

TO LOCK BORDER DOOR

Lower Rio Grande Regulations Are Tightened

NO PASSAGE OVER TO BE PERMITTED

Persons Forbidden to Appear Along the River

Brownsville, Tex., Sept. 15.—News of the dispatch of two troops of cavalry to Ft. McIntosh, near Laredo, was received yesterday and gave still further ground for the belief already established in the minds of many well-informed persons here that the American army authorities will find it expedient soon to establish more strict regulations governing passage between Mexico and this country along the lower part of the Rio Grande.

Acting in co-operation with state and county officials, the army has already greatly restricted this passage. Women and children are allowed, in most cases, unquestioned freedom in crossing the river, but males old enough to bear arms are allowed to pass only after rigid examination as to their object. It is now believed that women and children will be placed under the ban and restrictions on the males will be still further tightened.

There are some in a position to know who even say that it is the ultimate intention of the army literally to "seal up" the lower course of the Rio Grande from Brownsville on the west to some such point as Laredo, and to permit no one of any age or sex to cross the river between these points without some urgent reason that will justify their passage in the minds of the officials.

It is probable, too, that the importation into Texas from Mexico of cattle, horses and other commodities suspected of having been stolen or "confiscated" will likewise be barred. Boats, already under the ban, will be still more thoroughly searched and either held by the authorities or destroyed.

All persons, both military and civil, have been forbidden to show themselves along the American side of the Rio Grande, soldiers being excepted when duty compels breaking the rule. Similar orders have been issued by Carranza's Gen. Nafarrete to his men.

CARRANZISTAS BEAT BANDITS.

They Win Three Battles in as Many Days.

Washington, Sept. 15.—Carranza forces have defeated bandits in three battles in the last three days between Oraba and Vera Cruz. The isthmian railroad at Oraba, state department reports say, is being guarded by 5,000 troops.

DEFENDS ARIZONA LAW.

State Attorney General Argues for Its Constitutionality.

Washington, Sept. 15.—Atty. Gen. Jones of Arizona has opened the contest in the supreme court over the constitutionality of the Arizona alien labor law by filing a brief in support of the statute. He contended that the very welfare and preservation of the nation demanded that only American citizens be employed in the copper mines of Arizona. He referred to the use of copper as a crime for an employer of more than five workmen to employ less than 80 per cent qualified electors or native-born citizens. The case will be heard by the court next month, and because of international complications involved promises to become one of the most important to be decided during the coming year.

SUGGESTS ROSE-BERRY AS CHIEF BRITISH CENSOR

Present Officials Are Well-Meaning, But Merely Underlings, Says London Globe.

London, Sept. 15.—"As constituted at present," the Globe said yesterday, "the press bureau too often is the agent for enforcing trivial prejudices of permanent officials at the admiralty, war and foreign offices. We do not suggest that the power of the press bureau is diminished, but rather that it should accept a definite policy.

"The present directors are well-meaning gentlemen, but they are merely underlings whose duty it is to carry out the instructions of government departments. We believe great improvements could be effected if a broad-minded, statesman-like man of the world were made director. He would need to be big enough to keep politicians and permanent officials in their places, as well as the newspapers, but would see that there was fair play and would have little sympathy with foolish restrictions."

The Globe suggests that Lord Roseberry would be a suitable director, if he could be induced to accept.

Prof. Wing Dead.

Boston, Sept. 15.—Prof. Charles Hallet Wing, formerly head of the department of chemistry at the Massachusetts institute of technology, died yesterday, aged 80 years.

IN BOSTON MARKETS

Butter Prices Decline—Prediction That Eggs Will Be Higher Than Ever.

Boston, Sept. 15.—The decline of the past few days in butter prices in the outside markets does not seem to encourage local buyers to take hold freely, and with receipts still running pretty heavy for the time of year, quotations are more of an asking than a selling basis on everything except the very best goods in small packages.

