative of the Egyptian Gazette that the American consul at the Syrian port shipped a van of the Turkish officials there to keep for themselves three-quarters of the relief supplies of food contributed by the Jews of the United States to their suffering so-religionists in Palestine.

The food was brought over on the American ship Volcan. Her arrival at Jaffa was enthusiastically greeted by the Turkish authorities for a reason soon apparent. Before allowing any food to go through to the starving Jews, they demanded the greater part for themselves.

Royal permission to land the supplies had, however, been granted by the Sultan, and the arrival of the consul with the necessary papers settled the matter. Negro Lynched in Kentucky. Princeton, Ky., June 5.—Masked men overpowered the county jailer here early yesterday, dragged Arthur Bell, a negro, from his cell and hanged him to a tree in the jail yard. Bell was charged with having attacked a young white woman in the eastern part of Caldwell county last week. The execution was conducted in a quiet manner and no crowd was present.

Get Under a Panama!

☞ Pretty soon the really hot days will be here, and then you'll sweat and fume even under the best of conditions.

☞ If you want to keep your head cool every minute of the day wear one of our cool, light Panama Hats.

☞ Light as a feather, stylish as the style man can make them—and inexpensive, too.

☞ Try one on—you'll buy it.

FORD MOTOR CO. CAPITAL NOW \$100,000,000

Increased from \$2,000,000—Stock Dividend of \$48,000,000 Declared—Also a Cash Dividend Not Made Public.

Detroit, Mich., June 5.—The Ford Motor Co. announced yesterday that it had increased its authorized capital stock from \$2,000,000 to \$100,000,000 and had declared a stock dividend of \$48,000,000, payable July 1.

A cash dividend was declared on the original authorized stock of \$2,000,000, but the amount was not made public. Last year the distribution was \$10,000,000, or 500 per cent. on the old capitalization of \$2,000,000.

The hugemelon being cut is shared by eight stockholders, these being Henry Ford, president, who holds 58 2/3 per cent. of the stock; James Couzens, vice-president, and treasurer, John F. and Horace E. Dodge, Horace H. Rackham, John W. Anderson, David Gray, and R. V. Couzens.

The stock dividend increases the holdings of Henry Ford, president of the company, by \$27,840,000. The stock increase brings the issued capital stock of the concern to a valuation of \$50,000,000. The remaining \$50,000,000, it was announced, will remain in the company's treasury "to be used as conditions demand in the future."

In August, 200,000 owners of Ford cars will receive a share of the company's profits in the form of rebates aggregating \$15,000,000.

SURVIVED TRIPLE ATTACK. Ship Escaped Zeppelin, Submarine and an Aeroplane.

Rotterdam, June 5.—After being attacked in succession by a Zeppelin, a submarine, and a German aeroplane, the Cork Steamship company's ship Leistris reached this port safely from Liverpool. "There were more thrills packed into this short voyage than ever before before the war," declared the captain on landing. "The first part of the trip was uneventful, but as we neared the Dutch coast things began to happen. First came a Zeppelin, which attacked us before daylight one morning, dropping twenty or thirty bombs. Considering that we carried all the regulation lights we were lucky not to be hit."

"Soon after sun-up, having lost the Zeppelin in the haze, we sighted a submarine half a mile away. She gave chase, but we sent every man to the stokehold and steered a zigzag course, so that the submarine quit the pursuit after half an hour's hard work."

"It was a little later in the same day that an aeroplane favored us. She circled overhead several times and dropped two bombs, but her ammunition was evidently scarce, and she didn't stay with us long. Neither bomb came close to us."

VIENNA SEES STILL GREATER VICTORY

Heavy Fighting Now Going On Along the Entire Galician Front, It is Reported.

Austro-Hungarian Field Headquarters (via London), June 5.—According to information given out by the Austro-Hungarian military authorities to representatives of the press, heavy fighting is now in progress along virtually the entire Galician front, and the general situation is very favorable to the Austro-Germans. A decisive conclusion to the entire Russian campaign in Galicia is in sight.

ALASKAN VOLCANO STILL BUSY. Iliamna on West Shore of Cook Inlet Spouts Fire Every Two Minutes.

Seward, Alaska, June 5.—Iliamna volcano, on the west shore of Cook inlet, continues in eruption. Its activities were plainly visible last Tuesday to passengers on the steamer Niropusa, 50 miles distant. The snow had been melted from the upper portion of the peak. Smoke and flames burst from the crater at two-minute intervals, but no explosions were heard.

Bill Gets Through. Boston, June 5.—The bill permitting railroad corporations to issue bonds or other evidences of indebtedness under a mortgage, suggested by Governor Walsh after his veto of the original New Haven railroad bill and drawn in conformity with the Connecticut statutes, was passed by the legislature yesterday.

"They say every big family has a black sheep. Well that's the way of the world. Even among Diamond Tires there's about one out of every hundred that isn't just what it ought to be."
—Mister Squeegee

We don't judge families by their black sheep. We judge the black sheep by their families. And the better the family the blacker the sheep. So when a Diamond Tire gets into trouble we think more strongly about it because it comes from such a good family.

But isn't it a wonderful record—about one Diamond Tire in every hundred a black sheep—Oh, not really deep-dyed black—let's say it's sort of a dark grey sheep actually.

The difficulty is that Diamond Tires can only be compared with Diamond Tires. There's no other standard of comparison.

Send for our book of letters from dealers who sold Diamond Tires in 1914.

It tells how more than 99 out of every 100 of the more than half million Diamond Tires sold last year gave maximum service at minimum mileage cost. It is yours for the asking.