The cheese market shows a further advance under the influence of higher prices in the primary markets. The egg market continues pretty much a seller's affair, for receipts are not increasing as they usually do at this time of the year. The "harvest" lay of eggs does not promise to be anywhere near as large as usual, for the hens have laid eggs without interruption since early last spring, and this is taken to mean earlier moulting than usual. The prediction is

frequently heard these days that eggs will be higher this fall than they have ever been.

Jobbing quotations:

BEEF STOCK PRICES LOWER.

Heavy Arrivals at Brighton and Watertown.

Brighton, Sept. 15.—Eastern trains were again late at Brighton stockyards yesterday morning and trading was slow, with beef stock of all kinds easy and lower. Other stock was well-sustained at about last week's level.

Heavy cattle were quiet and easy, and shippers found it difficult to get 8 cents even for the best pairs. The range of prices were 7 to 8 cents, with good cattle at 6½ to 7 cents and light cattle at 6 to 6½ cents.

Fancy beef cows and heifers brought 6½ cents for the best, but few were choice enough to bring over 6 cents, which appear to be about the top for average. The range for anything below fancy was 5½ to 6 for the best, 4½ to 5 cents for good cows, 3½ to 4 cents for ordinary and 3 to 3½ cents for canners.

Bulls were in heavy supply for medium grades. Bids were generally 4 to 5½ cents, with some heavy bid at 6 to 6½ cents. Bologna bulls were scarce, but offerings were held firmly at 3½ to 4 cents.

SHARP DECLINE IN AMERICAN EXPORTS

Decline from \$60,000,000 for Week Ending Sept. 4 to \$33,590,700 for Following Seven Days.

Washington, Sept. 15.—Exports fell off sharply during the week ending Sept. 11.

The amount of \$33,590,700, the lowest for one week this year and a drop of \$27,000,000 from the week preceding.

The trade balance for the week fell to \$6,721,241.

Although the figures represent only five days of actual business, no trade having been recorded for Labor day, the decrease is far out of proportion to the loss of a single day.

Imports for the week were \$26,921,467.

No definite explanation is available in official circles for the change. Some officials believe trade has slackened while the British loan is being negotiated.

THRILLS AT THE FAIR

Aviator Redding Hits a Tree and Is Thrown to the Ground

PARACHUTE JUMPER LIGHTED IN A TREE

Cochato Maid and Aldine the Winners in Yesterday's Races

White River Junction, Sept. 15.—The opening day of the Vermont state fair was interesting in more respects than one and thrills were furnished for the 5,000 people in attendance that were not on the scheduled program.

Capt. Chauncey Redding, the aviator who all of last week made thrilling flights at Hampton Beach, met with an accident in his first flight here yesterday. He experienced difficulty in getting into the air and only arose about 100 feet and made a partial circuit of the grounds when one plane struck a tree, capsizing and throwing both Redding and his parachute jumper, who accompanied him, to the ground. Both received severe shocks but were not seriously injured.

The machine, a Curtiss biplane, was badly wrecked. It is hoped, however, that another machine may be used in time for flights to-day.

Redding has sent for mechanics to repair his machine, but another machine will be secured if possible.

Aeronaut Flexon, who makes parachute jumps from an air-inflated balloon, met with an accident in his first flight. The bag was nearly inflated and he was about ready to cut loose when a gust of wind struck the balloon and sent it dragging over the ground. The bag was torn in several places and it was nearly 6 o'clock before the balloon arose on its flight.

At an altitude of 1,900 feet Flexon made his first drop. Before reaching the ground he had used three parachutes. He alighted in a tree and was badly scratched and somewhat bruised, but will do his act again to-day.

Two of the best races seen on a Vermont track were run off in the afternoon. In the 2:19 trot, with four horses to start, there were four heats. Cochato Maid, from the Winter Hill stables at Somerville, Mass., was the winner. In the 2:30 pace an accident occurred in the first heat. Wendell S., a chestnut gelding owned by Will S. Page of Barre, breaking and before recovering his feet, turned a complete somersault. The sulky was thrown into the air and Driver Campbell landed on the track fully 20 feet away. Fortunately neither horse nor driver was injured. This race went six heats, a comparatively new man in the trotting business, Charles Martell of Williston, bringing his almost unknown bay stallion, Aldeen, Jr., in a winner in the last three heats. The summary:

To-day members of the Montpelier Board of Trade will visit the fair, coming in 60 automobiles, and the merchants' association of Rutland will come to the fair in 40 automobiles.

The automobile department in the office of the secretary of state is represented here this week by two inspectors, John B. Guild and Will S. Touchant of Essex Junction. They see that all automobiles are complying with the law as regards registration and automobiles used for hire are inspected as to their physical condition.

Judging of the stock began Tuesday morning and in the judging of some of the classes of the Morgan horses the following is noted: In class 5 with 12 entries, 10 of which were shown in the ring (stallion foal of 1915), Caryville, sired by Lyndon and only three weeks old, received the yellow ribbon, thus winning a prize of \$5, making probably the youngest premium winner on the ground.

In class 7, mare or gelding three years old and under four, in the Morgans Jonathan J. took the blue, Pauline the red, and Roxanne the white.

In the Percheron stallions, four years old or older, T. J. White's Mayor of Woodstock won the blue and D. M. Huffer's Gibson the red ribbon. The latter is cared for largely by Master Clifton Blake, 11 years of age, a step-son of Mr. Huffer, and who is anxiously proud of his four-footed charge, looking carefully for all points which may count in his favor, the horse, which is a beauty, evidently reciprocating the lad's affection.

In the automobile exhibit in the shed formerly used as a cattle shed, W. G. Bullman of West Lebanon shows the Jeffrey and Stuchelers cars, the Rutland Garage Co., Jackson automobile; the Smith, Auto Sales Co. of Lebanon, three Buick cars; the Boston branch of the Saxon Automobile Co., two Saxnas, and the Knapp Motor Car Co., the Overland and Cole cars and the Knapp Motor Car Co.'s automobile skis for winter driving.

The Winner Military band of 25 pieces furnish the band music for the fair, and are a fine band.

The entries for wrasse comprise 20 hands shown by C. H. Marshall & Son of Vergennes 14 head, and W. E. Alesh of the same town, 10 head; Berkshire exhibited by the Billings farm of Woodstock, 11 head; and Otis Hill farm of Putney, 14 head; Jersey Red, shown by Owen Mason, Jr., of South Woodstock, 25 head; and the Chester Whites, shown by A. P. Duggan & Sons of West Waterbury 23 head; C. A. Neal of Hartwood 8 head, J. O. Smith of Hartford 10 head, and one hog by A. G. Hunt of Tarkenton. George T. Pierce of Burlington shows seven of the Melinot breed. These are the principal exhibitors.

Twenty-four boys from the different Pinnac groups of Vermont under the direction of the extension service of the state agricultural service are occupied with the hill or rise in the southwestern

part of the fair-grounds with Capt. Reeves, university military instructor, in charge of the camp, assisted by his subordinates. The service have an exhibit in the former agricultural building, this year principally devoted to their use, showing and giving information on forestry, seeds, grasses, fertilizers and other things of general and useful interest to the farmer. An interesting exhibit in agricultural hall comes from the great Canadian Northwest and upper Canada, which comprises specimens of the grains and grasses grown in those sections, with fruits and vegetables, honey and maple sugar. This is somewhat an advertising scheme to induce settlers to locate claims and enter into agricultural pursuits on lands now owned by the government, but the melons, squashes, beets and other vegetables look as good tasting as those grown in Vermont.

Attention is called to the sale of registered Holsteins from the well-known herd of Prentiss & Lovell, which takes place at 10 o'clock Thursday forenoon, and which will be followed by a sale of registered dairy shorthorns entered by Miss Jo Everts, daughter of the late Maxwell Everts of Windsor, former president of the association. It is hoped to make these sales of blooded stock a permanent feature of coming exhibitions.

The meeting of the Morgan Horse club will be held on Thursday at 12 o'clock. The election of officers takes place at this meeting.

The fish exhibit is as usual in the little building at the left of the exhibit of the Greater Vermont display, and is an instructive and attractive feature, while in an enclosure near by is a young fawn to please the little ones.

STILL PROBING ARCHIBALD CASE

Discussion of Important Matter as to Whether Presentation to Federal Grand Jury is Justified.

Washington, Sept. 15.—United States District Attorney Marshall of New York, will have direct charge of any proceedings taken against James F. J. Archibald, the American newspaper man detained abroad with Dr. Dumba's munition letter to the Austrian government, had a long conference yesterday with Assistant Attorney General Warren and Frounce Bielski, chief of the bureau of investigation of the department of justice.

Mr. Marshall denied that the conference concerned the possible detention of Archibald when he returns to the United States from Holland. Mr. Warren said the case was discussed only to the extent that he told Mr. Marshall that when the department concludes its investigation it will forward the facts to his office and then decide whether there is ground for presentation to the federal grand jury. The investigation is under way but not complete.

Mr. Marshall's visit, officials said, was primarily in connection with passport frauds which have been committed in recent months in New York.

EASTERN HOT WAVE WILL CONTINUE

Weather Bureau Predicts No Change for Thirty-six Hours—Unseasonably Cool in the West.

Washington, Sept. 15.—No relief from the excessive heat which has gripped the East and South since the middle of last week is promised by the weather bureau during the next thirty-six hours. Unseasonably cool weather prevails in the West and temperatures at or below the freezing point are reported from many points on the Rocky mountain and the plateau region.

VAN HORNE'S BODY TO ILLINOIS.

Funeral Services Attended by Many Eminent Men Held in Montreal.

Montreal, Sept. 15.—Funeral services attended by representatives of the dominion and provincial government, the Canadian Pacific railway and every business and professional organization in this city, were held yesterday for the late Sir William Van Horne. The head offices of the Canadian Pacific railway, of which Sir William was formerly president, were closed for two hours and flags were half-staffed on all the company's buildings from London to Hongkong.

Sir Thomas Shaughnessy, president of the road, and all the vice-presidents attended the services in a body. The chief mourners were R. B. Van Horne, a son; A. C. Van Horne, brother, and W. C. C. Van Horne, grandson. The body was taken to Joliet, Ill., Sir William's birthplace, where it was buried beside his father and mother.

ZEPPELINS AGAIN VISIT BRITAIN

No Casualties and No Damage, However, in Latest Raid on East Coast.

London, Sept. 15.—Another German air raid was made over the east coast of England Monday night, but as far as appears there were no casualties and no damage was done.

A single Zeppelin was the raiding aircraft, according to the official announcement, which read:

"A Zeppelin visited the east coast last night. Bombs were dropped. Anti-aircraft guns, fixed and mobile, were in action.

"So far as can be ascertained, there were no casualties and no damage was done."

FRANCE IS TO SPEND \$13,000,000 A DAY

This Will Be Her Total for the Last Three Months of the Year.

Paris, Sept. 15.—During the last quarter of the year the expenditures of the French government probably will run in excess of \$13,000,000 a day. The minister of finance, Alexandre Ribot, will introduce in Parliament Thursday a bill providing for appropriations of \$1,220,000,000, or slightly more than \$300,000,000 a month. When this bill is adopted the total of appropriations since Aug. 1, 1914, will be \$5,228,800,000.

WATERBURY STRIKES.

Men Quit Work and Others Return to Jobs.

Waterbury, Conn., Sept. 15.—Twenty more machinists, making about 100 in all, struck at the works of the Waterbury Farrel Foundry & Machine company yesterday.

This plant and the plant of the E. J. Manville Machine company are still open. There are 188 men out at the Manville factory.

Most of the strikers at the Benedict & Burnham branch of the American Brass company returned to work yesterday.
